Patrick Cannon  Ella Scarborough
Malachi Greene  Tim Sellers
Mike Jackson    Sara Spencer
Nanf Rashad Mayeed  Lynn Wheeler

Council Agenda

CITY COUNCIL MEETING
Monday, December 11, 1995

5:00 p.m.  Conference Center
- Airport 21st Century Development Plan
- Sign Ordinance Enforcement
- Council Retreat Committee Report

6:30 p.m.  Meeting Chamber
- Invocation
- Pledge of Allegiance
- Citizens Hearing

7:00 p.m.  Formal Business Meeting
Charlotte City Council

Business Meeting

Order of the Meeting
- Call to order at 6:30 p.m
- Invocation
- Pledge of Allegiance
- Proclamations & Recognitions
- Citizens Hearing
- Minutes & Consent Items
- Public Hearings
- City Manager's Report
- Policy
- Business

Speaking to City Council
Citizens who wish to speak to City Council are encouraged to sign up with the City Clerk. The City Clerk may be reached by calling 336-2248. The City Clerk records names and addresses of citizens who address Council. Please call the City Clerk by 3:00 p.m. on the meeting date or you may sign up at the meeting.

The Mayor will recognize speakers. The time limit is three minutes per person or ten minutes per subject. Groups are encouraged to have designated speakers.

Agenda
The Business Meeting begins with a Citizens Hearing from 6:30 till 7:00 p.m. At 7:00 p.m., City Council takes up their formal business agenda. The agenda consists of the consent agenda, public hearings, City Manager's report, policy agenda, and business agenda.

Agendas, reports, and records are available in alternative formats upon request. To order information in braille, oversized print or voice cassette tape, or to arrange for a sign language or oral interpreter for the meeting, please call the Clerk's office at least five days prior to the meeting at 336-2248.

Television Meetings
Council business meetings are televised live on the Government Channel, Channel 16 on Cable Vision and Vision Cable, on the second and fourth Monday evenings at 6:30 p.m. Meetings are replayed on Wednesdays at 9:00 a.m. and 9:00 p.m. and on Sundays at 1:00 p.m.

City Council Members
Mayor Pat McCrory 336-2241
Mayor Pro Tem Al Rousso 375-1142
At Large Don Reid 554-6572
At Large - Ella Scarborough 366-4790
At Large - Lynn Wheeler 338-5814
District 1 - Sara Spencer 375-3042
District 2 - Malachi Greene 375-3883
District 3 - Patrick Cannon 553-8760
District 4 - Nasif Majed 536-1153
District 5 - Tim Sellers 366-3440
District 6 - Charles Baker 364-2523
District 7 - Michael J. Jackson 542-2421

For Meeting Information, contact the City Clerk, 336-2248
Form of Government

Charlotte has operated as a Council Manager form of government since 1929. Under this form of government, the Mayor serves as the Chief Executive Officer, the City Council as the legislative body, and the City Manager as the Chief Administrative Officer.

The City Council includes 11 representatives, seven elected from districts and four elected at-large. Elections are held every two years, with the next election scheduled for 1997.

Charlotte at a Glance

- Largest city between Atlanta & Washington, D.C. with a population of approximately 455,000. The Charlotte metropolitan area population is 1,144,419.
- Square Miles: 213
- Center of the country’s fifth largest urban region with approximately 5.6 million people living within a 100 mile radius.
- 14th busiest airport in the country
- Second largest banking/financial center
- Charlotte-Mecklenburg property taxes rank in the lowest quarter of 100 metro areas nationwide.
- The City of Charlotte holds a AAA credit rating, the highest possible. Only 14 cities have been designated as AAA by both major rating agencies.
- Charlotte’s tax rate is 42.8 cents per hundred dollar evaluation. The tax rate has been the same for eight years.
- The City of Charlotte’s total budget is $724 million (operating and capital).
- There are approximately 4,884 city employees. In the last four years, 683 positions have been eliminated.
- There are 1,657 police employees and 800 fire employees.

Quotes about Charlotte

'Charlotte has a reputation of being one of the better-run big cities in America. The city is stressing continuous improvement and cost-cutting in city operations by introducing competition.”

Reason Foundation 1995

"Charlotte's economic development has benefited from the development of close relationships with its outlying areas, instead of battling with them for new business.”

Financial World, April 2, 1994

"Not only is local government generally supportive of business, it is by all accounts efficient and effective. The tax rate is low. Businesses are not offered tax incentives to relocate here, but services appear to be good. The streets are immaculate and a study by Southport Magazine declared Charlotte's police force the best of a dozen large Southern cities."

Financial World, June 26, 1994

Charlotte won first place in the 1995 City Livability Awards sponsored by The United States Conference of Mayors and Waste Management, Inc. In particular, Charlotte was noted for programs designed to foster collaboration and encourage all citizens to work together on solving problems. The panel of judges praised Charlotte's history of good government, saying

"Charlotte has set the standard by which to measure good local government."

For additional information or if you have questions concerning the City of Charlotte and its organization, contact the Customer Service Center at 336-7600.

Consent Items

1. Consent agenda items 12 through 27 may be considered in one motion except those items removed by a Councilmember. Items are removed by notifying the City Clerk before the meeting.

Staff Resource: Julie Burch

PUBLIC HEARING

2. Public Hearing and Resolution to Close a Portion of West Eighth Street

Action: 

A. Conduct a public hearing to abandon a portion of West Eighth Street; and

B. Adopt the resolution to close.

Staff Resource: Scott Putnam

Policy: To abandon right-of-way that is no longer needed for public use

Explanation of Request: North Carolina General Statute 160A-299 outlines the procedures for permanently closing streets and alleys. The Charlotte Department of Transportation has received a petition to abandon public right-of-way and is requesting this Council action in accordance with the statutes

Background: Petitioner:
Church Street Associates
Right-of-Way to be abandoned:
A portion of West Eighth Street. This section of West Eighth Street is closed to traffic and includes pedestrian lighting, brick sidewalk, and landscaping. The portion of West Eighth Street included in this request is 13 feet in width and does not include the lighting or brick sidewalk.

Location:
From North Church Street approximately 105 feet.

Reason:
To make improvements (accessible ramp) to the property.

Notification:
In accordance with City policy the Charlotte Department of Transportation (CDOT) has sent abandonment petitions to adjoining property owners, neighborhood associations, private utility companies, and City Departments for review.

Adjoining property owners - No objection
Davidson Square Condominiums

Neighborhood association(s) - No objection
Friends of Fourth Ward

Private Utility Companies - No objection

City Departments:
Review has identified no apparent reason this closing would
1 Be contrary to the public interest, or,
2 Deprive any individuals(s) owning property in the vicinity reasonable ingress/egress to this property as outlined in the statutes.

Attachment 1
Vicinity Map
3. Public Hearing and Resolution to Close a Portion of Olmstead Drive

Action:

A. Conduct a public hearing to abandon a portion of Olmstead Drive; and

B. Adopt the resolution to close.

Staff Resource:

Scott Putnam

Policy

To abandon right-of-way that is no longer needed for public use

Explanation of Request:

North Carolina General Statute 160A-299 outlines the procedures for permanently closing streets and alleys. The Charlotte Department of Transportation has received a petition to abandon public right-of-way and is requesting this Council action in accordance with the statutes.

Background:

Petitioner:
Ron Withrow, Withrow Capital, Inc

Right-of-Way to be abandoned:
An unimproved portion of Olmstead Drive

Location:
From Olmstead Way northwardly approximately 65 feet

Reason:
To eliminate a section which is not intended to be extended as a public street through the Mallard Pointe shopping center development

Notification:
In accordance with City policy the Charlotte Department of Transportation (CDOT) has sent abandonment petitions to adjoining property owners, neighborhood associations, private utility companies, and City Departments for review.

Adjoining property owners - No objection
Neighborhood association(s) - No objection
University Place Owners Association, Inc and Audobon Park

Private Utility Companies - No objection

City Departments:
Review has identified no apparent reason this closing would
1 Be contrary to the public interest, or,
2 Deprive any individuals(s) owning property in the vicinity reasonable ingress/egress to this property as outlined in the statutes

Attachment 2
Vicinity Map
POLICY

4. Public Services Committee Recommendation Concerning Parade Permit Process

Action: Approve recommendation of Public Services Committee to change parade permit processing, including indigency provisions.

Committee Chair: Don Reid

Staff Resource: Doreen Szymanski, Chair
Parade Permit Committee

Policy: Parade Ordinance, City Code Section 19-116

Explanation of Request: After review of the options, the Public Services Committee recommends the following "housekeeping" changes to the ordinance:

- Change the City Manager's appointee from Economic Development to Special Events Coordinator, no term limit. With the City reorganization in 1993, the Special Events Coordinator became part of the Manager's staff.

- Parade applications are now submitted to the City Clerk. Change this requirement to Parade Permit Chairman. This will expedite the process and provide a more efficient use of committee and staff time.

- Full or majority Parade Permit Committee approval is currently required for all parades, no matter how large or small. Change so that full or majority committee approval is not required for neighborhood parades except when the event requires more resources than the basic level of service provided by the City, i.e., two on-duty officers with vehicles and/or community coordinators. This will provide a more efficient use of committee and staff time.
The Public Services Committee recommends handling parades in the following manner:

- Continue to provide police resources for traditional parades (i.e., Martin Luther King Parade, The Carrousel Parade, Shrine Bowl Parade, and Veteran's Day Parade)

- In addition, earmark $10,000 in existing budget for indigent parades. Funds will be dispersed on a first-come, first-served basis. Once funds are expended for the year, further parade permit applications with indigency affidavits will be denied. The Parade Permit Committee will stipulate final route, date, and time to conserve police resources, and so that more indigent parades can occur for the dollars allocated.

Background:

- At the request of Mayor Vmroot, the Public Services Committee has reviewed how parade permits are processed, and in particular, how indigent parades are handled. For more detailed information, see the attachment.

- Parade Permit applications and issuance is a standard, routine, administrative process. Indigent parades are granted once an applicant has submitted a notarized Affidavit of Indigency. No further information on indigency is required. The Committee accepts the word of the applicant, and an unlimited number of such parades can occur each year.

Attachment 3
Parade Permit Information
BUSINESS

5. Public Opinion Survey - Charlotte-Mecklenburg Police

Action: Accept a report of the results of a public opinion survey regarding citizen perceptions of crime and police service in Charlotte.

Staff Resource: Chief Dennis Nowicki

Policy Community Safety

Explanation of Request:

- One of the initiatives in the Community Safety Plan was to conduct a survey of citizen perceptions of crime and the police service that they receive in Charlotte

- The Office of Justice Research, a component of the Criminal Justice Department at the University of North Carolina at Charlotte, was commissioned to conduct a random telephone survey of citizens served by the Charlotte-Mecklenburg Police Department

- The survey was conducted in April and May of 1995

- A presentation will be made on the survey results during the Council meeting

Attachment 4
Executive Summary of Public Opinion Survey - Charlotte-Mecklenburg Police
Cooperative Water and Sewer Agreement with Union County, North Carolina

Action:

A. Approve a cooperative agreement with Union County to acquire water and sewer systems located in Mecklenburg County in exchange for the sale of outfall and treatment plant capacity to Union County; and

B. Adopt a resolution identifying benefits the City will realize and authorize the City Manager to approve and execute an agreement with Union County.

Staff Resource: Doug Bean

Policy
Seek cooperative agreements for regional issues

Explanation of Request:

- CMUD has been working with adjacent jurisdictions to develop cooperative arrangements to meet area wide water and sewer needs

- Proposed agreement provides for

  - CMUD purchase of Union County water and sewer systems in Mecklenburg County (estimated cost $4 million)

  - Union County purchase of 1 million gallons per day (mgd) capacity in Six Mile Creek project (outfall, force main and lift station) and McAlpine Creek Treatment Plant (estimated Cost $2.9 million)

  - Reserve additional 2 mgd treatment capacity at McAlpine for Union County with option to purchase or use as retail customer

  - CMUD provides treatment at direct operating cost and Union will pay a portion of the debt service
Advantages to the City

- CMUD will gain approximately 1,540 customers through purchase of private water and sewer systems. Purchase of these systems will be funded through the Capital Investment Plan Program - Acquisition of Private Water and Sewer Systems. Council will have authority to approve purchase of these systems as they become available.

- Eliminates need for Union County treatment plant on Six Mile Creek,

- Provides positive cash flow,

- Reduces idle plant capacity in early years

</tr>
</tbody>
</table>

Funding:

No funds are required for approval of this agreement. Council will have authority to approve purchase of systems as they become available from acquisition of private water system.

Background:

- Council was briefed on this item at the November 13 dinner.
CMUD has been working with Cabarrus, Union and South Carolina jurisdictions to develop regional solutions to providing water and sewer infrastructure. Union County currently serves subdivisions in southern Mecklenburg. The Six Mile Creek sewer project will provide sewer service to these areas. Union County has sewer needs on their side of the Six Mile Creek basin. The agreement will provide a single outfall along Six Mile Creek and eliminate the need for Union to build a parallel outfall and a new treatment plant. CMUD will be able to serve customers in Mecklenburg County and make better use of plant capacity.

Treatment capacity for CMUD customers at the McAlpine Creek Wastewater Treatment Facility will not be impacted by the Union Agreement for the following reasons:

- The actual flows into the McAlpine Creek Plant are not increasing as fast as consultant reports had forecast.

- Current 48 million gallons per day (mgd) capacity could last until 2000.

- In planning for future needs, CMUD is proceeding with expansion of McAlpine to 64 million gallons per day capacity.

- South Carolina regional option is continuing with required river study.

- Use of up to 3 mgd capacity by Union County is not projected to occur until 2010 or later.

- Initial use by Union County should not cause any restriction of Mecklenburg requirements.
• The Six Mile Creek Projects are scheduled for completion in 1997. Purchase of the Union County water and sewer systems would not occur until completion of this project.

Attachment 5
Executive Summary of Proposed Agreement with Union County (full agreement is available in Council Library)

7. Regional Wastewater Agreement with Cabarrus County

Action:

A. Approve an agreement with the Water and Sewer Authority of Cabarrus County for sewer service to northeast Mecklenburg County; and

B. Adopt a resolution identifying benefits the City will realize and authorize City Manager to approve and execute an agreement with Cabarrus County.

Staff Resource: Doug Bean

Policy: Seek cooperative agreements for regional issues

Explanation of Request:

• CMUD has negotiated an agreement with the Water and Sewer Authority of Cabarrus County (WSACC) for wastewater treatment services. Key provisions of the agreement include

  - CMUD funds construction of approximately $18 million in sewer outfalls needed to reach the Rocky River Regional Wastewater Treatment Plant

  - CMUD is entitled to 50% of the capacity of the line
- WSACC maintains the outfalls
- CMUD conveys full ownership when debt is retired
- CMUD receives 3 million gallons per day (mgd) treatment capacity, with expansion capacity to at least 6 mgd

- This agreement also establishes the areas and conditions whereby water and sewer facilities from one county could be constructed in the other county

- Advantages to the City

- Approval of this agreement would eliminate the need for CMUD to construct a treatment plant and pump station

- This agreement provides for a regional solution to wastewater service

- The cost to provide service to this area without this agreement is projected to be approximately $25 million (100% financed by City of Charlotte)

---

**Financing Comparison - Cabarrus County Regional Agreement**

<table>
<thead>
<tr>
<th>PROJECT/TOTAL COST</th>

</tr>
<tr>
<td>Rocky River WWTP Expansion - (Construct 2005)</td>
<td>$0</td>
<td>$9,000,000</td>
</tr>
</tbody>
</table>

All costs are based on preliminary engineering estimates. Estimated cost of a new CMUD treatment plant is $25 million.
Funding: No funding is required for approval of this agreement. Funding for the sewer outfalls that CMUD would construct will be made available from future revenue bonds. Council will have award authority of the sewer outfall contracts, contingent upon WSACC approval.

Background:

- Council was briefed on this item at their November 13 dinner.

- Northeast Mecklenburg does not have public sewer service available. The traditional method for providing this service would be to build a new sewer plant and pumping station. This area, however, is in a drainage basin that could be served by the existing Rocky River Regional Wastewater Treatment Plant that is owned by the Water and Sewer Authority of Cabarrus County.

Attachment 6
Executive Summary of Proposed Agreement with WSACC (full agreement is available in Council Library)

8. Ordinance Regarding the Towing of Wrecked, Disabled, or Illegally Parked Motor Vehicles

Action: Adopt an ordinance regarding the towing of motor vehicles.

Staff Resource: Mac McCarley

Explanation of Request:

- The proposed ordinance will do three things:
  - Establish new Section 14-47 as a stand-alone section in the Motor Vehicle Chapter of the City Code providing for the towing of wrecked, disabled or illegally parked motor vehicles.
- Amend Section 4-3(e) in the Aviation Section of the Code to reference new Section 14-47 for the towing of vehicles at the airport, and

- Ratify all tows since the repeal of the zone wrecker ordinance in 1991

While the Aviation Department was implementing an immediate tow policy mandated as part of a recent FAA heightened security directive, it was discovered that Section 4-3(e) of the City Code, which authorizes the towing of unattended or illegally parked vehicles at the airport, contains a reference to the zone wrecker ordinance that was repealed in 1991.

The City Attorney is proposing this ordinance to clearly set out a towing remedy in the Motor Vehicle Chapter of the City Code, to change the reference from the repealed ordinance to the new stand-alone provision, and to make it clear that these changes have no effect on tows that occurred since the repeal of the zone wrecker ordinance.

Action: Approve actions to provide for State Funding with City participation of street improvements around the City of Charlotte/Duke Power Parking Deck.

A. Approve a resolution to authorize the Director of the Department of Transportation to execute the Municipal Agreement between the City of Charlotte and the North Carolina Department of Transportation (NCDOT) for NCDOT funding of roadway and intersection improvements on Graham, Mint, and Second Streets (construction cost $392,500).
B. Approve Budget Ordinance appropriating $392,500 from NCDOT.

C. Amend September 10, 1991, agreement to release NCDOT/Blythe Industries from their obligation to pay $150,000 for soil utilized as part of the I-77/I-485 construction project.

Staff Resource: Scott Putnam

Policy: Economic Development/Public-Private Partnership

Explanation of Request:

- The parking deck agreement between the City and Duke Power Company anticipated that NCDOT would contribute to the cost of roadway and intersection improvements on Graham, Mint, and Second Streets that are necessary to provide satisfactory access to the parking deck and to meet NFL departure time period criteria. The total cost of these improvements is $680,680, which are currently under construction.

- Duke has requested NCDOT to contribute to the remaining construction costs. Duke has agreed to be responsible for all right-of-way and utility relocation costs as well as costs for administering construction.

- NCDOT has agreed to be responsible for the remaining construction costs ($392,500). They are providing these additional funds for street improvements in Charlotte without taking funds from other Charlotte projects. However, they have asked the City to release the NCDOT from costs associated with the 1991 agreement between the City and Blythe Industries, Inc. related to soil utilized as part of the I-77/I-485 project. To date, the City has received $453,000 of the $650,000 total maximum payment. NCDOT is asking to use $150,000 of the remaining payment for the Second Street/Graham Street project.
• The City will turn over maintenance of portions of Second and Mint Streets to the NCDOT for a period of one year to facilitate the NCDOT contribution to construction costs. Following construction, the NCDOT will return these street sections to the City for maintenance.

• These actions will permit Duke's contractor to remain on the project and complete the work in February/March 1996 to coincide with the completion/opening of the parking deck.

• The budget ordinance is required because NCDOT cannot directly reimburse Duke.

Attachment 7

---

**PRIVATIZATION AND COMPETITION INITIATIVE**

The following item is part of the City's privatization and competition efforts. This item was included in the Key Business' privatization and competition plans. Routine privatization efforts (professional services contracts and construction contracts) are included in Consent I and II.

### 10. Copier and Printing Services

**Action:** Approve a contract with ALCO Management Services for Copier and Printing Services.

**Staff Resource:** David Cooke

**Focus Area:** Restructuring Government Privatization and Competition

**Explanation of Request:**

- Council is requested to approve a contract for outsourcing copier and offset printing services. ALCO Management Services will supply all staff, equipment, supplies, maintenance, billing and related services for all key businesses.

- The contract start date is projected to be February 1996. The term of the contract is three years with two optional, one year extensions.
**Background:**

In FY95, Business Support Services, as part of its Privatization and Competition Plan, decided to privatize in-house copier and printing services. National firms provide these services on a competitive basis and also offer technology which can make the City more productive (without the City purchasing this technology). Therefore, the City did not bid on this service.

**Process:**

- The City's process included a partnership with the City of Rock Hill.
- Eight national firms attended our pre-proposal conference and four firms submitted proposals. ALCO Management Services was selected as the firm which could best meet our needs in the following areas:
  - Lowest cost
  - Access to emerging technology
  - Excellent customer service
  - Experience in printing and copier services
- Both the City of Rock Hill and the City of Charlotte selected ALCO Management Services.

**Cost Savings:**

The annual cost savings for copier services are projected to be $91,800. Printing costs are also projected to be lower based on sample printing jobs submitted in ALCO's proposal response.

**Terms:**

The terms of the contract include:
- ALCO will operate from the existing space in the basement of CMGC.
- ALCO will provide all new equipment.
- ALCO is committed to 15% BBE participation.
- The City can renegotiate contract prices if Mecklenburg County and/or the School Board joins the City in the contract.
### 11. Workshop Agenda for January 8

<table>
<thead>
<tr>
<th>Action</th>
<th>Approving the following topics for the January 8 Workshop agenda:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>- Status of Teen Curfew</td>
</tr>
<tr>

<tr>
<td></td>
<td>- 2015 Plan Update</td>
</tr>
</tbody>
</table>

Due to the New Year's Day Holiday, the January Workshop is scheduled for the second Monday of the month, January 8.
Introduction to CONSENT I and II

The consent portion of the agenda is divided into two sections: Consent I and Consent II.

Consent I consists of routine items that have been approved in the budget, are low bid, and have met MWBD criteria.

Consent II consists of routine items that have also been approved in the budget, but may require additional explanation.

Minority and Women Business Development Program (MWBD) Abbreviations:
BBE - African American

NBE - Native American
HBE - Hispanic
WBE - Non-Minority Women

CONSENT I

12. Various Bids

A. Police Cars and Light Trucks

Purchasing

 Recommendation: Director recommends the low bids of $1,439,209 28 from Town & Country Ford (Charlotte, North Carolina) and $216,023 36 from City Chevrolet (Charlotte, North Carolina). These bids are for the purchase of 81 cars for Police and 14 trucks for CMUD and Transportation.

The bids establish unit prices for Police cars and trucks and allow the city to purchase additional vehicles at these bid prices.

MWBD Compliance: Yes, one MWBD vendor placed a bid, but was not successful.
B. **Hazardous Materials Trucks**

**Recommendation:** Fire Chief and Purchasing Director recommend the lowest responsive bid by Saulsbury Fire Apparatus, Tully, N Y, in the amount of $598,978

**MWBD Compliance:** Yes, there are no known MWBD vendors

C. **Transit Bus Storage Lot**

**Recommendation:** The City Engineer recommends the low bid of $980,965 62 from Ferebee Corporation of Charlotte, North Carolina

**Compliance:** Yes

### 13. Refund of Certain Taxes

**Action:**

Adopt a resolution authorizing the refund of certain taxes assessed through clerical or assessor error in the amount of $2,082.50.

**Attachment 8**

### 14. Speed Limit Change

**Action:**

Adopt an ordinance to lower the speed limit on 34 Charlotte streets.

**Policy:**

On May 14, 1984, Council approved a policy to permit lowered speed limits on residential streets. There are two methods of lowering residential speed limits: an engineering evaluation and a petition. The petition requires 75% agreement of the residents along the street and an engineering evaluation is subsequently conducted. State law requires Council approval to lower speed limits.

CONSENT II

15. Pumper Fire Truck

Action: Fire Chief and Purchasing Director recommend that one new pumper truck be bought from existing contract with Quality Equipment Company at the contract price of $222,969

MWBD Compliance: Yes, there are no known MWBE vendors

Explanation of Request:
- Purchasing from existing contracts saves time and money
- Purchasing from existing contracts does not require rebidding
- Purchasing from existing contracts allows the City to purchase the item at a guaranteed unit cost at last year’s contract pricing level
- Purchasing from existing contract avoids having to pay an estimated 3% price increase over previous contract pricing
- The original request for quotation was sent to 15 companies, 8 submitted bids, and Quality Equipment was the low bid

16. Municipal Agreement - Morehead Street and Mint Street

Action: Approve a resolution to authorize the Director of the Department of Transportation to execute a Municipal Agreement between the City of Charlotte and the North Carolina Department of Transportation (NCDOT) for repair work on Morehead and Mint Street Sidewalks.

Explanation of Request:
- The Agreement provides for the City to reimburse the NCDOT $86,000 for sidewalk construction and repairs on Morehead Street and Mint Street
The NCDOT will add the sidewalk work to a project adding a left-turn lane onto I-277 at Church Street

The City's cost will be funded from the NFL capital account

This is part of the work necessary to provide adequate sidewalks in the Uptown area before the opening of the NFL Stadium. NCDOT will be widening Morehead Street this spring and summer to add a left-turn lane onto I-277 at Church Street. We requested that they include other sidewalk work in the vicinity so that there would not be conflicts between two different contractors working in the same area at the same time under a tight deadline. The City funded sidewalk is outside their construction area and would not otherwise be replaced.

17. Resolution and Ordinance for NCDOT Grant for Taxiway F

Action: A. Adopt a resolution accepting a North Carolina Department of Transportation (NCDOT) Grant in the amount of $500,000; and

B. Adopt a budget ordinance appropriating the grant monies to provide the State's share for the site preparation and paving for Taxiway F.

Explanation of Request

- The NCDOT has offered a grant in the amount of $500,000 for a new capacity taxiway, Taxiway F, which represents the airport's maximum allocation under the state's FY96 Aviation Program.

- The total cost of this project is $6,666,667. The Federal Aviation Administration (FAA) funded 75% and the remaining 25% was funded by airport funds.

Background:

- September 9, 1995 - City Council authorized the Aviation Director to accept FAA grant funding.
- September 28, 1995 - The FAA offered a grant for $5 million for this project
- October 9, 1995 - City Council awarded $61 million construction contract to APAC of Georgia

The following three items (#18 through #20) involve the purchase of three private water systems. CMUD recommends the purchase of private water systems where a CMUD main is planned to parallel the private system and in conjunction with planned extensions of the system. The basis for determining a purchase price is as follows:

- Comparing the cost of the private system with the cost of a new parallel City system.
- Instant revenue base derived from the purchase of the private system.
- Value of the system in providing CMUD standards for quality and quantity of water.

18. Saddlebrook Subdivision Water System Purchase

Action: Approve contract with Carolina Water Services, Incorporated for the purchase of the water system serving Saddlebrook Subdivision. Purchase price is $106,000.

Explanation of Request:
- The Charlotte-Mecklenburg Utility Department is currently preparing Phase II construction drawings of the 1990 Matthews Water Bond Program. Part of Phase II includes the extension of a new water main along Winding Trail, the residential street in Saddlebrook Subdivision. Saddlebrook is located on Phillips Road in Matthews and is currently served by Carolina Water.
• As an alternative to installing new water mains that would parallel the existing Carolina system, CMUD recommends the purchase of the Carolina system.

• The advantages to the City's purchase of the Carolina system serving Saddlebrook Subdivision are:
  - This would avoid disruption to the community by eliminating the need to install a parallel water system.
  - CMUD would acquire 56 new customers.
  - There would not be any cost to the 56 Carolina customers to become CMUD customers.
  - Upon acquisition of the system, CMUD would install fire hydrants in the subdivision.

• The N C Utilities Commission traditionally supports the transfer of private utilities to a municipal system. Their approval will be requested after City Council approval of this contract.

• The Town of Matthews approves this purchase.

**Background:**
The August 1, 1984 Charlotte-Matthews merger agreement provides for the extension of the CMUD system utilizing town bond funds.

### 19. Southwood Subdivision Water System Purchase

**Action:** Approve contract with Carolina Water Services, Incorporated for the purchase of the water system serving Southwood Subdivision. Purchase price is $330,000.
Explanation of Request:

- The Charlotte-Mecklenburg Utility Department is currently preparing Phase II construction drawings of the 1990 Matthews Water Bond Program. Part of Phase II includes the extension of a new water main along Woodbend Drive, a residential street in the Southwood Subdivision. Southwood is located on Rice Road in Matthews and is currently served by Carolina Water.

- As an alternative to installing new water mains that would parallel part of the existing Carolina system, CMUD recommends the purchase of the Carolina system.

- The advantages to the City's purchase of the Carolina system serving Southwood Subdivision are:

  - This would avoid disruption to the community by eliminating the need to install a parallel water system.

  - CMUD would acquire 192 new customers.

  - There would not be any cost to the 192 Carolina customers to become CMUD customers.

  - Upon acquisition of the system, CMUD would install fire hydrants in the subdivision.

- The N.C. Utilities Commission traditionally supports the transfer of private utilities to a municipal system. Their approval will be requested after City Council approval of this contract.

- The Town of Matthews approves this purchase.

Background:
The August 1, 1984 Charlotte-Matthews merger agreement provides for the extension of the CMUD system utilizing town bond funds.
### 20. Suburban Woods Subdivision Water System Purchase

**Action:**

Approve contract with Carolina Water Services, Incorporated for the purchase of the water system serving Suburban Woods Subdivision. Purchase price is $70,000.

**Explanation of Request**

- The Charlotte-Mecklenburg Utility Department is currently preparing Phase II construction drawings of the 1990 Matthews Water Bond Program. Part of Phase II includes the extension of a new water main along Plentywood Drive, a residential street in the Suburban Woods Subdivision.

- The Carolina mains are too small to provide fire protection and CMUD proposes to parallel 60% of the Carolina system with new mains sized for fire hydrants. Suburban Woods is located on Idlewild Road in Matthews as is currently served by Carolina Water.

- As an alternate to paralleling the Carolina system, CMUD recommends the purchase of the system in conjunction with the installation of the fire protection system.

- The advantages to the City's purchase of the Carolina system serving Suburban Woods Subdivision are:
  - This would avoid disruption to 40% of the community.
  - CMUD would acquire 95 new customers.
  - There would not be any cost to the 95 Carolina customers to become CMUD customers.
• The N C Utilities Commission traditionally supports the transfer of private utilities to a municipal system. Their approval will be requested after City Council approval of this contract.

• The Town of Matthews approves this purchase.

**Background:**
The August 1, 1984 Charlotte-Matthews merger agreement provides for the extension of the CMUD system utilizing town bond funds.

### 21. Sanitary Sewer Construction - Bethel Church Road Peninsula Pump Station #4

**Action:**

A. Charlotte-Mecklenburg Utility Director recommends the bid of $406,713.30 by Cody's, Incorporated of York, South Carolina be rejected; and

B. Recommends City Council award the low, responsive, responsible bid of $419,239.38 by Trans-State Construction Company of Denver, North Carolina.

**Explanation of Request:**

• Installation of public utilities (including water and/or sewer lines) in Mecklenburg County requires a general contracting license as issued by the State of North Carolina.

• In accordance with North Carolina law and regulations applicable to General Contracting in the State of North Carolina (GS "87-10"), there are three types of license limitations. They are unlimited, intermediate, and limited.
• The holder of an unlimited license shall be entitled to act as a general contractor without restriction as to value of any single project

• The holder of an intermediate license shall be entitled to act as general contractor for any single project with a value up to five hundred thousand dollars ($500,000)

• The holder of a limited license shall be entitled to act as general contractor for any single project with a value of up to two hundred fifty thousand dollars ($250,000)

• Cody's Incorporated holds a public utilities limited license. In accordance with NC state law, he is not allowed to bid on any single contract in excess of $250,000

• Cody's Incorporated holds an unlimited license in the State of South Carolina. It was an oversight by them which lead them to submit a bid in excess of their license limitation

• Cody's, Incorporated cannot be recognized as a responsible, responsive bidder on this project since they have exceeded the state mandated license limitation

MWBD Compliance: Yes, the Contractor has met the requirements of the MWBD Program by performing 100% of the work with his current work forces

22. McAlpine Creek Parallel Interceptor and Tributary IA Sewer, change Order #1

Action: Approve Change Order #1 to McAlpine Creek Parallel Interceptor and Tributary IA Contract with Sanders Brothers, Inc. for $386,987.05
**Explanation of Request:**

- This change order will expedite the connection between the proposed Six Mile Creek Force Main and the receiving sewer outfall currently under construction.

- Approval of this change order will allow the contractor to install the additional outfall line while currently on-site. This will eliminate the mobilization charges required should another contractor be assigned this work. In addition, Sanders Brothers will be paid at the set unit prices established in the original contract bid amount.

**Background:**

- This change order increases Sanders Brothers, Inc contract from $4,300,572.96 to $4,687,560.01.

- The original contract with Sanders Brothers, Inc was approved by Council on June 26, 1995.

- Due to the time frame for construction of the McAlpine Creek Parallel Interceptor and the requirement to have the sewer line crossing Ballantyne and Crescent property completed within a particular timeframe, the footage of pipe requested to be added in this change order was removed from the original contract. Right-of-way has been obtained and construction of this work by Sanders will be less costly and time productive.

---

23. **Sewer Contract - Corporation of the Presiding Bishop of the Church of Jesus Christ of Latter-Day Saints**

**Action:** Approve contract between the City and The Church of Jesus Christ of Latter-Day Saints.
Explanation of Request:

- The Applicant, Corporation of the Presiding Bishop of the Church of Jesus Christ of Latter-Day Saints, a Utah Corporation Sole, has requested a contract for the design and construction of 2,475 linear feet of sanitary sewer trunk main to serve the Church of Jesus Christ of Latter-Day Saints property on Rocky River Road. The estimated cost of this project is $156,000.

- Under this 15-year reimbursable contract, the applicant has deposited 10% of the estimated project cost with the remaining 90% to be deposited prior to construction.

- There is no cost to the City.

24. Instrumentation Services at McAlpine Creek WWMF - Professional Services Contract

Action: Approve contract with Instrumentation Services, Inc. to provide electrical and instrumentation maintenance services at McAlpine Creek Wastewater Management Facility. The contract is for one year at the price of $111,594.

Explanation of Request:

- CMUD recommends the purchase of services for electrical and instrumentation maintenance at McAlpine. This service is presently being provided by CMUD employees at all of our plants. This will allow us to benchmark our service versus the private sector.

- This contract complies with policies on competition and privatization.

- The contract is a service contract, therefore, quotes were obtained in lieu of a formal bid process.
25. Mutual Release Agreement for Smith Metal and Iron Site

Action:

Explanation of Request

- In order to clean up the environmental problems at the NFL Site, the parties entered into a Revised Mediation Agreement in August of 1994. The Agreement specified the environmental clean-up response actions to be taken by the various parties, and allocated the costs of those clean-up actions. The clean-up is now complete and the site has been released by the parties to Richardson Sports for use as part of the Panthers practice field complex.

- This Mutual Release Agreement is required by the Revised Mediation Agreement, and closes out the obligations relating to the clean-up of the NFL Site. In this Agreement, the parties release each other for any claims or costs relating to the clean-up which is now complete.

26. Compromise Disputed Tax Claim

Action:

Explanation of Request:

The purposes of this action are to avoid litigation expense in Bankruptcy Court, possible loss of 1994 tax revenue, and preserving tax value for 1994, 1995, and 1996.

Attachment 9
27. Property Transactions

Action: Approve property acquisitions A-D.

Acquisitions:

A. **Project:** Nevin Road Extension Right-of-Way, Parcel #1 of 1  
**Owner(s):** Estate of William Glenn Dellinger  
**Property Address:** 2840 W Sugar Creek Road  
**Property to be acquired:** 300,128 4 sq ft, 6.89 acres  
**Improvements:** Compensation includes severance damages to the remainder of the property  
**Tax Value:** $100,560  
**Purchase Price:** $300,000  
**Remarks:** The purchase of this property will protect the right-of-way corridor to the missing link of Nevin Road. This property was a part of a law suit (Dellinger vs City of Charlotte) where it was determined that the owners have a right to build within the future Nevins Road right-of-way corridor. The purchase price includes the value of the right-of-way, damages to the remainder portions of the Dellinger property and any further claims borne by the Dellinger law suit. Legal and CDOT concur with the settlement.

**Zoned:** R17MF Use Garden Apt/Vacant  
**Tax Code:** 043-012-08
For items B-D the purchase was determined by an independent appraiser and was reviewed by a second appraiser. Each appraisal takes into consideration the specific condition and size of the house. The tax value is determined on a more generic basis and will be higher or lower for houses with certain attributes. Residential property is acquired per Federal Guidelines 49 CFR Part 24 of the Uniform Acquisition and Relocation Act of 1970. The owners are eligible for relocation benefits. Acquisition and relocation costs are eligible for Federal Aviation Administration reimbursement.

B. **Project**: F A R Part 150 Land Acquisition  
   **Owner(s)**: Mr. Barry T. Dixon  
   **Property Address**: 2422 Carrington Ct, Charlotte  
   **Property to be acquired**: 209 Acres  
   **Improvements**: Ranch, 3 bedroom, 1 bath  
   **Tax Value**: $48,720  
   **Purchase Price**: $51,000

C. **Project**: F A R Part 150 Land Acquisition  
   **Owner(s)**: Ms. Alma P. Robinson  
   **Property Address**: 2520 Carrington Ct,  
   **Property to be acquired**: 263 Acres  
   **Improvements**: Ranch, 3 bedroom, 1 bath  
   **Tax Value**: $59,440  
   **Purchase Price**: $56,000

D. **Project**: F A R Part 150 Land Acquisition  
   **Owner(s)**: M/M Kenneth Rouse  
   **Property Address**: 3210 Maple Lane, Charlotte  
   **Property to be acquired**: 25 Acres
