## ZONING DECISIONS

Allows eating, drinking and entertainment establishments by right or with prescribed conditions in the following zoning districts: multi-family, UR-2 (urban residential), UR-3 (urban residential), UR-C (urban residential, commercial), institutional, research, office, business, MX-1 (mixed use), MX-2 (mixed use), MX-3 (mixed use), MUDD (mixed use development), UMUD (uptown mixed use), CC (commercial center), NS (neighborhood services), TOD (transit oriented development), U-I (urban industrial), industrial, PED (pedestrian overlay) and TS (transit supportive overlay). An exemption process is added, including criteria to be eligible to apply for a Certificate of Exemption when an existing eating, drinking, and entertainment establishment cannot meet the proposed separation distance requirements. This petition is found to be consistent with the Centers, Corridors and Wedges Growth Framework Plan goals and to be reasonable and in the public interest, based on information from the staff analysis and the public hearing by a vote of 6-0 of the Zoning Committee. The Committee voted 6-0 to recommend APPROVAL of this petition with the following modifications:  

1. Modify Section 12.546(2)(a) by allowing the minimum separation distance in the MUDD (mixed use development), UMUD (uptown mixed use), TOD (transit oriented development) and TS (transit supportive) zoning districts to be reduced as an optional provision if three conditions are met. The new subsection shall read as follows: Minimum 100 foot separation distance in the MUDD, UMUD, TOD and TS zoning districts. The minimum required separation distance cannot be reduced as an optional provision unless the following conditions are met:  

   i. There are no principal residential structures within 225 feet of the portion of the property line along which the reduction is being requested;  

   ii. The optional request includes zoning conditions to mitigate the impact of a reduction in the separation distance including but not limited to: elevation changes, structures located between the outdoor use and the property line, enhanced screening and buffering, and noise reduction features; and  

   iii. The optional request does not reduce the separation distance requirement by more than 50%.

8. Provided a note that states that the proposed six-foot high fence will be opaque and made of wood or vinyl material, or a composite. In addition, brick or stone columns will be inserted at approximately 60’ on center along the fence line.
9. Noted the common open areas on the site plan.

Staff recommends approval of this petition.
