

Water Oak

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

November 2012

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and Mulkey, Inc., are reviewing the existing conditions analysis for the Water Oak Storm Drainage Improvement Project. When the analysis is complete, a public meeting will be scheduled to present the findings and solicit input from residents and property owners. A notification with time and location will be mailed to you two weeks in advance of the meeting.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Water Oak**.

If you have any questions, please contact Project Manager David Perry at dperry@charlottenc.gov or 704-336-4202.

The project boundaries are approximately Addison Drive, Whitby Lane, and Sir Winston's Place to the west, Stafford Circle to the south, Emory Lane and Walker Road to the east and Hartness Avenue to the north.

Maintain Your Drain

Clogged storm drains can cause street flooding.

BEFORE it rains, remove trash, leaves and other debris from storm drains near your home.
