Policy
- As required by state law, the City of Charlotte adopts annual appropriations and a tax levy ordinance and considers related actions by July 1 of each fiscal year.
- The annual budget is an instrument that establishes policy. The budget identifies and summarizes programs and services provided by the city and the how they are funded. It is the annual plan that coordinates the use of revenues and associated expenditures.

Background
- The annual budget ordinance is presented in accordance with the City Manager’s Proposed FY 2020 Budget on May 6, 2019, and subsequent City Council budget adjustments.
- The FY 2020 Budget is structurally balanced and focuses on four new strategic priorities: Economic Development, Neighborhood Development, Transportation and Planning, and Well-Managed Government.
- The budget development process includes input from the community, city departments, and the Mayor and City Council. To facilitate input, the city held six community engagement events throughout the fall of 2018, four Budget and Effectiveness Committee meetings on December 11, 2018, and January 15, February 19, and March 19, 2019, three Budget Workshops on February 6, March 6, and April 3, 2019, and two Budget Briefing meetings on May 8, and May 22, 2019.
- The Proposed FY 2020 Budget was presented on May 6, 2019.
- The Budget Public Hearing occurred on May 13, 2019.
- In the month of May several one-on-one meetings were held with council members regarding the FY 2020 Proposed Budget.
- The Mayor and City Council met on May 23, 2019, to discuss budget adjustments for consideration to the Proposed FY 2020 Budget. Two budget adjustments were approved by City Council for inclusion in the FY 2020 Budget.
- FY 2020 Budget highlights include:
  - Establishes a revenue neutral property tax rate.
  - Establishes the Office of Equity, Mobility, and Immigrant Integration to advance upward mobility, immigrant services, diversity, equity, and inclusion within the organization and
throughout the community.

- In addition, the use of non-toxic autogas propane is, on average, 33 percent less expensive than gasoline, and has a lower carbon footprint than electricity.
- The two grant awards total $191,064, and the city will provide a total local match of $60,336. The city will continue to pursue grants and use existing operating funds for any remaining expenditures.

Actions A, B, and C
- On February 21, 2019, the city issued an Invitation to Bid; eight bids were received.
- Blossman Gas of North Carolina and Energy United Propane were selected as the lowest responsive, responsible bidders.

**Action:**
A. Adopt a resolution identifying a critical need for a capital improvement project that provides for the removal and reuse of phosphorus, and

B. Authorize the use of the public-private partnership contracting method to provide the capital improvement project.

**Staff Resource(s):**
Angela Lee, Charlotte Water  
Ron Hargrove, Charlotte Water  
Carl Wilson, Charlotte Water

**Explanation**
- Charlotte Water is seeking to enter into a Public-Private Partnership (P3) to implement a nutrient harvesting facility to recover phosphorus from wastewater for use as fertilizer.
- Removal of phosphorus is a critical need at the wastewater treatment plant, is regulated by permit, and aligns with the city’s circular economy initiatives.
- Utilizing the P3 construction contracting method mitigates the risks and shifts the responsibility to the third party, allowing Charlotte Water to focus on providing core services.
- In order for Charlotte Water to utilize a P3 construction contracting method, Council must adopt the attached resolution as required by North Carolina General Statute 143-128.1C.
- In 2011, Charlotte Water conducted a pilot for a phosphorus removal process at the McAlpine Creek Wastewater Treatment Plant, in the Town of Pineville (adjacent to Council District 7).
- In 2013, the biosolids master plan recommended phosphorus be beneficially reused as a fertilizer.
- Future Council approval for the contract with the selected P3 vendor will be required.

50. Reference - Property Acquisitions and Condemnations

- The City has negotiated in good faith to acquire the properties set forth below
- For acquisitions, the property owner and staff have agreed on a price based on appraisals and/or estimates.
- In the case of condemnations, the value was established by an independent, certified appraisal followed by a third-party appraisal review.
- Real Estate staff diligently attempts to contact all property owners by:
  - Sending introductory letters via regular and certified mail,
  - Making several site visits,
  - Leaving door hangers and business cards,
  - Seeking information from neighbors,
  - Searching the internet,
  - Obtaining title abstracts, and
  - Leaving voice messages.
- For most condemnation cases, City staff and the property owner(s) have been unable to reach a settlement. In some cases, condemnation is necessary to ensure a clear title to the property.
- If the City Council approves the resolutions, the City Attorney’s office will initiate condemnation proceedings. As part of the condemnation process, real estate staff and the City Attorney’s Office will continue to negotiate, including court-mandated mediation, in an attempt to resolve the matter. Most condemnation cases are settled by the parties prior to going to court.
- If a settlement cannot be reached, the case will proceed to a trial before a judge or jury to determine "just compensation."
- Full text of each resolution is on file with the City Clerk’s Office.
- The definition of easement is a right created by grant, reservation, agreement, prescription, or necessary implication, which one has in the land of another, it is either for the benefit of land, such as right to cross A to get to B, or "in gross," such as public utility easement.
- The term “fee simple” is a synonym for ownership and is an estate under which the owner is entitled to unrestricted powers to dispose of the property, and which can be left by will or inherited.
51. **Reference - Property Transaction Process**

**Property Transaction Process Following City Council Approval for Condemnation**

The following overview is intended to provide further explanation for the process of property transactions that are approved by City Council for condemnation.

Approximately six weeks of preparatory work is required before the condemnation lawsuit is filed. During this time, City staff continues to negotiate with the property owner in an effort to reach a mutual settlement.

- If a settlement is reached, the condemnation process is stopped, and the property transaction proceeds to a real estate closing.
- If a settlement cannot be reached, the condemnation lawsuit is filed. Even after filing, negotiations continue between the property owner and the City's legal representative. Filing of the condemnation documents allows:
  - The City to gain access and title to the subject property so the capital project can proceed on schedule.
  - The City to deposit the appraised value of the property in an escrow account with the Clerk of Court. These funds may be withdrawn by the property owner immediately upon filing, and at any time thereafter, with the understanding that additional funds transfer may be required at the time of final settlement or at the conclusion of litigation.
- If a condemnation lawsuit is filed, the final trial may not occur for 18 to 24 months; however, a vast majority of the cases settle prior to final trial. The City's condemnation attorney remains actively engaged with the property owner to continue negotiations throughout litigation.
  - North Carolina law requires that all condemnation cases go through formal non-binding mediation, at which an independent certified mediator attempts to facilitate a successful settlement. For the minority of cases that do not settle, the property owner has the right to a trial by judge or jury in order to determine the amount of compensation the property owner will receive.
