

Charlotte-Mecklenburg Utilities
Design Manual

Any contractor/subcontractor or engineer/surveyor working on a Charlotte-Mecklenburg Utilities Project is required to own a copy. The design manual is on Compact Disk (PC compatible) in Adobe Acrobat PDF format.

The manual is currently in the rewrite stage. It is expected to be completed later this year. The updated manual will also be on Compact Disk. Changes to the updated manual will be posted to the CMU website. The new CD will be mailed to all registered owners who purchased a design manual or CD for which CMU has a valid mailing address. The manual will change from CD based to a web based document in later editions.

The Design Manual may be picked up at no charge:

Charlotte-Mecklenburg Utilities
New Services, First Floor
5100 Brookshire Boulevard
Charlotte, NC, 28216
