PROPOSED ZONING CHANGES**

SEPTEMBER 24, 2008

**LOCATION: South Park Christian Church
6550 Park South Drive
Charlotte, NC**

7:00 p.m. – 8:00 p.m.

Presentations by:

**H. Edward Knox
Milt Thompson
Douglas Fitzpatrick
David Thompson**

Questions and Answers by attendees

A meeting was held pursuant to Petition #2008-140

Invitations to attend were sent to individuals and businesses that lived in the 7921 Park Road or Park Road Corridor area

Approximately 50 people were in attendance and the individuals signed a clip board

More than 12 people were from a neighborhood association called Wolfe Ridge. There were also attendees from Beverly Woods and Greencastle

There is a vacant home next to the project site and no one was in attendance representing the homeowners

There is a vacant home next door to the project site and no one was in attendance as the owners live in Florida

David Dean who lives 2 homes away from the project site was in attendance

PRESENTATIONS

H. Edward Knox discussed how he knew David through his father Milton and talked about the project David is proposing

Eddie talked about zoning changes over the years in Charlotte

Milt Thompson who is David's father talked about the project his son has been working on for many months

Douglas Fitzpatrick talked about the project as he is the engineer. Douglas also discussed what solar energy involves and its effect on the project

David Thompson discussed his back ground in solar energy, what his project entailed and how it would benefit the Park Road area

David had pictures of the project as well as materials regarding solar energy

David explained that these units would be on mainly solar energy

David explained that there would be parking below the unit for vehicles and that there would be electric for the hybrid vehicles

The attendees were all given time to ask questions following the presentation

QUESTIONS PRESENTED BY THE ATTENDEES TO THE PRESENTERS:

Traffic pattern on Park Road that may be affected

The height change of the zoning and its aesthetic effect on the area

David answered questions in detail about the existing height of the trees and how it would shield the building

David answered questions and explained that he would take only a limited amount of trees down

David answered questions and explained the "Park like" setting the building would be placed in

Discussions of solar energy were asked and David answered them all

Respectfully submitted,

David Thompson
