

Section 9.201.

Single Family Districts established; purposes.

The R-3, R-4, R-5, R-6 and R-8 districts are hereby established to protect and promote the development of single family housing and a limited number of public and institutional uses. *The standards for these districts are designed to maintain a suitable environment for family living* at various densities to accommodate preferences for different housing types.

The R-3 and R-4 districts are directed toward suburban single family living. The R-5, R-6 and R-8 districts address urban single family living. Densities of development are controlled by maximum number of units per acre requirements, which are different for each district and indicated by the numerical identification attached to each district.
