

Yancey Road

storm drainage improvement project

your storm water fees at work

Dear Resident:

Charlotte-Mecklenburg Storm Water Services has hired engineering consultant US Infrastructure of Carolina, Inc. to study possible storm drainage improvements within the Yancey Road project area. The project boundaries are Peterson Drive to the north, Old Pineville Road to the east, Woodlawn Road to the south, and Stuart Andrew Boulevard to the west.

Survey work has been completed and the existing conditions engineering analysis has begun. Once the analysis is complete, a public meeting will be held to receive input from residents on how the engineering models compare with what has been observed by

those living and/or working in the area. A public meeting notice will be mailed two weeks in advance.

For more information about this project, please visit our website: <http://stormwater.charmeck.org> Click on **Storm Water Projects** dropdown menu in the green bar, then **Active Projects** and **Yancey Road**.

If you have any questions, please contact Project Manager, Adrian Cardenas, at 704-336-4682 or acardenas@charlottenc.gov.

November 2013

Shade Your Stream

Property along creeks and lakes should be planted with native trees and shrubs.

For more information about stream buffers, visit <http://stormwater.charmeck.org>
