Committee Chair:
Julie Eiselt, Transportation and Planning

Staff Resource(s):
Liz Babson, Transportation
Charles Abel, Transportation

Current Policy
- The current School Zone Policy was adopted in 2004.
- The existing policy has conditional requirements for high schools that preempt some schools from qualifying for the installation of school zones.
- School zones are only allowed on frontage streets.
- Qualifications for school zones are determined by a total number of student walkers.

Proposed Changes
- Align the policy with the tenets of Vision Zero and ease the requirements on school eligibility.
- Remove conditional requirements on high schools for eligibility.
- Allow adjacent streets to be part of school zones in addition to frontage streets.
- Considers the school location on the High Injury Network corridor while factoring in traffic volumes and speeds.
- School speed zones should be established at 25 miles per hour citywide.
- The City will seek concurrence with the North Carolina Department of Transportation to establish school speed zones on state-maintained streets in accordance with this policy.

Committee Discussion
- The Transportation and Planning Committee (Committee) received information and discussed the policy at the meetings on June 24, 2018, November 26, 2018, and January 14, 2019.

16. Guidelines for the Evaluation and Disposition of City-Owned Land for Affordable Housing

Action:
Approve the Housing and Neighborhood Development Committee’s recommendation of the Guidelines for Evaluation and Disposition of City-Owned Land for Affordable Housing.

Committee Chair:
LaWana Mayfield, Housing and Neighborhood Development

Staff Resource(s):
Pamela Wideman, Housing and Neighborhood Services

Explanation
- The Housing Framework indicates that the use of publicly-owned land is a best practice used throughout the country to increase the supply of affordable housing. The City intends to prioritize the use of available City-owned land for development of affordable housing.
- To the extent possible, City-owned land will be used for affordable housing to:
  - Create mixed-income and inclusive neighborhoods,
  - Leverage, reduce, or eliminate Housing Trust Fund and other public funding requests, or
  - Increase the City’s long-term deed-restricted affordable housing supply.
- The Guidelines for Evaluation and Disposition of City-Owned Land for Affordable Housing (Guidelines) are intended to:
  - Establish criteria, clarity, and reflect desired outcomes relative to the donation, sale, or long-term lease of City-owned land with the overall goal of expanding the supply of affordable and workforce housing,
  - Provide an orderly and uniform approach for the disposal of surplus property assets for the expansion of affordable housing,
  - Provide for fixed asset control documentation to account for any reuse or disposal of City-owned property, and
  - Prohibit disposition of City-owned property in a manner to avoid actual or perceived conflicts of interest.
- The Guidelines also require a periodic review of all City-owned land to evaluate opportunities for affordable housing. A review every five years will be done to determine fully utilized land and every year for land that is either underutilized, has an interim use, or is considered surplus.

Committee Discussion
- On January 16, 2019, the Housing and Neighborhood Development Committee voted unanimously (Mayfield, Driggs, Harlow, and Newton; Egleston was absent) to approve the Guidelines.

75. Reference - Property Acquisitions and Condemnations

- The City has negotiated in good faith to acquire the properties set forth below
- For acquisitions, the property owner and staff have agreed on a price based on appraisals and/or estimates.
- In the case of condemnations, the value was established by an independent, certified appraisal followed by a third-party appraisal review.
- Real Estate staff diligently attempts to contact all property owners by:
  - Sending introductory letters via regular and certified mail,
  - Making several site visits,
  - Leaving door hangers and business cards,
  - Seeking information from neighbors,
  - Searching the internet,
  - Obtaining title abstracts, and
  - Leaving voice messages.
- For most condemnation cases, City staff and the property owner(s) have been unable to reach a settlement. In some cases, condemnation is necessary to ensure a clear title to the property.
- If the City Council approves the resolutions, the City Attorney’s office will initiate condemnation proceedings. As part of the condemnation process, real estate staff and the City Attorney’s Office will continue to negotiate, including court-mandated mediation, in an attempt to resolve the matter. Most condemnation cases are settled by the parties prior to going to court.
- If a settlement cannot be reached, the case will proceed to a trial before a judge or jury to determine "just compensation."
- Full text of each resolution is on file with the City Clerk’s Office.
- The definition of easement is a right created by grant, reservation, agreement, prescription, or necessary implication, which one has in the land of another, it is either for the benefit of land, such as right to cross A to get to B, or "in gross," such as public utility easement.
- The term “fee simple” is a synonym for ownership and is an estate under which the owner is entitled to unrestricted powers to dispose of the property, and which can be left by will or inherited.
76. **Reference - Property Transaction Process**

*Property Transaction Process Following City Council Approval for Condemnation*

The following overview is intended to provide further explanation for the process of property transactions that are approved by City Council for condemnation.

Approximately six weeks of preparatory work is required before the condemnation lawsuit is filed. During this time, City staff continues to negotiate with the property owner in an effort to reach a mutual settlement.

- If a settlement is reached, the condemnation process is stopped, and the property transaction proceeds to a real estate closing.
- If a settlement cannot be reached, the condemnation lawsuit is filed. Even after filing, negotiations continue between the property owner and the City’s legal representative. Filing of the condemnation documents allows:
  - The City to gain access and title to the subject property so the capital project can proceed on schedule.
  - The City to deposit the appraised value of the property in an escrow account with the Clerk of Court. These funds may be withdrawn by the property owner immediately upon filing, and at any time thereafter, with the understanding that additional funds transfer may be required at the time of final settlement or at the conclusion of litigation.
- If a condemnation lawsuit is filed, the final trial may not occur for 18 to 24 months; however, a vast majority of the cases settle prior to final trial. The City’s condemnation attorney remains actively engaged with the property owner to continue negotiations throughout litigation.
  - North Carolina law requires that all condemnation cases go through formal non-binding mediation, at which an independent certified mediator attempts to facilitate a successful settlement. For the minority of cases that do not settle, the property owner has the right to a trial by judge or jury in order to determine the amount of compensation the property owner will receive.
