

Yancey Road

storm drainage improvement project

your storm water fees at work

Dear Resident:

Charlotte-Mecklenburg Storm Water Services, along with engineering consultant US Infrastructure of Carolina, Inc., continue to work through the planning phase of the Yancey Road project area, finalizing the alternative analysis report. Once complete, staff can review different alternatives to address the drainage issues and concerns in the neighborhood.

A public meeting will be scheduled to present the recommended solution and solicit input from residents. Meeting details will be mailed to residents approximately two weeks prior to the meeting.

For more information about this project, please visit our website: stormwater.charmeck.org. Click on **Storm Water Projects** dropdown menu in the green bar, then **Active Projects** and **Yancey Road**.

If you have any questions, please contact Project Manager, Adrian Cardenas, at 704-336-4682 or acardenas@charlottenc.gov.

August 2014

HURRICANE SEASON
JUNE 1 - NOVEMBER 30, 2014

STORMY WEATHER AHEAD

2014 forecast:

- 11 named tropical storms
- 3 hurricanes

75% of Charlotte's flooding happens during the months of hurricane season. Whether it's heavy rain from a named storm or an unexpected cloudburst, Charlotte's flood chances increase dramatically in the summer.
