

Wiseman

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

December 2009

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and consultant engineer, W. K. Dickson, continue to move forward with the Planning Phase of the Wiseman Storm Drainage Improvement Project. The goal of this project is to improve the storm drainage infrastructure in order to reduce flooding of streets and structures. During the Planning Phase of the project, the consultant analyzes the storm drainage system within your neighborhood to determine areas where there are storm water issues and/or concerns. Several improvement alternatives are developed and evaluated to determine the best solution.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on *Storm Water Projects*, *Storm Water Projects* again, then *Wiseman*.

If you have any questions about this project, please contact the Project Manager, Monica Kruckow at 704-336-4722 or mkruckow@charlottenc.gov.

Tree Seedling and Rain Barrel Sale

Saturday, January 23, 2010

The annual tree seedling and rain barrel sale is right around the corner. Did you know December through March is the best time to plant bare root trees? So, mark your calendars now to come out and get great deals on tree seedlings and rain barrels.

Not only are rain barrels ecologically friendly, they are pocket-friendly, too. Rain barrels provide chemical-free water for your yard and garden reducing the need for treated water.

Capturing the water that flows off your roof keeps rain water out of storm drains and allows it to flow into the ground, replenishing the groundwater supply. A one-inch rainfall over a 1,000 square foot roof provides more than 620 gallons of water. With the overflow valve you can direct this water to your garden or any other area of your yard.

Rain barrels MUST be pre-ordered by Monday, January 11 by calling 704-336-2455 or visiting www.mecklenburgconservation.com.

Date: **Saturday, Jan. 23, 2010**

Time: 9:00 a.m. - 12:00 p.m.* or *until all trees are sold

Place: 700 North Tryon Street (*Hal Marshall Building, in the front parking lot*)

CHARLOTTE.
