

August 2015

Project Status:

Charlotte-Mecklenburg Storm Water Services and Armstrong Glen continue with the design phase. City stakeholders are reviewing the preliminary construction drawings.

Next Steps:

Once the initial review is complete, a public meeting will be scheduled to initiate easement acquisition. Meeting details will be mailed to residents two weeks in advance.

Investing in Infrastructure

The City must replace pipes, storm drains and other structures when they deteriorate or become too small to handle increases in stormwater. Investing in infrastructure protects public safety, guards private property, improves water quality and enhances quality of life.

The Wanamassa Storm Drainage Improvement Project goals are to reduce flooding of streets and structures throughout the neighborhood.
