

## III. Applicable Area

---

These Guidelines are applicable to all streets within the Uptown area of Charlotte as defined by the I-77 / I-277 Loop, with the exception of the north side of I-277 where the standards apply to Twelfth Street, and only to those streets as depicted on the following Map.

These Standards are complementary to the City's ***Urban Street Design Guidelines*** which are applicable to all streets in the City except those covered by these Uptown Streetscape Standards.
