

# Water Oak

storm drainage improvement project

your storm water fees at work

Dear Resident:

Charlotte-Mecklenburg Storm Water Services and Mulkey Engineers & Consultants have begun the design phase for the Water Oak Storm Drainage Improvement Project.

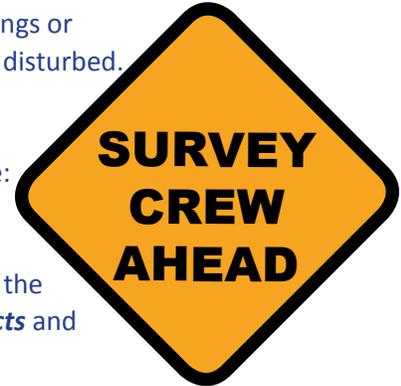

Mulkey will begin working on the preliminary design improvements which require additional survey and geotechnical investigations to support the design efforts. Once the preliminary design is complete, it will be shared with residents at a public meeting.

The Project Team may need to enter your property to collect additional survey data on the existing storm drainage system. While State law authorizes this access

to private property, no buildings or structures will be entered or disturbed.

For more information about this project, visit our website: [stormwater.charmeck.org](http://stormwater.charmeck.org). Click on the **Storm Water Projects** drop down menu in the green bar, then **Active Projects** and **Water Oak**.

If you have any questions, please contact Project Manager Adrian Cardenas at 704-336-4682 or [acardenas@charlottenc.gov](mailto:acardenas@charlottenc.gov).
