

October 2015

Project Status:

Charlotte-Mecklenburg Storm Water Services and Hazen and Sawyer continue to work through the available options for the storm drainage pipe alignment in the neighborhood.

Next Steps:

Once a preferred option for design is selected, a public meeting will be held to present the design and solicit input from residents. City staff will notify you two weeks in advance of the meeting.

Shamrock Gardens Storm Drainage Improvement Project

Investing in Infrastructure

The City replaces pipes, storm drains and other structures when they deteriorate or become too small to handle increases in stormwater. Investing in infrastructure protects public safety, guards private property, improves water quality and enhances quality of life.

The Shamrock Gardens Storm Drainage Improvement Project goal is to reduce flooding of streets and structures by improving the storm drainage infrastructure within the neighborhood.
