

Wanamassa

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

Dear Resident:

Charlotte-Mecklenburg Storm Water Services has hired engineering consultant Armstrong Glen, P.C., to study possible storm drainage improvements in the Wanamassa project area, where several residents have expressed concern over failing infrastructure. The project area consists of the storm drainage system running from Wanamassa Drive down through Garvin Drive to Winding Springs Elementary.

Representatives from the Project Team may need to enter your property to collect survey data on the existing storm drainage system. While State law

authorizes access to private property for this purpose, no buildings or structures will be entered or disturbed.

For more information, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** dropdown menu in the green bar, then Active Projects and **Wanamassa**.

If you have any questions about this project, please contact Project Manager Chad Nussman at 704-336-5676 or cnussman@charlottenc.gov.
