

UNDER CONSTRUCTION

ROBINHOOD/DOOLEY

STORM DRAINAGE IMPROVEMENT PROJECT

Contractor installs a 42” pipe and junction box in Lake Forest Drive.

Dear Resident:

Construction continues for Charlotte-Mecklenburg Storm Water Services’ Robinhood/Dooley Storm Drainage Improvement Project.

- The major culverts on Robinhood Circle have been completed. Stream restoration work has begun in this area and includes reshaping the channel for better capacity and more natural function. Various types of engineered grade controls are being installed in the stream channel to slow down water and reduce erosion, and stream bank stabilization is being installed.
- Work on Lake Forest Drive at the entrance to the apartments has progressed, with the storm pipes installed across the road. Installation of the large storm drainage pipe along Lake Forest Drive from the apartments toward Rolling Hill continues.
- Lake Forest Drive will continue to be closed to through traffic between Eastbourne Road and Rolling Hill Road until the pipe installation in the area is complete.

For more information about this project, please visit our website to view project updates at: stormwater.charmeck.org. Click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects** and **Robinhood/Dooley**.

If you have any questions, please contact one of the following project team members:

On-site Construction Inspector:

Heather Broome: 704-634-1039
Email: hbroome@charlottenc.gov

Project Manager:

David Perry: 704-336-4202
E-mail: dperry@charlottenc.gov

Construction Supervisor:

Steve Canter: 704-704-336-7047
Email: scanter@charlottenc.gov

A construction inspector will be on site daily to address any questions or concerns. Please note efforts are taken to minimize disruption to nearby properties.
