

REZONING PETITION NO. 2008-117

SITE DATA TABLE

EXISTING ZONING:	059-104-20	R-9MF (CD) PETITION 89-62
		R-17
		R-3
PROPOSED ZONING:	059-104-20	INST (5.02 AC FROM R-9 MF CD)
		INST (3.34 AC FROM R-17 MF)
		INST (3.69 AC FROM R-3)
SITE AREA:	059-104-20	9.05 AC
PROPOSED SETBACKS (INST)		
FRONT		40'
SIDE STREET		20'
SIDE YARD		20'
REAR YARD		20'

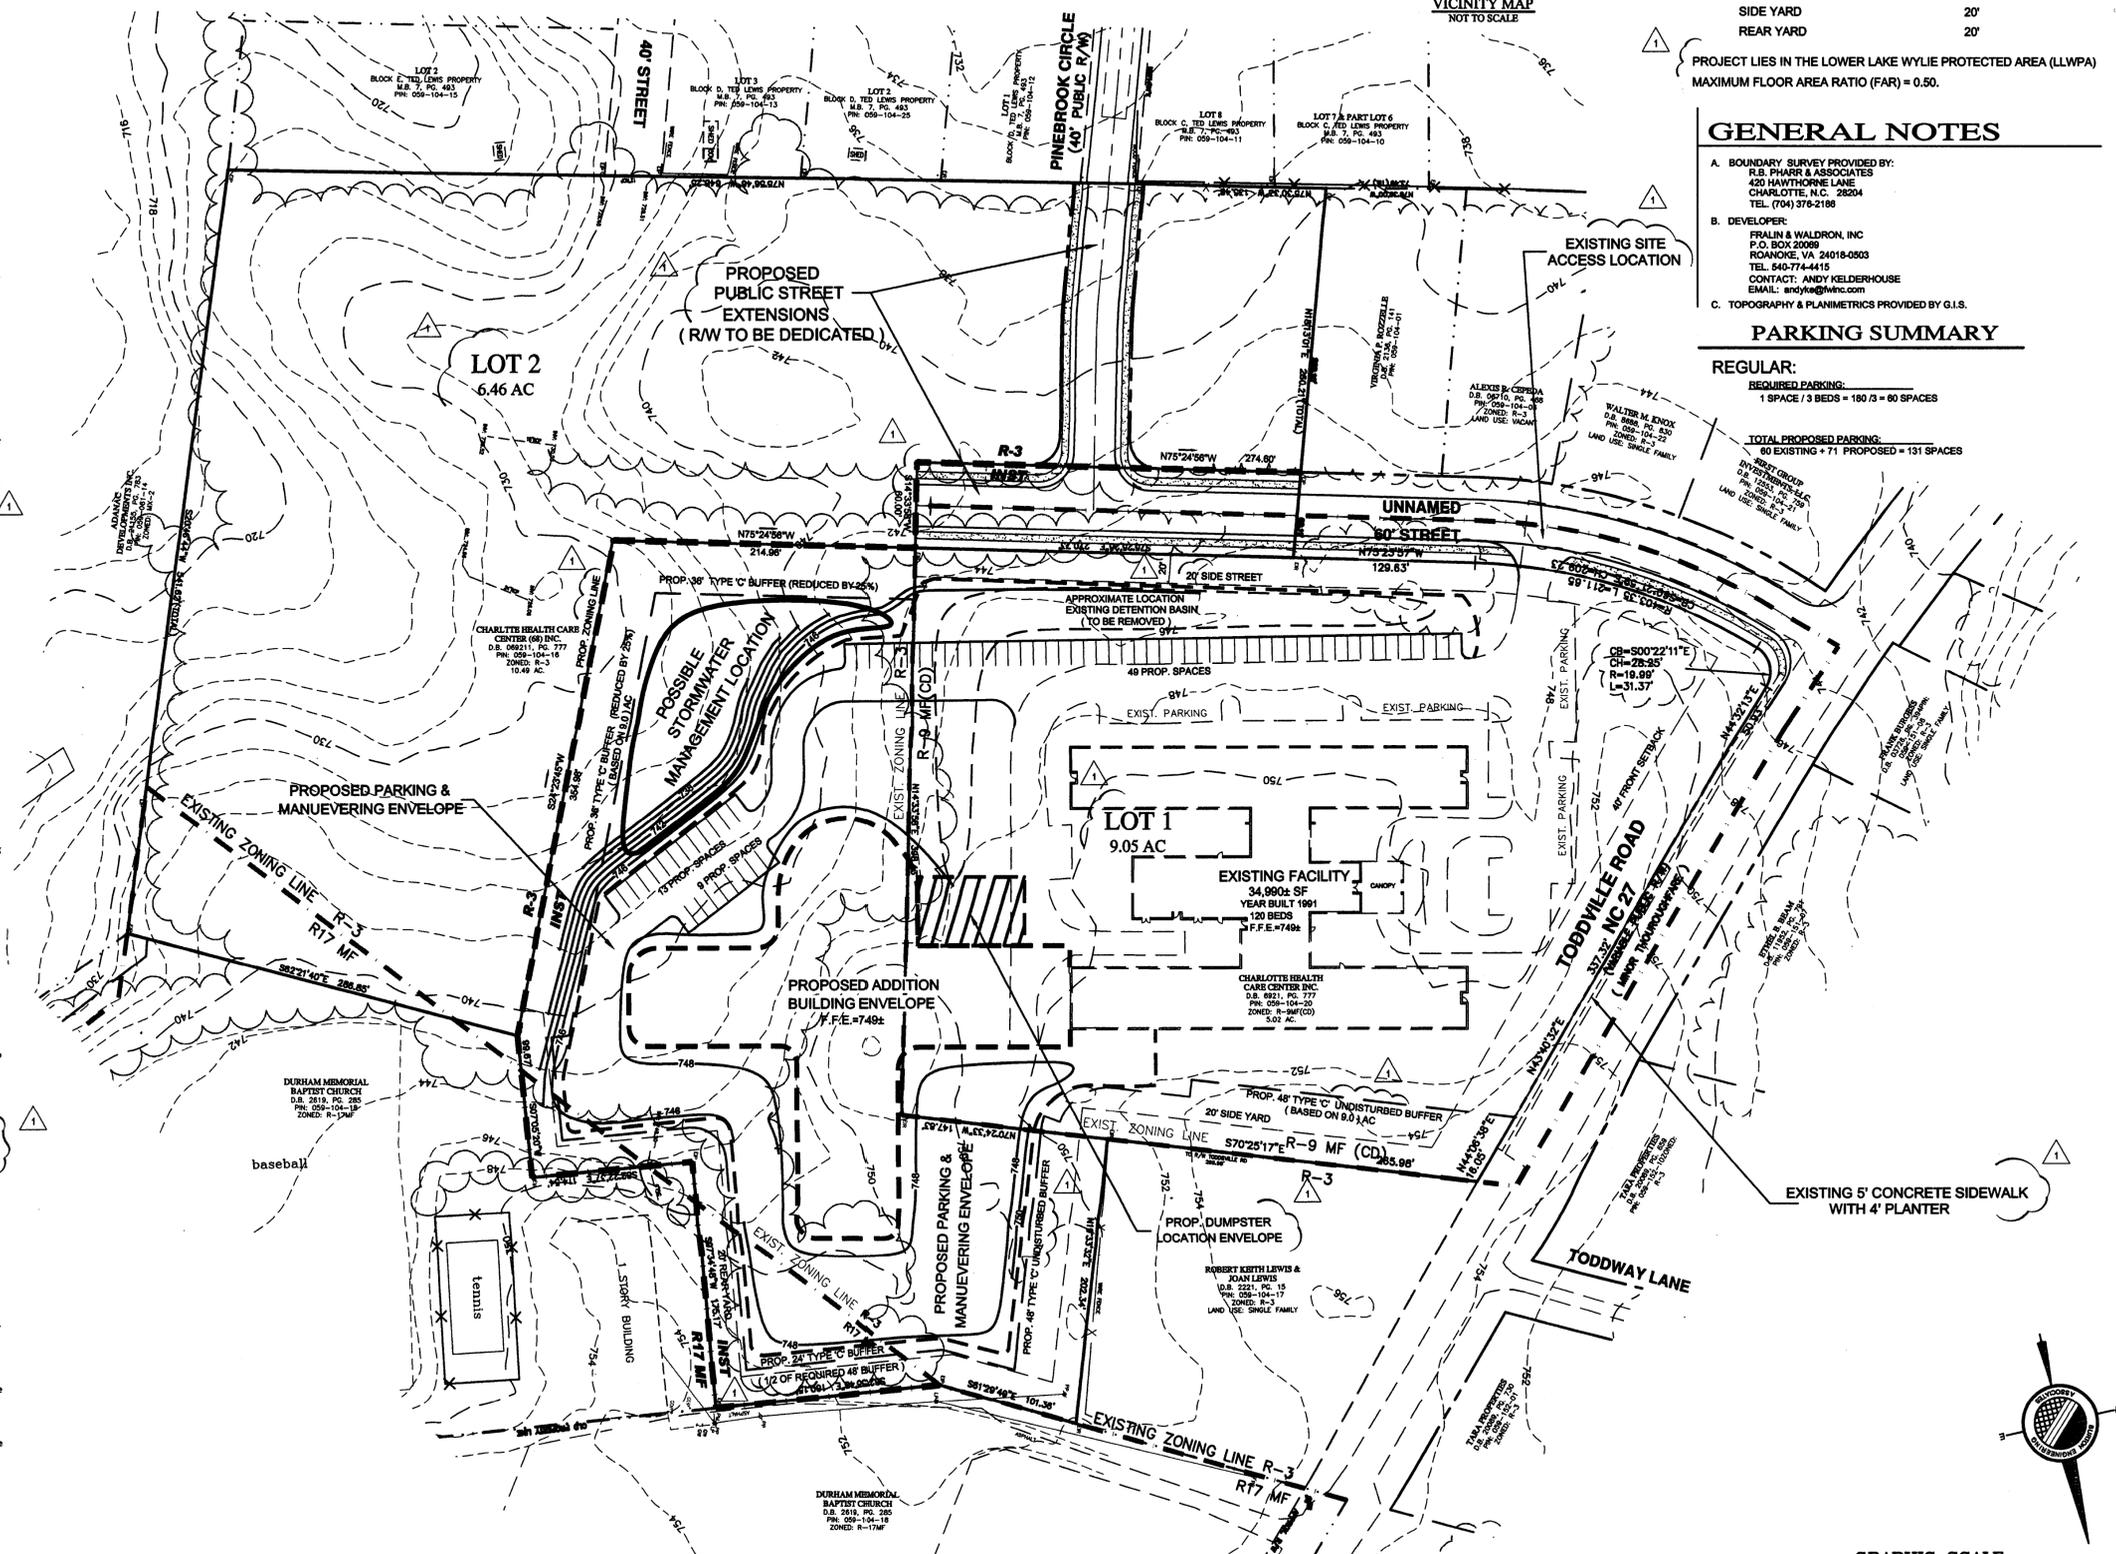

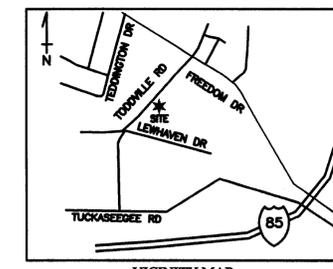

PROJECT LIES IN THE LOWER LAKE WYLIE PROTECTED AREA (LLWPA)
 MAXIMUM FLOOR AREA RATIO (FAR) = 0.50.

GENERAL NOTES

- BOUNDARY SURVEY PROVIDED BY: R.E. PHARR & ASSOCIATES, 420 HAWTHORNE AVENUE, CHARLOTTE, N.C. 28204, TEL: (704) 376-2188
- DEVELOPER: FRALIN & WALDRON, INC., P.O. BOX 20099, ROANOKE, VA 24018-0503, TEL: 840-774-4415, CONTACT: ANDY KELDERHOUSE, EMAIL: andykw@fwinc.com
- TOPOGRAPHY & PLANIMETRICS PROVIDED BY G.I.S.

PARKING SUMMARY

REGULAR:
 REQUIRED PARKING: 1 SPACE / 3 BEDS = 180 / 3 = 60 SPACES
 TOTAL PROPOSED PARKING: 60 EXISTING + 71 PROPOSED = 131 SPACES

- DEVELOPMENT STANDARDS**
 October 17, 2008
- GENERAL PROVISIONS**
- Unless more stringent standards are established by the Technical Data Sheet or these Development Standards, all development standards established under the City of Charlotte Zoning Ordinance (the "Ordinance") for the Institutional zoning district shall be followed in connection with development taking place on this approximately 9.05 acre site located on Toddville Road south of Freedom Drive (the "Site"), which Site is more particularly depicted on the Technical Data Sheet.
- The purpose of this rezoning request is to accommodate the expansion of an existing dependent living nursing home, rest home, home for the aged, elderly and disabled housing facility situated on the Site.
- The development depicted on the Technical Data Sheet is intended to reflect the arrangement of proposed uses on the Site, but the final configuration, placement and size of individual elements may be altered or modified within the limits prescribed by Section 6.2 of the Ordinance and the standards established by the Technical Data Sheet and these Development Standards during design development and construction phases.
- PERMITTED USES**
- The Site may be devoted to a dependent living nursing home, rest home, home for the aged, elderly and disabled housing facility containing a maximum of 180 beds (120 existing, 60 new), and to any incidental or accessory use in connection therewith which is permitted by right or under prescribed conditions in the Institutional zoning district.
- MAXIMUM GROSS FLOOR AREA**
- A maximum of 65,000 square feet of total gross floor area may be developed on the Site.
- BUFFER AREA**
- The Petitioner shall establish a 48 foot Class C buffer along those portions of the Site's western, northern and southern boundary lines that are more particularly depicted on the Technical Data Sheet, which buffer shall conform to the standards of Section 12.302 of the Ordinance, subject, however, to the provisions of Section 12.304 thereof. In the event that an adjacent parcel of land is either rezoned to a zoning district or devoted to a use that eliminates or reduces the buffer requirements on the Site, then the Petitioner may reduce or eliminate, as the case may be, the 48 foot Class C buffer depicted on the Technical Data Sheet accordingly. The Petitioner may reduce the width of the 48 foot Class C buffer by 25% by installing a wall, fence or berm pursuant to Section 12.302(b) of the Ordinance.
 - Pursuant to Section 12.302(a)(1) of the Ordinance, the Petitioner shall establish a 24 foot Class C buffer along those portions of the Site's southern boundary line that are adjacent to the adjoining religious institution and that are more particularly depicted on the Technical Data Sheet, which buffer shall conform to the standards of Section 12.302 of the Ordinance, subject, however, to the provisions of Section 12.304 thereof. In the event that the adjacent parcel of land provides a required buffer or is rezoned to a zoning district or devoted to a use that eliminates or reduces the buffer requirements on the Site, then the Petitioner may reduce or eliminate, as the case may be, the 24 foot Class C buffer depicted on the Technical Data Sheet accordingly. The Petitioner may reduce the width of the 24 foot Class C buffer by 25% by installing a wall, fence or berm pursuant to Section 12.302(b) of the Ordinance.
 - The Petitioner reserves the right to grade and to install a wall, fence, berm, pedestrian sidewalks and utility lines and facilities within the 48 foot Class C buffer and within the 24 foot Class C buffer provided, however, that utility lines and facilities may only cross the buffer at interior angles measured at the property line which are not less than 75 degrees.
 - Where existing trees and natural vegetation have been cleared within the 48 foot Class C buffer and within the 24 foot Class C buffer to accommodate grading or the installation of a wall, fence, berm, pedestrian sidewalks or utility lines and facilities, the cleared, unimproved areas will be landscaped with trees and shrubs in accordance with the requirements of the Ordinance.
 - No buildings, parking spaces or maneuvering areas may be located within the 48 foot Class C buffer or within the 24 foot Class C buffer.
 - No above ground detention facilities or water quality facilities may be located within the 48 foot Class C buffer or within the 24 foot Class C buffer. However, natural drainage facilities may be included within these buffer areas.
- SETBACKS, SIDE YARDS AND REAR YARDS**
- All principal structures constructed on the Site shall satisfy or exceed the setback, side yard and rear yard requirements under the Ordinance for the Institutional zoning district as depicted on the Technical Data Sheet.
- SCREENING/LANDSCAPING**
- Screening shall conform with the standards and treatments specified in Section 12.303 of the Ordinance.
 - All landscaping installed on the Site will meet or exceed the requirements of the Ordinance.
 - Any dumpsters located within the Site that are visible from a public street or from an external adjoining parcel of land will be screened from view by solid enclosures with gates.
- TREE ORDINANCE**
- Development of the Site will comply with the applicable provisions of the City of Charlotte Tree Ordinance as of the date of the approval of this Rezoning Petition.
- PARKING**
- Off-street vehicular parking will satisfy the Ordinance's one space per three bed minimum requirement.
 - Bicycle parking will satisfy the minimum standards established under the Ordinance.
- LIGHTING**
- The maximum height of any newly installed freestanding lighting fixture located on the Site, including its base, shall not exceed 20 feet.
 - All newly installed exterior light fixtures located on the Site shall be fully shielded with full cutoff and the illumination downwardly directed so that direct illumination does not extend past any property line of the Site.
 - No new wall "Pak" type lighting may be installed on the Site.
- SIGNS**
- Any newly installed signs placed on the Site will be erected in accordance with the requirements of the Ordinance.
- ACCESS POINTS/SIDEWALKS/RIGHT-OF-WAY IMPROVEMENTS**
- The number of vehicular access points to the Site shall be limited to the number depicted on the Technical Data Sheet.
 - The placement and configuration of the access point are subject to any minor modifications required to accommodate final site and architectural construction plans and designs and to any adjustments required for approval by the Charlotte Department of Transportation.
 - The existing sidewalk located along the Site's frontage on Toddville Road shall remain in place.
 - The existing unnamed 60 foot street located along a portion of the Site's southern boundary line shall be extended by the Petitioner to the western boundary of the Site, subject to right-of-way availability.
 - The unnamed 60 foot street shall be extended by the Petitioner from the western boundary of the Site to the eastern boundary of the site as depicted on the Rezoning Plan.
 - The extended 60 foot unnamed street shall be connected with Pinebrook Circle by the Petitioner, subject to funding by CDOT.
- ARCHITECTURAL COMMITMENTS**
- The maximum height of any building located on the Site shall be 30 feet.
 - Attached hereto are schematic architectural renderings of the elevations of the proposed expansion area of the building located on the Site, and these schematic architectural renderings are intended to depict the general conceptual architectural style and character of the proposed expansion area of the building located on the Site. Accordingly, the expansion area of the building located on the Site shall be designed and constructed so that it is substantially similar in appearance to the attached schematic architectural renderings. Changes and alterations which do not materially change the overall conceptual architectural style and character are permitted based upon final design/construction drawings.
- BINDING EFFECT OF THE REZONING PETITION**
- If this Rezoning Petition is approved, all conditions applicable to development of the Site imposed under these Development Standards and the Technical Data Sheet will, unless amended in the manner provided under the Ordinance, be binding upon and inure to the benefit of the Petitioner and subsequent owners of the Site and their respective heirs, devisees, personal representatives, successors in interest or assigns.
- AMENDMENTS TO REZONING PLAN**
- Future amendments to this Technical Data Sheet and these Development Standards may be applied for by the then Owner or Owners of the Site in accordance with the provisions of Chapter 6 of the Ordinance.
