

Wiseman

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

August 2010

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and its consultant engineer, W. K. Dickson, are in the planning phase of the Wiseman Storm Drainage Improvement Project. The project goal is to improve storm drainage infrastructure, reducing street and structure flooding.

During the planning phase, the neighborhood storm drainage system is studied to determine areas that have storm water issues and the best solutions for these areas. We are in the process of finalizing the evaluation of the proposed improvements. These proposed improvements will then be shared with you at a neighborhood public meeting, with time and place sent several weeks in advance.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on Storm Water Projects, Storm Water Projects again, then Wiseman.

If you have any questions about this project, please contact the Project Manager, Monica Kruckow at 704-336-4722 or mkruckow@charlottenc.gov.

**Anywhere it rains,
it can flood.**

Pay attention to flood watches and warnings.

Be ready to move to higher ground.

Buy flood insurance.

Don't walk or drive through flood water.

**The risk is real.
Be prepared.**
