

Minority, Women, Small Business Enterprise Utilization Report

JULY 1, 2013 – JUNE 30, 2014

FY 2014 | YEAR END

CHARLOTTE.

In April 2013 the City of Charlotte reaffirmed its commitment to developing and strengthening Minority, Women, Small Business Enterprises (MWSBEs) by adopting the Charlotte Business INCLUSION (CBI) Policy. The CBI Policy is designed to promote diversity, inclusion, and local business opportunities in the City's contracting and procurement for businesses headquartered in the Charlotte region, with Mecklenburg County MWSBEs accounting for 79% of all City certified MWSBEs.

For Fiscal Year 2014 (FY14), the City established a 5% Citywide SBE Goal for direct spending with City certified SBEs. The City exceeded the 5% SBE Goal for the second year in a row, achieving 5.18% SBE spending. The top five City Departments with the highest spending in FY14 accounted for \$23.8M or 85% of the City's total FY14 SBE spending.

Citywide spending in FY14 with minority and women-owned businesses totaled \$49.3M, which represents an \$8.5M increase over FY13. The \$49.3M represents the City's direct spending with 533 minority and women-owned firms, with Non-Minority Females, African-Americans, and Hispanics/Latinos, respectively achieving the highest spending.

FY14 also saw the successful implementation of the City's new subcontracting goal setting formula, resulting in higher subcontracting goals and thus more SBE opportunities and increased SBE economic growth. For example, in FY13 the average SBE subcontracting goal set on City funded projects was 8.75%, however, in FY14 average SBE subcontracting goals increased to 11.5%.

Other CBI Program highlights for FY14 included:

- Successful expansion of the program's geographic participation eligibility from eight to thirteen counties
- Technology enhancements that provide greater efficiencies and effectiveness in capturing MWSBE data
- Outreach and registration of 389 Minority Women Business Enterprises
- Certification of 105 new Small Business Enterprises and recertification of 110 existing SBEs
- Award of \$22.1M in SBE subcontracting commitments

The CBI Program is braced for a new fiscal year of continued progress that will help foster growth, sustainability and financial success for MWSBEs. Strategic FY15 CBI Program goals include:

- Development of an FY15-FY18 CBI Strategic Plan
- Increased engagement of community partners, including the release of a community stakeholder feedback survey and the establishment of a Community Input Committee
- Development of a pilot Mentor Protégé Program that will build the capacity of MSBEs working in construction.

We are confident that the above FY15 goals, combined with our FY14 accomplishments, will lead to greater community confidence in the CBI Program and increased economic opportunities for MWSBEs.

Sincerely,

Nancy Rosado
Charlotte Business INCLUSION Manager
