*PRE-HEARING STAFF ANALYSIS*

Rezoning Petition No. 98-116

Petitioner: Hargett, LLC

Location: Approximately 6 acres located on the west side of Providence Road (NC 16) north of the East-West Circumferential.

Request: R-3 to O-1(CD)

Summary of Request: This petition would allow up to 49,850 square feet of office uses in a "neo-traditional" style layout. Hotels/motels are specifically excluded and a maximum of 10,500 square feet may be used for medical offices.

BACKGROUND

1. Existing Zoning. The petitioned property and properties to the west, north and east (across Providence Road) are zoned R-3. The property to the south is zoned B-2 (CD) as a result of Rezoning Petition No. 96-19(c) to allow 100,000 square feet of retail uses and 18,000 square feet of office uses.

2. Existing Land Use. The petitioned site and properties to the north and south are vacant. Single family residences occupy the properties to the east. The property to the west is occupied by a golf course.

3. Public Plans and Policies
   a. South District Plan (1993 - including the amended Providence Road/Providence Road West/Southern Outer Belt Interchange Special Project Plan). This plan recommends up to 500 units of multi-family housing (assuming a 4-lane cross section for Providence Road) at a density of “greater than 12” units per acre near the interchange. Additional multi-family development for the southwest and southeast quadrants should develop at no more than 12 units per acre. The plan also recommends a park / private recreation site to the west and south.

-continued-
b. Providence Road/I-485 Area Plan Update (pending). This study is currently underway to address changes that have taken place in the general area of this interchange and to update land use recommendations for the area. The draft plan recommendations call for residential uses at a density of six to eight dwelling units per acre for the petitioned site. A workshop on the Plan update is scheduled for February 4th. The tentative schedule is to present the Plan to the Planning Committee in April. Subsequently, the plan will be scheduled for consideration by City and County elected officials.

c. Transportation Improvement Program. The subject property is located on Providence Road, which is a major thoroughfare proposed for widening south of I-485. That project is in the planning and design phase, with construction anticipated to begin in 2003. Modifications to the interchange (consisting of loop on-ramps in the northeast and southwest quadrants) have been funded and construction is scheduled to begin in 2001.

4. Site Plan. The site plan which accompanies this petition proposes:

- Maximum building height will be two stories. Attic areas may also be leasable but will not increase building height.

- A 34-foot class “C” buffer is provided along the north and west boundaries of the site.

- An additional 20 feet of right-of-way is being dedicated along Providence Road. A five-foot sidewalk with eight-foot planting strip will be constructed along Providence Road.

- Buildings will be constructed with 80% brick or other masonry surface and shall reflect a residential style and scale.

5. School Information. This request will not impact the school system.

DEPARTMENTAL COMMENTS

- CDOT notes that this site could generate approximately 198 to 234 trips per day as currently zoned. Under the proposed zoning the site could generate approximately 2,460 trips per day. This will not have a significant impact on the surrounding thoroughfare system. The proposed access from Providence Road should be deleted.

-continued-
Departmental Comments (continued)

- The Storm Water Services Department notes that no significant downstream impacts are foreseen due to this request.

OUTSTANDING ISSUES

1. Land Use. This proposal is inconsistent with both existing and pending land use plans for the area. Those plans recommend residential uses for the southern quadrants of this interchange. Therefore, this petition is not appropriate for approval from a land use perspective.

2. Site Plan. The following site plan issues remain outstanding:
   - The proposed access point from Providence Road should be deleted.

CONCLUSION

The adjoining property to the south, which was rezoned in 1996 for retail and office uses, has yet to develop. The further extension of non-residential zoning in this area is premature. Further, the petition is inconsistent with the South District Plan, the Providence Road/Providence Road West/Southern Outer Belt Interchange Special Project Plan, and the pending draft of the Providence Road/I-485 Area Plan Update. For these reasons, this petition is not recommended for approval.

*Subject to further refinement following public hearing.

SUBJECT: Rezoning Petition 98-116: West side of Providence Road North of
The East-West Circumferential
(Revised 1/19/99)

We previously commented on this petition in our November 5, 1998 memorandum to
you. This site could generate approximately 198 to 234 trips per day as currently
zoned. After further review of the site plan we have determined that under the
proposed zoning the site could generate approximately 2,460 trips per day, instead of
3,519 trips per day. This will not have a significant impact on the surrounding
thoroughfare system.

- Because of the lesser trip generation amount we will not require a traffic impact
  study.

We have the following specific comments:

- The site can be adequately served by a driveway connection to the proposed
  public street. The right in/right out driveway on Providence Road north of the
  proposed public street will not be approved.

- Any driveway connections to the proposed public street must be located at least
  150 feet from the future right-of-way line of Providence Road, opposite the
  driveway to the future shopping center, or beyond the eastbound left-turn
  lane/taper, whichever is greater.
If we can be of further assistance, please advise.
