

# Water Oak

storm drainage improvement project

your storm water fees at work

Dear Resident:

Charlotte-Mecklenburg Storm Water Services and Mulkey Engineers & Consultants continue to work through the planning phase of the Water Oak Storm Drainage Improvement Project. Mulkey is finalizing the Alternative Analysis reports. Once complete, staff can review different alternatives to address the drainage issues and concerns in the neighborhood. A public meeting will be scheduled to present the recommended alternative and solicit input from residents. Meeting details will be mailed to residents approximately two weeks prior to the meeting.

For more information about this project, visit our website: <http://stormwater.charmeck.org>. Click on the **Storm Water Projects** drop down menu in the green bar, then **Active Projects** and **Water Oak**.

If you have any questions, please contact Project Manager Adrian Cardenas at 704-336-4682 or [acardenas@charlottenc.gov](mailto:acardenas@charlottenc.gov).

June 2013

**Be a Water Watcher:**  
Call 311 to report misuse of storm drains or unusual creek conditions.

Join us on Facebook at [www.facebook.com/waterwatchers](http://www.facebook.com/waterwatchers).  

**CHARLOTTE**

Engineering & Property Management  
Storm Water Services Division  
600 East Fourth Street  
Charlotte, North Carolina 28202

Let's work together to protect  
Charlotte's valuable water sources.

 **waterwatchers**

are Charlotte-Mecklenburg residents **just like you** who report instances of...

- Unusual creek conditions: *odd smells, color changes, dead fish or foam*
- Improper dumping of substances into storm drains: *grease, trash, paint or other pollution*
- Poorly stored chemicals, sewage overflows, erosion from construction sites or broken pipes

Keep our area waterways clean by calling 311 or  
visiting [stormwater.charmeck.org](http://stormwater.charmeck.org) to report conditions.
