

Charlotte Department of Transportation

Memorandum

Date: October 29, 2008

To: Tammie Keplinger & Tom Drake
Charlotte-Mecklenburg Planning Department

From: 
Scott L. Putnam
Development Services Division

Subject: Rezoning Petition 08-070: Located in the block bounded by North Davidson Street, East 26th Street, East 27th Street & Yadkin Avenue (revised 9/8/08)

We previously commented on this petition in our March 26, May 30, July 2, July 30 and September 23, 2008 memoranda to you.

Consistency with Transportation Action Plan (TAP)

The TAP relies on the Centers, Corridors, and Wedges land use strategy to be implemented. This project site is located in a Corridor and appears to support the Centers, Corridors, and Wedges land use strategy.

Vehicle Trip Generation

The site could generate approximately 2,700 trips per day as currently zoned. The revised site plan indicates an increase in the maximum number of proposed residential units from 150 units to 200 units. The maximum retail use in the revised petition is 40,000 square feet. For this reason the proposed development could generate approximately 5,100 trips per day rather than the amount previously reported. This results in a net increase of 2,400 trips. Because the site is location within ¼ mile of a proposed transit station area and existing street network in the area, we will not request that a traffic study be prepared.

We have no remaining transportation issues with this petition.

If we can be of further assistance, please advise.
