*PRE-HEARING STAFF ANALYSIS*

Rezoning Petition No. 98-15

Petitioner: Auto Inspector, Inc.

Location: Approximately 0.57 acres located on the southeast corner of Central Avenue and Carolyn Drive.

Request: O-2 to B-1(CD)

BACKGROUND

1. **Existing Zoning.** The petitioned site and the property to the east are zoned O-2. The properties to the west across Carolyn Drive and north across Central Avenue are zoned R-22MF. The properties to the south and southwest across Carolyn Drive are zoned R-4.

2. **Existing Land Use.** The petitioned site and the properties to the south and north across Central Avenue are vacant. The property to the east and southwest across Carolyn Drive are occupied by single family residences. The property to the west across Carolyn Drive is occupied by a business use.

3. **Public Plans and Policies.**
   a. **Central District Plan(adopted 1993).** This district plan recommends office use of this property. The plan calls for commercial uses east of this site, with multi-family residential uses to the west and across Central Avenue. The plan also recognizes the existing single family residential development to the south. The office uses act as a transitional area between the commercial uses to the east and the residential uses to the south and west.
   
   b. **Briar Creek-Woodland/Merry Oaks Small Area Plan (Draft).** This draft area plan recognizes the existing office zoning on the site. The study group specifically reviewed the requested use and recommended retention of the existing office zoning. This draft plan was reviewed by the Planning Committee in February and recommended for approval. This plan is currently being reviewed by the City Council's Economic Development and Planning Committee.
   
   c. **Transportation Improvement Program.** Central Avenue is a major thoroughfare with no improvements recommended in the 2015 Transportation Plan.

4. **Site Plan.** The site plan associated with this petition proposes to rezone from O-2 to B-1(CD) for a 4,826 square foot auto inspection facility. The site will be accessed by one driveway from Central Avenue and one driveway from Carolyn Drive. The

- continued-
driveway on Carolyn Drive will have a gate that will be closed after business hours to help minimize the potential cut-through traffic on Carolyn Drive. A 20-foot setback is shown along Central Avenue and a 15-foot setback is shown along Carolyn Drive. A 20-foot buffer with a fence is shown along the rear property line. The proposed building will be constructed of split face block and metal siding.

5. School Information. This request will not impact the school system.

DEPARTMENTAL COMMENTS

* CDOT notes that this site could generate approximately 159 trips per day as currently zoned and under the proposed zoning. See the attached memo for additional transportation concerns regarding the proposed access from Carolyn Drive.

* The Storm Water Services Department notes that there has been a history of complaints downstream of this site. For this reason, additional storm water measures have been recommended for this site and the petitioner has agreed to those recommendations.

OUTSTANDING ISSUES

1. Land Use. This proposal is inappropriate for approval from a land use point of view. It is inconsistent with publicly adopted plans and policies for this area and removes a beneficial transitional area separating commercial and residential uses. It also introduces commercial traffic onto a residential street.

2. Site Plan. The following site plan issue is still outstanding:
   - The metal siding on the proposed building needs to be replaced with either brick or split face block.

CONCLUSION

This proposal is inappropriate for approval. The use is inconsistent with both existing plans and a draft neighborhood plan recommended for approval by the Planning Committee.

NOTE: A previous version of this petition, requesting the NS district, went to public hearing in March. Subsequent to a negative recommendation by the Zoning Committee, but prior to a decision by the City Council, the petitioner deferred his request in order to seek this different zoning district.

*Subject to further refinement following public hearing.
