

# Wiseman

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

June 2012

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and consulting engineer, W. K. Dickson, are continuing with the design and real estate phases of the Wiseman Storm Drainage Improvement Project. The City's real estate staff is working with citizens and businesses where easements are required while the consultant is working on finalizing the plans.

The City requests that easements be donated to provide access to your property to make the recommended improvements and provide future maintenance.

For more information about this project, please visit our website at <http://stormwater.charmeck.org>. Click on **Storm Water Projects** dropdown menu in the green bar, then **Active Projects** and **Wiseman**.

Please note this project has transferred to Project Manager Jackie Bray. If you have any questions about this project, please contact her at 704-336-6770 or [jbray@charlottenc.gov](mailto:jbray@charlottenc.gov).

## Did you know?

- The top two pollutants in Charlotte creeks are sediment and bacteria.
- The best way to control erosion is to plant something. Nothing holds soil in place better than plant roots.
- Soil testing in North Carolina is free. Take the guesswork out of fertilizer and lime purchases.
- Charlotte receives more rain than Seattle.
- Creeks start in Charlotte and flow downstream out of the County.
