Council Agenda

Monday, September 24, 1990

1:00 p.m.  -  Council-Manager luncheon
2:00 p.m.  -  Citizens hearing
2:30 p.m.  -  Council meeting

ITEM NO.

1. Invocation by Rev. Preston Pendergrass of Antioch Baptist Church.

PUBLIC HEARINGS

2. (1) Conduct a public hearing; (2) adopt a resolution making certain findings of facts; (3) approve the forms of documentation; (4) adopt resolution setting forth an interlocal agreement and; (5) direct City Manager to take necessary actions to secure financing of the Convention Center under N.C.G.S 160A-19 or 160A-20.

Council Actions

(1) Conduct a public hearing in accordance with the resolution adopted on September 10, 1990, relative to financing the Convention Center;

(2) Adopt a resolution that makes certain findings of facts related to financing the Convention Center under N.C.G.S. 160A-19, or in the alternative, N.C.G.S. 160A-20,

(3) Approve the forms of documentation required under N.C.G.S. 160A-19, or in the alternative, N.C.G.S. 160A-20 including a lease, installment purchase contract and deed of trust;
ITEM NO.

(4) Adopt a resolution that authorizes the City Manager and the Director of Finance to proceed with necessary actions to carry out an interlocal agreement with the City of Durham and;

(5) Direct the City Manager to proceed with those acts necessary to proceed with financing the Convention Center.

**Convention Center Financing**

July 9, 1990 - Council authorized actions to secure financing for the proposed Convention Center.

August 6, 1990 - Council authorized actions to secure financing for a convention center via a lease/purchase method.

September 10, 1990 - Council adopted a resolution calling for a public hearing concerning a Convention Center financing via N.C.G.S. 160A-20 and authorized actions to secure the financing.

August 27, 1990 - Council was informed of the possible savings available through the North Carolina League of Municipalities because of a transition rule exemption granted to the League in the Technical Corrections Act of 1986 (League Pool). The League Pool requires the participation of at least two municipalities. The City of Durham is structuring a financing that will meet the December 31, 1990 deadline of the League Pool, and has agreed to participate with the City.

**Funds**

Proceeds of the financing.

**Clearances**

Finance Department and Special Counsel.
3. A. Conduct a public hearing to abandon a portion of an alleyway off East Sixteenth Street.

B. Adopt the resolution to close a portion of an alleyway off East Sixteenth Street.

Petitioner: Habitat for Humanity

Right-of-Way to be Abandoned: A portion of an alleyway

Location: Off East Sixteenth Street between Seigle Avenue and North McDowell Street

Reason: To incorporate right-of-way into adjoining lots for residential development.

Clearances:
Private utility companies - No objection
Belmont Neighborhood - No response
Adjoining property owners- No response
City departments - Review has identified no apparent reason this closing would:
1. Be contrary to the public interest; or
2. Deprive any individual owning property in the vicinity of this alleyway of reasonable ingress and egress to his property as outlined in NCCS 160A-299.

Funding: No City funds are involved.

Attachment No. 1

4. A. Conduct a public hearing to abandon a portion of James Avenue.

B. Adopt the resolution to close a portion of James Avenue.

Petitioner: Mr. David M. Furr

Right-of-Way to be Abandoned: A portion of James Avenue

Location: Between Morris Field Drive and Taggart Creek

Reason: To incorporate right-of-way into adjoining tracts for future industrial use.

Clearances:
Private utility companies - No objection
This area does not have a neighborhood association
City departments - Review has identified no apparent reason this closing would:
1. Be contrary to the public interest; or
2. Deprive any individual owning property in the vicinity of James Avenue of reasonable ingress and egress to his property as outlined in NCGS 160A-299.

Funding: No City funds are involved.

Attachment No. 2

5. A. **Conduct a public hearing to abandon a portion of an alleyway off West Fifteenth Street.**

B. **Adopt the resolution to close an alleyway off West Fifteenth Street.**

**Petitioner:** C. D. Stampley Enterprises, Inc.

**Right-of-Way to be Abandoned:** A portion of an alleyway

**Location:** Off West Fifteenth Street

**Reason:** To incorporate right-of-way into adjoining property so that petitioner can construct a fence encompassing building and parking for security reasons.

**Clearances:**
Private utility companies - No objection
Adjoining property owner - Mr. Jack W. Stone, Jr. opposes abandonment, stating that it would affect ingress and egress to his business and rental property. Mr. Stone has a driveway entrance to his business off North Tryon Street and has been offered by the petitioner access off of North Church Street or Liddle Street.

Lockwood Neighborhood Group - No objection.

City departments - Review has identified no apparent reason this closing would:
1. Be contrary to the public interest; or
2. Deprive any individual owning property in the vicinity of this alleyway of reasonable ingress and egress to his property as outlined in NCGS 160A-299.

**Funding** No City funds are involved.

Attachment No. 3
6. A. (1) Conduct a public hearing, and (2) Recommend adoption of a resolution to make storm drainage improvements of $780,000 as outlined by Petition I of the Plaza-Shamrock Neighborhood Stormwater Repair Project and assess a portion of the cost to the involved property owners in accordance with the Storm Drainage Repair Policy.

B. (1) Conduct a public hearing, and (2) Recommend adoption of a resolution to make storm drainage improvements of $640,400 as outlined by Petition II of the Plaza-Shamrock Neighborhood Stormwater Repair Project and assess a portion of the cost to the involved property owners in accordance with the Storm Drainage Repair Policy.

---

**Public Hearing Required**

In order to assess a share of the cost of storm drainage improvements upon all parcels in the drainage basin, North Carolina General Statute 160A-223 requires that City Council hold a public hearing.

---

**Plaza-Shamrock Drainage**

In mid-1986, the Engineering Department conducted an investigation of drainage problems in the Plaza-Shamrock neighborhood.

- The problems involve numerous areas within Plaza-Shamrock where the storm drainage systems are undersized by today's standards.

- These areas have suffered from severe flooding and erosion over the past few years.

- The problem qualified for assistance through the City's Storm Drainage Repair Policy, and forms for a full petition were given to involved citizens in July, 1988.

- Due to the size of this project and the number of properties within the drainage basin, the improvements were divided into two separate petitions. Petition I and Petition II are to be considered separate projects, but for reasons of simplicity will be discussed concurrently.

- A map is attached.

---

**Storm Drainage Repair Policy**

The City's Storm Drainage Repair Policy, in accordance with North Carolina General Statute 160A-218, authorizes the City Council to assess a share of the cost of storm drainage improvements
upon all lots and parcels of land in the drainage basin contributing runoff to the problem if a petition is signed by more than 50 percent of the property owners and these owners represent more than 50 percent of the property area.

**Petition I**

**Signatures:** Sufficient signatures for assessment were gathered: 50.8 percent of owners, and 51.2 percent of area.

**Ranking:** High priority.

**Improvements:** Upgrading the storm drainage system within the drainage basin, both on private property and in City right of way.

**Estimated total cost of project:** $780,000

**City's Cost:** City pays for all improvements in street right of way ($350,515) and four-fifths of cost on private property ($343,588).

**Property owner(s) cost:** Involved property owners share one-fifth private property cost ($85,897).

**Number of properties involved:** 326

**Average assessment:** $263.49

**Petition II**

**Signatures:** Sufficient signatures for assessment were gathered: 54.4 percent of owners, and 55.5 percent of area.

**Ranking:** High priority.

**Improvements:** Upgrading the storm drainage system within the drainage basin, both on private property and in City right of way.

**Estimated total cost of project:** $640,400

**City's Cost:** City pays for all improvements in street right of way ($288,000) and four-fifths of cost on private property ($281,920).

**Property owner(s) cost:** Involved property owners share one-fifth private property cost ($70,480).

**Number of properties involved:** 296

**Average assessment:** $238.11
Funding
Storm Drain Repair Capital Account.

Clearances
Engineering Department.

Attachment No. 4

POLICY

7.
Consider alternative alignments for the Sardis Road/Weddington Road Connector and direct the City's representative to the Metropolitan Planning Organization (MPO) concerning alignment selection for addition to the Thoroughfare Plan.

At the September 17, 1990 zoning meeting, Council voted to put this item back on the agenda.

At the September 10, 1990 meeting, Council voted to: (1) use the City's weighted vote; (2) have the City's representative to the MPO vote for either the E route as recommended by the technical staff, or the G' route; or, (3) to change the vote to support Matthews if Matthews chose a Sardis/Weddington connector in addition to the F alignment before the September 19 MPO meeting.

Council Action
Council is requested to consider the various alignments for the Sardis Road/Weddington Road Connector and to provide direction for the City's representative to the MPO when a vote is taken on September 19 on adding this roadway to the Thoroughfare Plan. Addition of the roadway to the Thoroughfare Plan is necessary to protect the thoroughfare's right-of-way.

Description of the Connector Road
The Sardis Road/Weddington Road Connector:
. is a proposed major thoroughfare intended to provide another continuous radial route from uptown to southeast Mecklenburg County as well as Union County;
. will provide an additional arterial, increasing roadway capacity in this portion of the County; and
. would be constructed within a 100-foot right-of-way.

Most of the proposed thoroughfare is located within Matthews corporate limits. As shown by Attachment 1, the only segment within Charlotte
or its sphere of influence is the portion from Weddington Road to the Matthews town limit (shown in red).

**Chronology**

A chronology of events related to this thoroughfare follows:

**1985**
County Engineering and the Town of Matthews discuss the need for a Sardis Road/Weddington Road Connector in conjunction with proposed subdivision development. Because roadway right-of-way dedication is tied to a multi-family rezoning request, Matthews does not request addition of the road to the Thoroughfare Plan.

**Fall 1987**
N.C. 51/Weddington Road Connector is recommended in the South Mecklenburg Interim District Plan. County Engineering begins an analysis of alternative alignments.

**November 4, 1987**
Public meeting to review alternative alignments developed by County Engineering is attended by approximately 300 citizens. At the meeting, Matthews Mayor Shawn Lemon suggests a new connector, known as Alignment F, from NC 51 to South Trade Street.

**July 20, 1988**
The Technical Coordinating Committee (TCC) recommends Alternate E to the Metropolitan Planning Organization (MPO) for addition to the Thoroughfare Plan. The TCC is composed of staff members from the Charlotte Department of Transportation (CDOT), Charlotte-Mecklenburg Planning Commission (CMPC), City Engineering, County Engineering, and the N.C. Department of Transportation. The TCC recognizes Alignment F as a beneficial minor thoroughfare but does not believe that it meets the long-term transportation needs of the area because of Alignment F's failure to connect to Sardis Road.

The MPO considers the TCC's recommendation but adds Alignment F to the Thoroughfare Plan at Matthews' request. The MPO reserves the right to reconsider other alignments in the future as conditions warrant.

**Spring 1990**
CMPC staff develop new population and employment projections for this portion of the county, which are considerably higher than the estimates used in development of the 2005 Transportation Plan.
staff resimulate projected travel in this corridor. New traffic projections show a need for a direct connection between Sardis and Weddington Roads plus the construction of Alignment F.

County Engineering staff begin updating their 1987 alternatives analysis to determine the impacts of adding a Sardis Road/Weddington Road Connector to the Thoroughfare Plan.

**June 27, 1990**

The TCC again recommends Alternate E to the MPO for addition to the Thoroughfare Plan.

The MPO considers the TCC's recommendation but defers action at Matthews' request. MPO members direct the Matthews delegate to return to the August 15 MPO meeting with a recommendation from the town on Alternates D, E, or G (the alignments which provide a direct connection between Sardis and Weddington Roads). A new alternate is introduced at the MPO meeting by Harry Grimm, developer of the Sardis Mill subdivision. MPO members request the TCC to compare the impacts of Mr. Grimm's alignment, named Alternate H, to Alternate E (the recommended alignment).

**July 18, 1990**

The TCC reviews the impacts of Alternate H, H' (a modification of the alignment suggested by Mr. Grimm), and C' (a revision of an earlier alignment developed by County Engineering). The TCC continues to favor Alternate E, but would support Alternate H' if the reverse frontage resulting from this alignment is preferable to the affected residents.

**August 15, 1990**

The MPO postpones action on alignment selection as requested by Matthews. A public meeting is held to discuss the need and possible alignments for the Sardis Road/Weddington Road Connector. The meeting is attended by approximately 500 persons with 40 persons making public comments or asking questions.

The majority of attendees oppose all possible alternates feeling that Alignment F alone is sufficient to handle future traffic volumes. No comments were made concerning any preference for Alternate H'. There is considerable discussion on the connector's impacts on established neighborhoods and why planning for the thoroughfare had not occurred prior to development. County Engineering staff will prepare a summary of the
comments made at the public meeting (including written comments that can be submitted until August 25) for review by MPO members.

**Impacts**

Attachment 2 lists the impacts of each alignment based on recent work by County Engineering.

**Alternate E Recommended**
The TCC, as well as CDOT and CMPC, recommend Alternate E because:

- It provides a major north-south radial in the corridor bounded by Monroe and Providence Roads. A new thoroughfare is needed in this corridor based on roadway spacing standards. This thoroughfare link clearly has regional significance.

- It is needed for future traffic capacity. Using the new population projections from CMPC (an increase from an estimated 9,000 residents in 1989 to a future population of 25,000 persons), CDOT projects volumes on Alternate E of 20,000 vehicles per day (a four-lane volume). If Alignment F only is constructed, future traffic volumes on this minor thoroughfare would be over 30,000 vehicles daily. This volume would require a six-lane roadway. Traffic bottlenecks would result at the two "T" intersections where Alignment F connects to NC 51 and South Trade Street. When both Alternates E and F are constructed, the volume on Alignment F decreases to 17,000 vehicles per day. Both roadways are needed to accommodate projected travel demand.

- Alternate E (which uses existing Courtney Lane) takes fewer homes (those residences in the right-of-way or houses having an affected setback) than alignments D and H.

H' has slightly lower residential impacts, resulting in TCC's possible acceptance of this alignment based on neighborhood opinion of reverse frontage. At this time the neighborhood residents have not expressed an opinion on H'.

As shown by Attachment 2, Alternate G' impacts the fewest homes. This alignment was not chosen by the TCC because 1) it requires
severe topography changes (extensive grading), 2) crosses wetlands (negative impacts on greenways), and 3) crosses additional major tributaries (increasing the number of required culverts or bridges). Construction costs for Alternate G' would be higher than for alignments E or H'.

Attachment No. 5

8. Discuss the Providence Road West/Providence Road/Southern Outer Belt Interchange Land Use Study and make a recommendation to the Board of County Commissioners.

Planning staff will make a presentation at the Council meeting.

Land Use Study

Because of development pressures, the County Commission requested that the Planning staff conduct a 90-day land use study of the Providence Road West/Providence Road/Southern Outer Belt interchange area.

A focus group met three times and was a sounding board to review options and recommendations. A community meeting was held on May 22, 1990. The Planning Commission approved the study on June 19, 1990. The County Commission held a public hearing on September 6, 1990.

The Board of County Commissioners granted a 30-day extension on its decision at the request of the City Council. This request was based on the fact that the final decision will determine the future land use of the area which will probably be annexed into the City limits within the next four years.

Attached is a discussion guide to aid in Council's deliberation of this item. Also attached is the Providence Road/Providence Road West/Southern Outer Belt Interchange Land Use Study, the South Mecklenburg Interim District Plan, and minutes of the September 6, 1990 County Commission meeting.

Clearances

Planning Commission.

Attachment No. 6
9. Consider the District Attorney's request for the City to temporarily hire district attorneys to compensate for vacancies in the District Attorney's office and, if approved, adopt a budget ordinance of $32,400.

District Attorney Vacancies

The District Attorney currently has two vacant positions and is anticipating at least one more by year end. Due to State budget reductions, the District Attorney cannot fill these positions for 120 days after the vacancy occurs.

The District Attorney is requesting (see attached letter) that the City loan city attorneys to temporarily fill these vacancies; or alternatively, temporarily place on the City payroll district attorneys who will then be transferred to the State payroll after the 120 days elapses.

If City Council wishes to assist the District Attorney, staff recommends hiring attorneys, place them in the Police Department, and temporarily assign them to the District Attorney. At the end of the 120-day waiting period, the District Attorney could then have the attorneys transferred to the State payroll. The City Attorney's workload does not allow him to assign any of his attorneys.

Legal Authority

The City Attorney has reviewed this request and believes the City Council can legally assign attorneys from the Police Department to the District Attorney's Office. However, the City Attorney notes that there is little specific statutory authority for municipalities in North Carolina to assist in the funding of the District Attorney's operations.

The suggestion for assigning attorneys while on the City's payroll is based on the legal link between law enforcement and the District Attorney's duties.

Funding

The cost of hiring three district attorneys to cover these vacancies is $32,400. The City would not be reimbursed for these costs. Funding would come from General Fund Contingency - (balance $201,578).

Attachment No. 7
10. **Recommend approval of the final reports for the five proposed annexation areas.**

<table>

<th>Five Areas</th>
<th>Prosperity Church Road/Browne Road, Old Concord Road/I-85, Plott Road, Margaret Wallace/Independence Boulevard, and Beam Road.</th>
</tr>
</thead>
</table>

**Annexation Plan**

On September 10, 1990, City Council adopted a resolution of intent to consider annexing the five areas. Approval of the final reports, called the Annexation Plan, is the next step required by law. The plans must be approved and placed on file with the City Clerk for public inspection at least 30 days prior to the public hearing scheduled for November 8.

The report includes relevant maps, a statement indicating how the area meets annexation criteria, a description of services to be provided, a statement on the method by which the City plans to finance the extension of services and a impact statement on rural fire departments and fire protection. The report may be amended again by City Council following the public hearing, if they so decide.

**Funding**

The preliminary report indicated projected services costs of $8,844,678 and $6,796,527 in the first and second years respectively, offset by projected revenue of $7,691,016 and $9,449,123 in the first and second years of annexation. Capital improvement funds of $17,518,207 are proposed for construction of two fire stations and water and sewer service and reconstruction of streets.

**Clearances**

Representatives of the City Manager's staff, the City Attorney, Budget and Evaluation, and all affected departments have been involved in various stages of the annexation process.
11. Recommend adoption of a resolution for cooperation in developing plans for a regional utility system among Charlotte, Rock Hill, Fort Mill, York County, and Lancaster County.

Regional Utility System

The staffs of Rock Hill, York County, Fort Mill, Lancaster County, and Charlotte-Mecklenburg Utility Department have been working together over the last 15 months developing preliminary plans associated with a regional utility system to serve portions of each of their jurisdictions. On July 11, 1990, the governing boards of each entity met together to discuss various aspects of such a system and directed their respective staffs to continue to work together and to prepare a resolution of support for further development of a regional system.

Rock Hill, Fort Mill, York County and Tega Cay have all adopted resolutions of support; Lancaster County is scheduled to take action on September 24.

Resolution

The attached resolution:

- indicates a need for developing a joint solution to the water and wastewater concerns of the parties involved,
- recognizes the environmental concerns of all parties,
- recognizes the desire to work toward a cooperative regional approach to orderly growth of the region, and
- directs the staffs to continue to work together on this study and to report back to the involved governing boards at the appropriate time for consideration of further action.

Previous Council Action

Council has previously authorized a consultant contract to assist with this project.

Clearances

Utility Director.

Attachment No. 8
12. Recommend adoption of a budget ordinance adding two positions to the Aviation Department's Operations Division.

**Airport Organization**

The 1988 KPMG Aviation Department Organization Study recommended the current Operations Division design and staffing. The Operations Division is responsible for:

- law enforcement and airport security;
- compliance with FAR 107 (federal civil airfield certification); and
- janitorial services.

**Changes**

The following changes have occurred which directly impact the Airport's Operations Division:

- Concourse D with 16 commuter gates and four international gates, along with a new Federal Inspection Services facility, has been added since the 1988 organizational study.
- On March 6, 1990, the FAA amended the Civil Aviation Security Plan which requires major changes in security and access control measures by 1992. These security changes are sensitive, time-consuming, and technically complex.
- Janitorial services have been performed by contract with a national cleaning service and monitored by Airport staff. This contractual arrangement has been unsatisfactory; it was difficult for the Aviation Department to enforce quality performance from the cleaning contractor. The cleaning contract expired in August, 1990 and was not rebid.
ITEM NO. 16

Proposed Action: The Aviation Department requests that two positions be added:

- One position will be responsible for coordinating law enforcement and security, especially focusing on compliance with FAR 107, FAR 139, and the recently amended Civil Aviation Security Plan.

- Another position will supervise janitorial activities including scheduling and quality control. The janitorial function will be brought in-house, using Airport staff to supervise cleaning personnel provided by a temporary service. This is modeled after the parking lot function which has proven to be a successful arrangement.

The Budget and Evaluation Office has reviewed existing and proposed workloads in the security and janitorial areas and recommends the addition of two positions.

Funding There are sufficient funds to cover these additions in the Aviation Operating Budget.

Clearances Aviation Department, Budget and Evaluation Department, and Personnel Department.

BUSINESS

13. Consider (1) a public/private joint venture agreement with McCoy Properties, Inc. for design and construction of a portion of the Wilkinson Boulevard/Billy Graham interchange; (2) recommend adoption of a resolution to amend the FY91-95 Capital Improvement Program; and (3) adopt a budget ordinance for $205,000 as the City’s portion of the project cost.

$605,000

This item was deferred at the September 10, 1990 Council meeting.

Interchange An interchange at Billy Graham Parkway and Wilkinson Boulevard has been a westside issue for some time. The interchange would encourage access between uptown and the Airport via Wilkinson Boulevard. Various plans have recognized this issue and proposed options. Though the project is eligible for State funding and the Metropolitan Planning Organization (MPO) included the
interchange in the proposed Transportation Improvement Program (TIP), NCDOT did not fund the project in last year's final TIP and it is not known what portion of the interchange, if any, will be included in the new State TIP due out in November.

**Private Sector Leveraging Program**

Since the 1987 bond referendum, funds have been scheduled in the Capital Improvement Program for development of the thoroughfare system that is under development pressure. The program was established to leverage road improvements that a developer would not ordinarily fund. This aids the developer in terms of providing greater access to the planned development, while providing thoroughfare system improvements above what would minimally be provided by the developer. Past agreements have included N.C. 51/16 intersection, Hebron Street, Westinghouse Boulevard and Colony Road.

**Joint Venture**

McCoy Properties Inc. (MPI) controls the southwest corner of the proposed Wilkinson/Billy Graham interchange and has proposed that the City work with MPI on a public/private joint venture for construction of this portion of the interchange.

- The project would provide a road opening up MPI's land for development.
- MPI is neither subdividing nor rezoning their land which might otherwise provide the right-of-way dedication to the City.
- The 50/50 guideline for public/private joint ventures will not be satisfied on this project and Council may wish to consider requiring MPI to participate in other project costs to bring the private participation to the 50% level.

**NCDOT**

After being approached by the property owner, NCDOT advised the City that they were still not interested in funding the project.
The proposed interchange presents four policy issues for Council to address:

1. The funding share proposed by the developer does not meet the 50/50 levering required by current Council policy. Exceeding the 50% City share may mean less opportunity for potential future public/private agreements. There are three options:
   a. Approve this agreement as an exception.
   b. Approve agreement contingent on developer share being increased to 50%.
   c. Do not approve agreement.

2. The interchange was included in the local TIP for State consideration but was not funded, and does not appear to be funded this year. Under current City policy, an interchange is not considered an intersection and therefore ineligible for City funding. There are three options:
   a. Approve City funding of interchange as an exception to policy.
   b. Change the policy to allow City funding of State projects to include interchanges and approve City funding of this project.
   c. Do not approve City funding of the interchange.

3. The 2005 Plan ultimately calls for Wilkinson/Billy Graham to have ramps on all four corners with appropriate realignment of the roads currently in the area, including severing the connection between Billy Graham and Old Dowd. The interchange project would accelerate implementation of this objective. However, the proposed project is ranked 43 out of 76 road projects in the 2005 Plan, and the project is not included in the 1997 Road Priority List. There are two options:
   a. Approve this project as an exception to the established road priority list for 1997 and 2005.
   b. Do not approve this project. McCoy could develop the property in conflict with the 2005 plan.
ITEM NO. - 19 -

Westside Development

4. Although the City Council does not have a stated policy for westside development, this interchange would be a positive development for the area. There is not unanimity among City departments, however, on whether this project is the highest priority transportation project for the westside.

The total cost of the project is estimated at $750,000.

Map

A map is attached.

Funding

The Public Private Leveraging Program includes $899,250 in FY91 and $899,250 in FY92. The Colony Road Extension project required an additional $588,000, which left $1.2 million in the program. If this action is approved, the program balance will be $505,500.

Clearances

The McCoy proposal has been reviewed by Engineering, CDOT, Planning and the Airport.

Attachment No. 9

14. Recommend (1) adoption of a resolution authorizing a lease/purchase financing of $7,500,000, and (2) adoption of a budget ordinance appropriating $56,250 to pay issuance costs and $263,000 to pay debt service on prior equipment lease/purchases.

Lease/Purchase

Since 1982 the City has used some type of lease/purchase agreement to fund its annual capital equipment purchases. On June 25, 1990, Council authorized staff to secure financing to fund FY91 equipment requirements (not to exceed $8 million) and appropriated funds to the General and Water & Sewer Capital Equipment Funds.

Council Action

Council is requested to adopt the following:
A. Resolution approving a lease and related documents with NCNB National Bank for $7,500,000 for FY91 capital equipment purchases. The term of the lease is 59 months and a net interest cost (NIC) to the City of 6.57% under a fixed rate financing.

B. Ordinances appropriating $56,250 to the Municipal Debt Service Fund to pay issuance costs and $263,000 to the Water and Sewer Debt Service Fund to pay debt service on prior equipment lease purchases. The source of funds will be $56,250 from the financing proceeds and $263,000 from the Water & Sewer Debt Service Fund Balance.

Funding

Proceeds from lease/purchase financing and Water and Sewer Debt Service Fund balance.

Clearances

Finance.

* * * * * * * *

The City Attorney advises that agenda items no. 15 through 31 may be considered in one motion. However, any member of Council may request that an item be divided and voted on separately.

* * * * * * *
15. Recommend adoption of a resolution to provide the Supplemental Retirement Income Plan (State 401(k) Plan) for all City employees on a voluntary basis.

State 401(k) Plan

The State 401(k) plan is a supplemental retirement program which allows individuals to save money for retirement with pre-tax dollars.

- The Supplemental Retirement Income Plan of North Carolina (State 401(k) Plan) was adopted by the North Carolina General Assembly in 1984.

- This plan is allowable and governed under Section 401(k) of the Internal Revenue Code and is sponsored by the State of North Carolina.

- The current plan administrator and the administrator since the plan's inception is Branch Banking and Trust Company (BB&T).

The City has not previously recommended that the State 401(k) plan be offered to all City employees because firefighters with their own retirement plan would have been excluded. Legislation, however, was passed by the 1990 General Assembly which expands membership eligibility and now make firefighters eligible to participate.

Recommendation

Although the City currently has a voluntary deferred compensation plan, it is recommended that this additional option, the State 401(k) plan, be made available for all City employees on a voluntary basis effective February 1, 1991. BB&T will conduct enrollment meetings and communicate the plan to employees during late November and early December. A summary of the plan provisions of the State 401(k) plan is available in the Council Library.

Funding

There will be no cost involved in implementing this plan for employees.

Clearances

Personnel Department.
BUDGET ORDINANCE

16. Recommend adoption of a budget ordinance appropriating State funds of $403,585 for the replacement of Sardis Road North culvert over Sardis Branch.

Project: Replacement of Sardis Road North culvert.

Estimated Total Cost: $563,155 (includes design fees, right of way acquisition and project administration)

$403,585 Budget Ordinance: Appropriates the remaining portion of the State's 80 percent share of project costs; $46,939 has already been appropriated.

City's Cost: The City's 20 percent share of $112,631 is funded through the Capital Improvement Program's Bridge Replacement Account.

Construction Bid: Low bid recommendation of $405,690 to Crowder Construction Company follows in the Bid section.

Clearances: Engineering Department.

ACCEPT GRANT/BUDGET ORDINANCE

17. Recommend adoption of a resolution accepting Federal Aviation Administration grant of $3,987,468 and adoption of an ordinance appropriating the grant funds and future Airport Revenue Bonds of $1,329,157.

FAA Grant: The FAA grant of $3,987,468 provides Federal funding for 75 percent of the project costs of three high priority airfield improvements which are included in the Airport Master Plan approved by Council in 1987: paving of a new air cargo ramp, constructing a connector taxiway, and constructing a dual parallel taxiway.
This grant also provides funding for installation of security identification and access control system, which meets new FAA security requirements.

Description of the Projects

- The dual parallel taxiway will allow aircraft to bypass other aircraft that are delayed by air traffic control, and also to ease congestion on the air carrier ramp.

- The connector taxiway to the maintenance ramp will add another access into the present cargo area and maintenance ramp.

- A site will be paved for a new cargo ramp which will be just west of Runway 36R near the old terminal. This cargo ramp is identified in the Airport Master Plan for future cargo facilities. Discussions with prospective tenants, i.e., Emery, UPS, Zantop and Airborne, are currently underway.

Related Agenda Items

There are two other items that follow in the agenda relating to these airfield improvements: award of a construction contract in the Bid section, followed by a contract for quality control testing.

Funding

The ordinance appropriates the Federal grant of $3,987,468 and future Airport Revenue Bonds of $1,329,157. Airport funds will be advanced to the project until a future Airport Revenue Bond Issue, (debt-serviced through airline lease agreements) has been concluded.

Clearances

Aviation Director; Federal Aviation Administration and the airlines concur in this action.
BID LIST

18. Recommend adoption of the bid list as shown. The following contract awards are all low bid and within budget estimate unless otherwise noted. Each project or purchase was authorized in the annual budget.

A. AIP-13 Airfield Improvements

Recommendation: The Aviation Director recommends that the low bid from Southern Roadbuilders, Inc. in the amount of $4,517,513.94 be accepted for award of a contract on a unit price basis.

Project Description: This contract provides the following: air cargo ramp paving, connector taxiway between taxiway "E" and maintenance ramp, and parallel taxiway to taxiway "C".

Source of Funding: Airport Capital Improvement Fund - 1990 (AIP-13 Airfield Improvements).

B. Sardis Road North Culvert

Recommendation: By the City Engineer that the low bid of $405,690.71, as submitted by Crowder Construction, be accepted for award on a unit price basis, subject to the approval by the North Carolina Board of Transportation.

Project Description: This project provides for the replacement of a substandard bridge on Sardis Road North at Sardis Branch.

Source of Funding: General Capital Improvement Fund - (Bridge Replacement Program - Powell Bill and State Grant Funding).

C. Mallard Creek Wastewater Treatment Plant, Phase I Improvements

Recommendation: Director, Charlotte-Mecklenburg Utility Department recommends that the low bid by Tri-Mack Mechanical, Inc. of Charlotte, North Carolina in the amount of $58,700.00 be accepted for award of contract on a lump sum basis.
Project Description: This project provides the heating and ventilating work for the Mallard Creek Wastewater Treatment Plant project which will expand the liquid capacity of the treatment plant from three million gallons per day to six million gallons per day.

Source of Funding: Water and Sewer Capital Improvement Fund - (Mallard Creek Wastewater Treatment Plant Addition).

CONTRACT

19. Recommend approval of a contract for quality control testing for 1991 airfield improvements to Eastern Engineering, not to exceed $100,000.

Contract: Quality control testing for the airfield improvement projects previously described in the agenda.

Contractor: Eastern Engineering.

Amount: Not to exceed $100,000.

Selection Process: Proposals were mailed to four firms with previous experience in testing and quality control procedures required by the Federal Aviation Administration. Law Engineering, Eastern Engineering, Froehling & Robertson, Inc. and Westinghouse Environmental and Geotechnical Services, Inc. submitted proposals. The project engineering firm, Espey, Huston & Associates, and the Aviation Department reviewed the proposals and determined that the Eastern Engineering proposal best meets the City's and Federal Aviation Administration's requirements.

Funding FAA grant funding and Airport funds.

Clearances Aviation Director, the Airport Advisory Committee and FAA concur in this recommendation.
20. Recommend approval of an emergency repair contract with Alfa-Laval Separation, Inc.-Sharples Division for rebuilding an existing centrifuge from the McAlpine Creek Wastewater Treatment Plant at a cost not to exceed $125,000.00.

**Repair of Centrifuge**

A centrifuge has been in daily operation at the McAlpine Creek Wastewater Treatment Plant since 1985. It is used to dewater sewage solids for land application disposal. This unit has been the only centrifuge available and it was necessary to operate it with minimum repairs.

A new centrifuge is in place and operational which will now allow for rebuilding the existing unit. It is necessary to return the unit to the manufacturer for repairs and rebuilding; therefore, the formal bid procedure for expenditures exceeding $50,000.00 is not applicable as only one firm is equipped and has the expertise to make the repairs to the unit.

**Council Action**

To comply with State purchasing statutes for expenditures without formal bid procedures, Council action to declare these repairs as a health emergency is necessary. The need for both centrifuges to be in good operating condition is essential to the ultimate disposal of sewage solids as required by the EPA and State permits. If these units are both out of service, it will be necessary to return to the practice of dewatering the solids on sand drying beds. In the past this practice has generated excessive odors which affect the neighborhoods near the treatment plant.

**Funding**

McAlpine Creek Wastewater Treatment Plant Capital Account.

**Clearances**

Utility Director.
21. Recommend approval of a contract for $95,000 with Pash and Company for an automated and integrated system which will accommodate the full range of the City's accounts receivable.

Contract: Acquisition of an automated and integrated accounts receivable system for collection of revenues for the Aviation, Community Development, Utility and Finance Departments.

Contractor: Pash and Company

Amount: $95,000

Reason: Accounts receivable process is fragmented and is handled in part using a PC (personal computer), in part by a commercial lending institution, and in part manually.

Selection Process: Request for Proposals issued to 17 software vendors specializing in mainframe financial/accounts receivable system. MIS and Finance Directors and staffs reviewed proposal; Pash and Company is recommended.

Benefits: The automated and integrated accounts receivable system will permit us to:

1. Respond more quickly to past due accounts;
2. Increase our collection rates; and
3. Save $40,000 per year by cancelling a contract with an outside servicing agency which is currently providing some of these same services for the City.

Funding: Airport Fund ($25,000); Community Development Fund ($40,000); Water and Sewer Fund ($4,000); Finance Department/General Fund ($26,000).

Clearances: Finance, Aviation, Community Development; Utility; MIS.
Recommend approval of a contract for $196,000 with ATC - Cablevision to provide a communications link between the Government Center and Fire Station No. 1 in order to carry data signals for the Fire Department's E911 system.

**Contract**

The contract will provide the materials and labor for the installation of a fiber optic network which will connect the Government Center and Fire Station No. 1 in order to carry data signals for the Fire Department's E911 system.

The fiber optic network will accommodate the interconnection needs for data, radio, voice and video communications between the Government Center, Fire Station No. 1, City Hall, Law Enforcement Center, and County Criminal Courts Building for approximately 10 years.

The system will be utilized immediately to allow critical data for the Fire Department's E911 CAD system to flow to emergency responders at Fire Station No. 1.

ATC - Cablevision will provide all labor and materials to install the fiber optic network and the City will take possession of the network upon its completion.

**Funding**

Construction budget for Fire Station No. 1.

**Clearances**

Fire Department, General Services Department.
23. Recommend approval of an agreement with Post, Buckley, Schuh & Jernigan, Inc. for $182,200.00 to provide construction administration and inspection services for the Sharon Road/Quail Hollow Road Intersection Improvement Project.

**Contract:** Construction administration and inspection services for the Sharon Road/Quail Hollow Road intersection improvement project including surveying and quality control testing.

**Contractor:** Post, Buckley, Schuh & Jernigan, Inc.

**Amount:** $182,200.00

**Project History:**
October, 1988 - Using the Council-approved selection process, Post, Buckley, Schuh & Jernigan, Inc. was chosen to provide engineering design services for the project.

Construction plans are complete; right of way acquisition is expected to be completed by end of September, 1990.

Upon completion of right of way acquisition, the construction contract will be advertised for bids. Award of construction contract is projected to be in November, 1990.

**Recommendation**
The design agreement for this project provided for first consideration of Post, Buckley, Schuh & Jernigan, Inc. to provide construction administration and inspection services if needed. Due to the large number of construction projects already assigned to Engineering Department staff, and based upon the firm's performance during the design phase of the project and their familiarity with the plans and specifications, Post, Buckley, Schuh & Jernigan, Inc. is recommended for this project. Their familiarity with the plans and specifications will be an asset during construction of the project.

**Funding**
TSM Intersection Improvements Capital Account.

**Clearances**
This agreement has been reviewed by the Attorney's office and approved by the Engineering Department.
24. Recommend approval of Amendment No. 3 to the engineering contract for the York Road Renaissance Park - Methane Gas Migration Project with Law Environmental, Inc. for $243,500.00 to evaluate and design improvements to the existing gas control systems.

Methane Gas History

1986 - Mecklenburg County Department of Environmental Protection (MCDEP) cited the City of Charlotte with a violation of the North Carolina Solid Waste Management Rules. Landfill gases were found to be migrating across the property line of the landfill site in the area of York Road and entering into adjacent properties.

December, 1987 - GSF Energy, Inc. was selected to design a methane gas collection system and bring the property into compliance. GSF Energy, Inc. went out of business during construction of the system. Tests performed on the completed system by Law Environmental, Inc. revealed that it did not comply with Mecklenburg Air Emission Standards.

May 26, 1989 - a contract for $20,000.00 was signed with Law Environmental, Inc. to perform additional testing for methane migration. Work performed under this contract revealed that the recently installed gas recovery system was not preventing the gas from migrating across the property line adjacent to York Road. In addition, methane gas was present in the monitoring wells installed along the northeast property line of the landfill.

July 31, 1989 - Amendment No. 1 to Law's contract for $50,000.00 was approved. The amendment called for the review of GSF's design of the existing gas recovery system along York Road and development of a workplan for the remediation of the gas at the northeast property line.

October 10, 1989 - Amendment No. 2 to Law's contract for $153,000.00 was approved. The amendment called for the design and construction administration of improvements to the existing York Road System and a new system along the northeast boundary of the site.
The amendment also provided for weekly monitoring of all existing methane probes for a period of one year as required by MCDEP.

City Council is asked to approve an amendment for engineering services with Law Environmental, Inc. of Charlotte, North Carolina for $243,500.00. Law Environmental is recommended due to their knowledge of the landfill. Amendment No. 3 will provide for the following:

York Road System

- Provide for design and construction administration services for condensate treatment additions to the system required by the Charlotte-Mecklenburg Utility Department.

- Complete the permitting of the system as required by the Mecklenburg County Department of Environmental Protection.

Northeast Boundary System

- Monitoring of the temporary pilot flare system and Administration services required during the installation of the permanent flare system.

- Complete the permitting of the system as required by the Mecklenburg County Department of Environmental Protection.

Overall Site Assessment

- Installation of approximately 30 additional probes in selected areas of the site perimeter where methane was detected under Amendment No. 2.

Weekly Monitoring of Probes

- Continue to furnish weekly monitoring of all methane probes and weekly and monthly status reports.

Funding

Funding for this amendment is available through the York Road Methane Gas Control Project as listed in the CIP. Five hundred thousand dollars ($500,000.00) was budgeted for the current fiscal year. These funds anticipated the contract
amendment with Law Environmental and will also fund additional construction work necessary for the site to come into conformance with State regulations, such as:

- Purchase of a permanent flare unit for the northeastern boundary collection system.
- Additions to the York Road flare system necessary to obtain an operating permit.
- Additions to the York Road flare system necessary to obtain a discharge permit.

One hundred and fifty thousand dollars ($150,000.00) per year has been identified in the CIP for 1991-1995 budget years. This funding is intended for monitoring of the methane probes as required by the Mecklenburg County Department of Environmental Protection and testing required by Charlotte-Mecklenburg Utility Department. An allowance is included for anticipated but undetermined additional construction that may be required by environmental regulations.

Additional amendments for monitoring and maintenance will be needed on a yearly basis in order to comply with CMUD and MCDEP environmental requirements.

**Funding**

Funding for this amendment is available in the York Road Methane Gas Capital Account.

**Clearances**

This amendment has been reviewed and approved by the City Engineering Department and reviewed by the City Attorney.

**CHANGE ORDER**

25. Recommend approval of Change Order No. 1 for $102,517.25 to the contract with Crowder Construction Company for the Park Road Alignment, Phase II Project.

**Contract:**

Construction of Park Road Alignment Phase II from Archdale Drive to Goneway Road.

**Contractor:**

Crowder Construction Company

**Date of Award**

August 28, 1989

**HOUSING CODE ENFORCEMENT**

26. Funds for the following actions are available and liens will be placed against the properties for the costs incurred. Detailed information is attached.

A. Recommend adoption of an ordinance authorizing the use of In Rem Remedy to demolish and remove the dwelling located at 1704 Parson Street. (Belmont)

B. Recommend adoption of an ordinance authorizing the use of In Rem Remedy to demolish and remove the dwelling located at 1120 E. 15th Street, #1, #2, #3, #4. (Belmont)

C. Recommend adoption of an ordinance authorizing the use of In Rem Remedy to demolish and remove the dwelling located at 1416 Kennon Street. (Belmont)

D. Recommend adoption of an ordinance authorizing the use of In Rem Remedy to demolish and remove the dwelling located at 1924 Renner Street. (McCroye Heights)

Attachment No. 10
27. **Recommend adoption of a resolution to repair the storm drainage system at 2300 Rice Planters Road and assess a portion of the cost to the involved property owners in accordance with the Storm Drainage Repair Policy.**

**Location of Drainage Problem:** 2300 and 2236 Rice Planters Road.

**Ranking:** Moderate Priority

**Improvements to be Made:** Enclose a portion of the open channel by extending the 42-inch storm pipe approximately 40' and install a flared end section with a rip rap apron.

**Total Cost of Repairs:** $6,500.00

**City's Cost:** City pays for all improvements in the street right-of-way ($0.00) and one-half of improvements made on private property ($3,250.00).

**Involved Property Owners' Cost:** One-half of improvements made on private property ($3,250.00).

**Hearing Requirements:** No public hearing is required since all involved owners signed the petition.

**Funding:** Storm Drainage Repair Capital Account.

---

28. **Recommend adoption of a Resolution of Intent to abandon a portion of Yonkers Street and set a public hearing for November 13, 1990.**

---

29. **Recommend the adoption of a resolution authorizing the refund of certain taxes in the total amount of $45,715.28 which were assessed through clerical error or illegal levy against 47 tax accounts.**
CONDEMNATION RESOLUTION AMENDMENT

30. **A. Recommend adoption of an amended resolution authorizing condemnation proceedings for the acquisition of certain real property at 7100 Old Providence Road.**

**Council Action**

On May 29, 1990, City Council authorized condemnation proceedings for the acquisition of real property located at 7100 Old Providence Road. This acquisition is needed for the intersection improvements-Providence/Alexander/Rea Roads project. The legal description in the originally approved resolution contained "8,641.92 square feet for fee-simple taking." This was an error and the wording should have been "9,733.51 square feet for fee-simple taking." No additional funds are required for this correction.

**Clearances** Engineering and Legal.

**B. Recommend adoption of an amended resolution authorizing condemnation proceedings for the acquisition of certain real property at 6517 Alexander Road.**

**Council Action**

On March 26, 1990, City Council authorized the condemnation of real property located at 6517 Alexander Road. This acquisition is needed for the intersection improvements-Providence/Alexander/Rea Roads project. The legal description in the originally approved resolution contained "7,478.32 square feet of fee-simple taking." This was an error and the wording should be "9,041.86 square feet for fee-simple taking." The amended resolution also includes the wording "1,563.54 square feet lying within the existing right-of-way for fee-simple taking." This area lies under existing pavement. No additional funds are required for this correction.

**Clearances** Engineering and Legal Department concur in this request.
C. Recommend adoption of an amended resolution authorizing condemnation proceedings for the acquisition of certain real property at 6622 Providence Road.

Council Action
On July 23, 1990, City Council authorized condemnation proceedings for the acquisition of real property located at 6622 Providence Road. This acquisition is needed for Providence/Alexander/Rea Roads intersection improvements. The legal description in the originally approved resolution contained "650 square feet for temporary construction easement." This was an error and the wording should be "2,797 square feet for temporary construction easement." The amended resolution also includes the wording "7,532.48 square feet lying within existing right-of-way for fee-simple taking". This area lies under existing pavement. No additional funds are required for this correction.

Clearances
Engineering and Legal Department concur in this request.

PROPERTY TRANSACTIONS

31. Recommend approval of the following property transactions and adoption of the condemnation resolutions.

1. Project: Add-A-Lane: Carmel Road North of Knapdale Lane
Owner(s): W. W. Hagood, Jr.-Trustee-Adele D. Hagood-Hastings and Sally Hagood James-Co Trustees
Property Address: 2525 Carmel Road
Property to be acquired: 4,917 sq.ft. (.113 ac.)
plus Temporary construction easement 4,021 sq.ft. (.092 ac.)
Improvements: 25 hardwood trees in excess of 14 inches in diameter plus shrubs
Price: $11,100.00
Remarks: To acquire property from edge of pavement for Add-A-Lane project. Zoned R-15 used as residential property.
ITEM NO. - 37 -

2. Project: Add-A-Lane Mill Pond Road to Knapdale Road
   Owner(s): Thomas Payton Moore, III
   Property Address: 2915 Carmel Road
   Property to be acquired: 6,461 sq. ft. (.148 ac.) plus temporary construction easement 820 sq.ft. (.019 ac.)
   Improvements: Double stone entrance (30 feet) plus various trees and shrubs
   Price: $13,590.00
   Remarks: To acquire property from edge of pavement for Add-A-Lane project. Zoned R-15, used as residential property.

3. Project: Shamrock Drive Widening
   Owner(s): Joseph Adu and wife Vasty A. Newton
   Property Address: 1431 Eastway Drive
   Property to be acquired: 713 sq.ft. (0.0163 ac.) fee plus temporary construction easement 989 sq.ft. (0.0227 ac.)
   Improvements: Concrete parking area, sign, commercial parking lot lights
   Price: $13,500
   Remarks: Zoned B-2. Used as eight bay car wash. To acquire to widen road.

4. Project: Airport Master Plan Land Acquisition - Wallace Neel Road - Residential Purchase
   Owner(s): Tony M. Coffey & Merle Simpson Coffey, husband and wife.
   Property Address: 3833 Wallace Neel Road, Charlotte, NC
   Property to be acquired: .952 ac. (41,469 sq. ft.)
   Improvements: 3 bedrooms, 1008 sq. ft. ranch home
   Price: $65,100.00

   Owner(s): Richard & Faye Werden, husband & wife
   Property Address: 4500 Denver Avenue
   Property to be acquired: .803 ac. (34,980 sq. ft.)
   Improvements: 3 bedrooms, 1000 sq. ft. ranch home
   Price: $53,000.00
6. **Project:** Airport Master Plan Acquisition - Wallace Neel Road - Residential Purchase  
**Owner(s):** William R. Alvey & Janet A. Alvey  
**Property Address:** 3820 Wallace Neel Rd., Charlotte, NC  
**Improvements:** 3 bedrooms, 2,158 sq. ft. ranch home  
**Property to be acquired:** 1.377 ac. (59,962 sq. ft.)  
**Price:** $88,000.00  
Acquisition eligible for Federal Aviation Administration reimbursement.

**CONDEMNATIONS**

1. **Project:** Swan Run Branch Replacement Phase II Sanitary Sewer  
**Owner(s):** Robert M. Stein and wife Lenora S. Stein and any other parties of interest  
**Property address:** 6125 Fair Valley Drive  
**Property to be condemned:** 1,616.403 sq.ft. (0.037 ac.) sanitary sewer right-of-way  
**Improvements:** Undeveloped backyard - trees  
**Price:** $250.00  
**Reason for condemnation:** The property owners dispute the need for the sanitary sewer replacement and will not consider any reasonable offer. Zoned R-15, residential use.

2. **Project:** Shamrock Drive Widening  
**Owner(s):** Timothy A. Tucker and wife, Judy Lane Clontz Tucker and any other parties of interest  
**Property address:** 1501 Eastway Drive  
**Property to be condemned:** 1,209 sq.ft. (0.278 ac.) fee plus 2,133 sq.ft. (0.049 ac.) construction easement  
**Improvements:** one sign, five parking lights, paved parking area  
**Price:** $21,750.00  
**Reason for condemnation:** Charlotte Department of Transportation shortened median to allow access to one of the driveways. However, owner wants to widen the driveway at this location and keep all three driveways which Charlotte Department of Transportation denied. Owner is asking $50,000.00 damages. Zoned B-2; used as service station.
32. A. Nominations for Appointment to Boards, Commissions and Committees

Council members will make their nominations after which they will hand their nomination forms to the City Clerk. In the event there is only one person nominated for any one position, Council may make that appointment at this meeting.

1. *Advisory Energy Commission* - Two appointments beginning December 31, 1990. The incumbents, John C. McKenzie (Electric Utility category) and John A. Patten (Engineering/Technical category), are eligible for reappointment. Terms are for two years.

   Attachment No. 11

2. *Citizens' Oversight Committee for Cable TV* - Two appointments for unexpired terms ending March 31, 1991, and March 31, 1992. Thomas Klipp and Jane Roper have resigned, respectively. Normal terms are for two years.

   Attachment No. 12

3. *Housing Authority* - One appointment beginning December 17, 1990. The incumbent, Rickey V. Hall is eligible for reappointment. Terms are for five years.

   Attachment No. 13

4. *Safety Action Committee* - Three appointments beginning December 31, 1990. One incumbent, Doris Asbury, is eligible for reappointment. Gary S. Hemrick (the Bar Association member) and Rodney A. Smith are not. Terms are for two years.

   Attachment No. 14

5. *Tree Advisory Commission* - Three appointments beginning December 13, 1990. All three incumbents, Patricia Hayden, Donna Parker, and Joe M. Spencer, Jr., are eligible for reappointment. Terms are for three years.

   Attachment No. 15
6. Charlotte Uptown Development Corporation - Two appointments, one beginning December 31, 1990, which must be a Council member, and the term is for one year. This position is now filled by Ella Scarborough. The other appointment is for an unexpired term ending August 31, 1991, replacing Harvey Gantt who has resigned. Normal terms are for three years.

Attachment No. 16

7. Zone Wrecker Review Board - One appointment beginning December 31, 1990. The incumbent, Melvin Hill, is eligible for reappointment. Terms are for three years.

Attachment No. 17

Attachment No. 18
SCHEDULE OF MEETINGS
September 24, 1990 - October 1, 1990

Wednesday, September 26, 1990
Council/Manager Dinner
CMGC - Meeting Chamber Conference
Room - 5:00 p.m.

City Council/Public Hearing on
Revised Zoning Ordinance
CMGC, Meeting Chamber - 6:00 p.m.

Monday, October 1, 1990
City Council Workshop
CMGC, Room 267 - 4:00 p.m.
ABANDON A PORTION OF ALLEYWAY
SARDIS ROAD/WEDDINGTON ROAD CONNECTOR
ATTACHMENTS

Attached is the following information related to Council's re-consideration of alternative alignments for the Sardis Road/ Weddington Road Connector (included on the September 24 agenda):

- Attachment 1 is a map of the various alternates.

- A revised Attachment 2 which indicates undeveloped lots in the right-of-way for each alternate. The revised attachment also includes a revision of Alternate E (E') that has been suggested to prevent severance of part of Sardis Plantation from the rest of the subdivision. The alternate does so at the expense of the Glendevon subdivision.

- Attachment 3 summarizes the responses to questions asked by the Town of Matthews on July 25 as prepared by the County Engineering Department.

- Attachment 4 is summary of the public comments received by County Engineering and the Charlotte-Mecklenburg Planning Commission submitted in writing following the August 15 meeting.

- Attachment 5 is a summary of the traffic modeling process conducted by the Charlotte Department of Transportation. The summary provides traffic volume projections for various scenarios with and without the Weddington Road/Outer Loop interchange and with and without Alignment F.

- Attachment 6 is a summary of oral comments made at the August 15 public meeting prepared by County Engineering.
Sardis Road - Weddington Road Connector Impacts (as of 8/31/90)

Notes: 1. "Residences" include those for which building permits have been issued even though the structure is not completed.

2. Construction has begun on all lots in right-of-way for which building permits have been issued.
MECKLENBURG COUNTY
Engineering Department

August 31, 1990

Ms. Kathy Abernethy
Mayor Pro-Tem, Town of Matthews
924 Courtney Lane
Matthews, NC 28105

Subject: Sardis-Weddington Connector

Dear Ms. Abernethy:

This letter and attachments are in response to the questions you have raised about the Sardis-Weddington Connector. When you have had the opportunity to review these responses, if you have follow-up questions, please contact me.

Q. Please provide estimated traffic counts for the Sardis-Weddington Connector and the basis for their derivation.

A. Attachment A is a summary from the Charlotte Department of Transportation which describes the traffic modeling process and includes traffic volume projections under four scenarios. The growth projections for population and employment were provided by the Charlotte/Mecklenburg Planning Commission staff. Two comments need to be made about these growth projections. First, the employment projections for the four zones around the intersection of Weddington and McKee show a total of 205 employees. If the shopping center and office park for the northwest corner of the intersection are fully developed by 2010, these figures are probably low. Second, I have in several forums described the volumes as based on a population buildout density of three (3) households per acre. You will note in Table 1 that the population estimates result in a density of one (1) household per acre.

Q. Provide current traffic volumes and theoretical limit for volumes for Sardis Road as it currently exists (2 lanes) and as proposed (4 lanes).

A. Traffic counts taken in 1990 on Sardis Road indicate that the average 24-hour annual weekday traffic (average during the 5 day work week) is approximately 20,800 just east of Rama Road and 9,600 near Morning Dale Road. As a very rough rule of thumb, assuming relatively heavy congestion, the "capacity" of
Ms. Kathy Abernethy  
August 31, 1990  
Page 2

a well designed two-lane road is 12,000 and a four-lane road 30,000 vehicles per day. Obviously, "capacity" is a relative term; we are carrying 27,000 vehicles on a two-lane Park Road at South Mecklenburg High School and 45,000 on a four-lane Fairview Road between Park Road and Park South Drive (old Park Road), but no one suggests this is desirable!

Q. Provide traffic counts, theoretical limit, and level of service for the intersections of Sardis Road/Sardis Road North, Sardis Road/Randolph Road, Sardis Road/Providence Road, and Randolph Road/Sharon-Amity Road.

A. The most current intersection counts and calculations of levels of service are shown in Attachment 2. It should be noted that Sardis and Sardis North were counted and analyzed before the installation of the traffic signal and the intersection improvements. Its operation is considerably improved. The intersection of Sardis, Fairview, and Providence is scheduled to go under construction in February 1991 to provide dual left-turn lanes on all approaches and a west bound Providence Road right-turn lane. The intersection of Randolph and Sharon-Amity is scheduled for construction beginning March 1991 to add right-turn lanes and lengthen the left-turn lanes on both Sharon-Amity approaches and add a right-turn lane on the westbound Randolph approach. Both projects should significantly improve these intersections. We are not able to project theoretical limits for the intersections.

Q. Provide the names of all roads built in Charlotte/Mecklenburg in the last ten years which are new roads through neighborhoods, the length of the roads, their classification, and number of houses taken and within 200 feet of the right-of-way.

A. The list below includes some of the roads constructed through or adjacent to neighborhoods during the last fifteen years, their length, and their classification. I do not have access to information on the number of homes taken or in proximity to these projects.
Q. Provide the costs of the top two recommendations, including the cost of the Weddington/Outer Belt Interchange and the widening of Sardis Road from N.C. 51 to Sardis Road North.

A. Using a very rough per mile widening cost figure, widening Sardis Road between Sardis Road North and N.C. 51 would cost approximately $5.9 million in 1989 dollars.

Based on other interchange construction projects, the Outer Belt/Weddington Interchange might cost between $5 and $10 million dollars, depending on its design and right-of-way costs.

We are still working on the detailed estimates for E and H.

Q. What will be the posted speed limit on Sardis Road between Rama Road and Sardis Road North once it has been widened?

A. The project is designed to allow (approved by Charlotte City Council) 45 miles per hour.

I have also attached an updated impact sheet which includes new categories of information as requested by the Charlotte City Council and to show an additional home in the right-of-way of H which was pointed out at the public meeting.

Finally, the sheet shows the impacts of modifying the E alignment as it leaves Courtney Lane. The modification suggested prior to and at the public meeting extends E south to contact and use the H alignment. This modification eliminates the problem of severing part of Sardis Plantation from the main part of the subdivision but does so at the expense of hitting the west end of Glendevon. Technical staff believes the modification is worthwhile.

I apologize for the time it has taken to answer your questions. Additional questions have been submitted, and when they are
Ms. Kathy Abernethy  
August 31, 1990  

answered, I will furnish you copies of the responses. Also, verbal 
and written comments from the public meeting are being summarized 
and will be sent to you when that is complete.

Sincerely, 

William S. Coxe,  
Assistant Division Manager  
Transportation and Technical Services

SARDIS/WEDDINGTON CONNECTOR
WRITTEN COMMENTS

The following are the written comments received to date regarding the proposed Sardis/Weddington Connector.

Geoff & Ellen Fugere: 733 Fredericksburg
- No route should be chosen.
- Route H' affects the fewest homes, 17 less than route E.
- "I'll drive the extra miles to get to my destination."

Jay P. Brush: 217 Foxfield Lane
- The real problem is at Sardis/Randolph; why add even more traffic to that intersection.
- Route F acts to split traffic up along both Sardis Road and Monroe Road.
- In the afternoon rush hour, traffic is bad at Randolph/Sardis and tapers off before Highway 51.

Rich Buchanan: 905 Mangionne Drive
- Selected a home in Mallory Manor East because of its safety and distance from thoroughfares.
- The decision on the alignment of this road should have been made before in 1986.
- A group of officials elected by the people should not build a road those people don't want.
- He expects full financial compensation if a route other than F is chosen.
- Why not extend F north to Monroe Road and south to Weddington Road, it is not perfect, but its far better than these other potential routes.

Candace & William Frey: 100 Landsdowne Road
- Traffic is horrible at Randolph Road/Sardis Road dogleg. Why add more traffic to it.
- Even with the widening of Sardis Road, traffic will worsen with this proposed extension.
- This road should have been planned for before homes were built (both along Highway 51 and St. Michaels at Randolph Road).
- Mass transit would be far more reasonable and would impact fewer people and cause less environmental damage.
- Charlotte should not call for a weighted vote on a road decision almost entirely in Matthews' sphere of influence.

Ruth King: 117 Courtney Lane
- Why do we need this road when improvements are already being made to Providence Road, Monroe Road and Independence Boulevard?
- A primary goal of the Planning Retreat was a light rail transit system; why do we need this road?
R. Stephen Mullis, Sr. 824 Courtney Lane
- This road is for those in southeast Mecklenburg and NW Union County who want to go downtown. There is no benefit for the affected property owners.
- There is no funding and no complete cost analysis has been done.
- The weighted vote is dictatorial and unfair. It shouldn't be used.
- Political axes are being ground This decision shouldn't be made by those with a grudge.

C.J. Coleman 2121 Coles Circle
- He does not want the Sardis/Weddington Connector ever.
- The population growth of the 70's and 80's won't continue.
- Planning should be done for a Sardis - Tilley Morris - Outer Belt connector.

Chris Griffin 717 Fredericksburg Road
- Mr. Griffin suggested a route which uses alignment E along Courtney Lane and crosses over to alignment H. He is concerned that crossovers are not considered new alignments but are considered a design detail.
- He also requested access to land use considerations and quality of life information being given to the MPO.

M.P.K. O'Connell 1245 Holleybank Drive
- Isn't it appropriate for an MPO member who may cast 6 votes to attend this public hearing?

R. James MacLaren 1135 Holleybank Drive
- Why hasn't the extension of Route F to Monroe Road been studied further.
- A future population density of one DU/acre is overstated.
- Will homes, along E or H lose their driveway access (every 100 feet) if their route is chosen.
- Why hasn't an extension of Alignment A north of Highway 51 been discussed.

John Reed 348 Lakenheath Road
- What will be done for those residents who are still on wells and septic tanks when construction begins? Who will pay for the solution?

Jenette Hanson 7708 Sardis Road
- Will the property at Sardis Road/Old Bell Road again be used for a construction easement? A new easement should be found which creates less noise that could be heard by local residents.

Andrew Beary 113 Linville Drive
- The future analysis of growth and traffic patterns appear correct. If this road is not constructed, the quality of life will decline in this area.
- Using the F route and the H' route is the best option.
Sara Seasholtz: 901 Rhyll Court
- Why is straightening out the Randolph/Sardis dogleg not worth the pain but building the Sardis/Weddington Connector is?
- Appreciation of housing cost into the future needs to be considered.
- Building this connector will only worsen traffic at Sardis/Randolph and destroy Matthews Neighborhoods.

Mike Pizarro: 2400 Cross Country Road
- How will the need for turn lanes affect Providence Plantation homes?
- Are there any commercial centers proposed at Sardis Road and N.C. 51?
- When will construction begin.

William Burch: 2709 Briar Ridge Road
- Who wants this road?
- There needs to be better notification of planned roads.

John Hogewood: 400 Mattridge Drive
- How will I be compensated for lost property value once this road is constructed.
- The traffic problem is from Highway 51 north up Sardis Road. All routes except an extension of F to Monroe Road will only worsen the situation.

Frank Headley: 317 Quill Lane
- All the routes have flaws.
- Compensation should be immediate for all of those affected.
- Use the route which affects the fewest homes.
- Mandate through law that all property owners be notified of thoroughfare proposals.

Anne & David Irvine: 424 Walnut Point Drive
- The City of Charlotte should not have overwhelming power to vote on a road in Matthews.
- Mass transit should be improved instead of more roads constructed.
- The F Route and a connector with Providence Road and Independence Boulevard is sufficient.
- It is poor planning when a neighborhood is built and then a road is constructed through it.

Pete Austin: 204 Courtney Lane
- Address the issue as you heard it discussed; don't build the connector.

Casey Hermans: 740 Weddington Road
- He does not want the road going through his property. If it does, please allow him to have some say as to how and where it will go.

Mrs. John W. Cain, Jr.: 441 Lakenheath Lane
- Is it true that even if an alignment is chosen by the MPO, the state can change it later?
Wayne and Sue Plybon: 421 Lakenheath Lane
- Why can't Union County commuters be slightly inconvenienced and travel to Providence or Monroe Roads?
- In 15 years, a lot of commercial development will be built near the Outer Belt and less travel will be needed downtown.
- Other cities with beltways have "spokes" more than 4 miles apart. Why must Charlotte's be 1½ to 2 miles apart?
- Planning for spokes to the Northern Loop should begin now before it's too late
- We oppose all alignments.

Bill T. Vlachos: 125 Sardis Plantation Drive
- Does any of your modeling consider the widening of Providence Road and Monroe Road.

Cecil and Jeannie Hall: 201 Port Royal Drive
- Why build a road which will further overload the Sardis/Randolph intersection.
- This road will destroy our homes and interrupt our family lives.

Robert A. Smith: 445 Courtney Lane
- Once the P Route and the Matthews Bypass are completed, there is only one reason for building this connector - political.

David Stoessell: 516 Eastville Ct.
- This road actually benefits Union County commuters; not Matthews Residents.
- Matthews residents have four alternatives to downtown Charlotte: Providence, Sardis, Monroe, and Independence.

Kathryn Schroder: 120 Lakenheath Lane
- Alignment H makes traffic islands out of 43 homes on Lakenheath and Courtney Lanes.
- This connector would ruin these neighborhoods and has already put residents through hell.
- Don't ignore the human side of this issue.
- If a route must be chosen, there is an area slightly west of G that would impact fewer homes.

Robert & Linda Whitehurst: 1217 Holleybank Drive
- The time for planning roads is before neighborhoods are built, not after.
- If a road must be put on the map to prevent development, why not put it through undeveloped land.

Ronald & Kathryn Schroeder: 120 Lakenheath Lane
- Compensation for homeowners won't come for 15 to 20 years.
- New roads should not be placed in people's back yards.
- The computer model shows that of the 38,000 vehicles/day on the P route and the connector, only 2,000 cars would travel up Sardis Road.
- The impact sheets misrepresent the number of homes taken and impacted.
• H' does not go through open fields, it goes through people’s back yard.

Texie Shelby: 200 Lakenheath Lane
• Listen to those who are most affected by the connector.
• The facts concerning H' have been misrepresented.

Marilyn Thompson: 319 Lakenheath Lane
• H' runs through back yards; not empty lots.
• Matthews does not want this road.
• It’s not fair for Charlotte to have 6 votes and Matthews to have only one.
• Why is this connector so important when NCDOT has no interest in constructing an interchange with the Outer Belt?

R.J. Rogers, Jr.: 532 Courtney Lane
• Decisions as to where thoroughfares should go need to be made before an area has been developed.

David Stoessel: 516 Eastville Ct.
• This road benefits Union County Commuters. Matthews residents have several commuting options.

Jeffrey Clayton: 226 Port Royal Drive
• Connector would add more traffic to Randolph/Sardis dogleg.
• He and his wife built a single story home for their handicapped daughter. These routes may destroy that house. (E, H, H')
• The mistake was made three years ago before Sardis Plantation was built.
• The F Route takes no homes.
• The connector will only load even more traffic on Sardis/Randolph dogleg.
• All other routes may cost ten times what Route F cost.
• Why is this "worth the pain" while fixing Sardis/Randolph isn’t?
• Two private schools on Sardis Road have no buses and create huge congestion.
• Monroe Road is the preferred route of choice in the Matthews area.
• The computer model shows the F route being more heavily used than any other route.
• The computer model does not take such factors as pollution, gas costs, mass transit, and other changes in transportation trends into effect.
• Affected property owners will have a cloud over their heads for up to 20 years.
• The path of this road may be changed at the time of the E.I.S.
• Turn lanes needed may take even more homes.
• Cost do not include the inflation rate and rising cost of housing.
• The TCC recommends alignment E, which takes the most homes.
• The H' route (the TCC's alternate) will go through residents back yards impacting children’s play habits.
• Only the TCC wants this road.
Kathy Stoessel: 516 Eastville Ct.
- This road is an expensive and destructive way to get Union County commuters into uptown Charlotte.
- Why not widen existing roads like Providence, Monroe, and Independence for commuters?

Peter De Gorter: Ilsemont Place
- Why disrupt so many people when the F Route disrupts so few?
- The citizens of Matthews feel they have enough access to Charlotte with Providence, Monroe, and Independence.

John De Gorter: 3215 Plantation Drive
- The comments made by Matthews residents appear to have fallen on deaf ears.
- Route F disturbs the fewest homes.
- Consider the excessive speed of traffic through this residential area.
- The politicians rule the lives of the people.

Mr. & Mrs. Marvin Chaney, Jr.: 9512 Hunting Ct.
- Although not effected by any routes, they are opposed to all of them.
- Don't let poor planning ruin the lives of thousands.
- They will not trade easier commutes into downtown for a depreciation in property values.
- There are no plans to widen Sardis Road between Sardis Road North and N.C. 51. How can a four-lane connector feed into a two-lane Sardis Road?
- With the widening of Monroe and Providence Roads, and the conversion of Independence Boulevard to a freeway, this connection should not be needed.

Andrew Clark: 730 Fredericksburg Rd.
- Why did the MPO wait 5-7 years after originally discussing option before determining the best route?
- With concerns about the environment and energy conservation, our future transportation needs should center around mass transit.
Sardis-Weddington Connector

Summary of the traffic simulation process.

In June, 1990, the Transportation Coordinating Committee (TCC) asked the Charlotte Department of Transportation to provide computer simulation of future year traffic on four alternatives involving a north-south arterial connecting Sardis Road near N.C. 51 with Weddington Road just north of the proposed I-485 outer loop (see figure 1). This analysis is to assist staff and elected officials to determine if an arterial should be added to the Thoroughfare Plan. This is a technical process examining only traffic implications of changes in land use and the roadway network. Neighborhood impact is not addressed with the simulation.

Roadway alignments and alternatives

The analysis involves: route "F" - a connector between N.C. 51 and Weddington road that is now on the Thoroughfare Plan, an interchange between I-485 and Weddington Road, and the proposed Sardis-Weddington connector. Rather than simulating each of the varied routes proposed for the Sardis-Weddington connector, this analysis uses a basic four-lane road between Weddington and Sardis Road at its intersection with N.C. 51. Because the simulation model does not use terrain or location of individual residences, minor changes in the alignment will not change the volume projections. All four alternatives include route "F" and I-485. The four alternatives are:
1. Including Sardis Weddington Connector and Interchange between I-485 and Weddington Road

2. Including Sardis Weddington Connector
   Excluding Interchange between I-485 and Weddington Road

3. Excluding Sardis Weddington Connector
   Including Interchange between I-485 and Weddington Road

4. Excluding Sardis Weddington Connector and Interchange between I-485 and Weddington Road

Population and Employment Projections

The traffic simulation for the area uses a modified version of the socio-economic data for the year 2010. 2010 population, households and employment are used in all areas except that enclosed by Monroe Road, N.C.51, N.C.16, and the County line (see figure 2). Population in these zones is projected to "build out" , as shown in table 1. Future employment is fairly light in the area. The majority is concentrated at the intersections of N.C. 51 / N.C. 16 (zone 319) and N.C. 16 and I-485 (zone 326).

Employment for 2010 is shown in table 1.

Sources:
- 1989 - Charlotte Mecklenburg Planning Commission - estimates from property tax records.
- Buildout - CMPC projections
- 2010 Employment - CMPC and CDOT.
In simulation, all trips begin and end at the center of zones. This point, known as the zone centroid, is connected to the network through a link that substitutes for the neighborhood street network. To improve assignments in small areas, zones are sub-divided to provide more points for trips to enter and leave the network. The nine CMPC zones are divided into twenty-six smaller zones for this assignment. These are shown in figure 3. These twenty-six zones are connected to the network at points where subdivision streets now connect to thoroughfares or at points where future subdivision streets are likely to connect to thoroughfares. These connectors are shown in figure 4.

Population, households and land area of the twenty-six zones are provided in table 2. The column labeled PCT is the percentage of population and households of the CMPC zone that is contained in the CDOT sub-zone.

Traffic Simulation Model

The simulation ran on the TRANPLAN simulation package using trip productions and attractions generated by the mainframe program GENCEN. This is the standard CDOT procedure for small area simulation. TRANPLAN is calibrated to 1985 actual volumes and to the mainframe runs for 2005 and 2010 using the TIS/TAP simulation model.

For the Sardis-Weddington runs, the CDOT 816 zones are aggregated to the 440 CMPC zones except in the Sardis-Weddington area where the zones are sub-divided. By aggregating away from the area of interest, the computing time is reduced from five hours to less than one hour per run.

Trip Generation

Daily trips generated in the area of interest are shown in table 3. The columns include home-based work productions and attractions and total productions and attractions. Totals include trip purposes: home-based work, home-based nonwork, non-home-based, truck-and-taxi, and other.

Productions and attractions are the common trip form used in traffic simulation. Productions are similar to trip origins and attractions with trip destinations. The one exception is trips to or from home. If home is at either end of the trip - the home end is always the production. In general, the home-based work productions can be divided in half to determine the number of trips going to work in the morning and the number returning in the evening.

</table>
Trips from external stations or cordons at the county line are estimated from counts taken in 1985. A growth rate of two percent per year is applied to the counts. Cordon volumes in the area are shown in table 5. These estimates are lower than those expected by N.C. DOT by the year 2010.

Table 5. Cordon estimates - 2010.

Assignment

The last step in the simulation process is the assignment. Trips are assigned over the network using a capacity restrained assignment. In capacity-restraint, a portion of trips are assigned from each zone over the shortest path between origin and destination. Shortest path is an average of travel time and distance. After the first set is assigned, the shortest paths are re-evaluated with the traffic already assigned. This process is repeated three times using TRANPLAN. Figures 5-8 contain results of the assignments. The volumes shown on these plots should be rounded to the nearest 1,000.
Figure

8. Excluding Sardis Weddington Connector and Interchange between I-485 and Weddington Road

Systems Planning
Charlotte Department of Transportation

August 3, 1990
ADDENDUM

At the request of the citizens of Sardis Plantation, two additional alignments were analyzed. The first option adds an extension north from the end of the F alignment to Monroe Road. No Sardis-Weddington connector is included in this scenario.

Figure A-1 shows the total volumes which are forecast for this configuration.

The second option includes a Sardis-Weddington connector, but removes the F alignment entirely. The volumes forecast for this configuration are shown in Figure A-2.
TOTAL VOLUMES - 2010 NETWORK WITH F ALIGNMENT EXTENDED TO THE NORTH AND INTERCHANGE AT SOUTHERN OUTER BELT BUT WITHOUT A SARDIS-WEDDINGTON CONNECTOR

FIG A-1
SARDIS/WEDDINGTON CONNECTOR
PUBLIC COMMENTS

The following are comments regarding major issues expressed at the Sardis/Weddington Connector public meeting held on August 15, 1990, at Providence High School.

**Multi-Neighborhood Action Committee (MNAC)**

Speakers were:

Linda Harwood: 212 Foxfield Lane
Chip Abernathy: 924 Courtney Lane
Ron Schröder: 120 Lakenheath Lane
Larry Davis: 318 Port Royal Drive
Debbie Rieger: 1130 Holleybank Drive
Ed Knoll: 1247 Holleybank Drive
Don Harrington: 637 Stanhope Lane

* Routes affect 700 homes and 2000 taxpayers.
* Demand Matthews representation on TCC.
* US74 is an ample route into downtown.
* Is this proposed connector shown in the South Mecklenburg Interim Plan?
* Why haven't traffic counts been given to the public?
* Why isn't there more concern regarding added traffic at the Rama Rd/Sardis Rd intersection?
* Has an environmental impact study been performed? Why not?
* Have right-of-way or construction costs been calculated?
* The human factor should be strongly considered.
* What happens if Matthews does not approve the Mecklenburg County Thoroughfare Plan? Will state funding be cut off?
* What happens if Matthews withdraws from the MPO?
* Will federal money be spent on this road?
* Has the Weddington Road/Charlotte Outer Belt interchange been approved by the state?
* Mass transit needs to be looked at as a better solution.
* Charlotte can tolerate T-intersections.

**Pete Austin: 204 Courtney Lane**

* Feels strongly that one person deserves one vote and no more.

**Kurt Rawald: 528 Lakenheath Lane**

* Why are there so many new routes?

**Bryan Moore: 601 Walnut Place**

*(technical committee from Sardis Plantation)*

* Connect F-route to Monroe Road with bridge over NC51; Monroe is the road of choice.*
Jeff Clayton: 226 Port Royal Drive
* Proof of necessity for connector has not been presented.
* What is the motivation to introduce connector road now instead of resolving it before?

Fran Strouse: 500 Courtney Lane (realtor)
* Property values will go down.
* Matthews bypass will be able to handle traffic.

C.J. Coleman (worked for Miam/Made Co. Planning Commission)
* Look at a connection to Tilley-Morris Rd.

Sandy Condre: Greenbriar homeowners
* What is the definition of a greenway?
* Will Weddington Road be widened?
* Will land along the connector change to commercial?
* How is real estate valued when acquired by the state?

Dan White: 1239 Holleybank Drive (professor at UNC-Charlotte)
* Consider oil costs and reduction of travel.
* Stress mass transit.
* Consider human factor.

Sara Seasholtz: 901 Rhvll Court
* Inflation will cause home values to increase therefore increasing right-of-way costs.

Mike Rubbo: 1241 Holleybank Drive
* The only people that would use the connector would be commuters from Union County.
* Who would buy the right-of-way?

Arthur Lynn: 2625 Briar Ridge Drive
* Situation further shows Charlotte's inadequacies towards thoroughfares.
* It is not fair to pursue the road when the chance to build it economically was passed earlier.
* What happens next?

Ken Bodwell: 203 Matttridge Road
* The time for this road was 1987.
* Swords are put over homeowners' heads by drawing lines on maps.
* The F-route will be enough.

Tom Guthrie: 2501 Chisholm Court
* How does the word get out on proposed roads?

Brenda Abernathy: 540 Lakenheath Lane
* Will additional lanes, land, and/or homes be needed @ NC 51 due to intersection design?
Gwen Bingham: 101 Savannah Court
* Will the plans for the road be changed again?

Paul Trotter: P.O. Box 35269
* Were there policies in existence prior to 1987 which prevented technical staff from proposing additional thoroughfares in this area?

Chris Griffin: 717 Fredericksburg Road
* Can technical staff provide more information regarding traffic volumes?
* Have other impacts such as noise, air quality, etc. been discussed.

Brad Pearson: 701 Fredericksburg Road
* Proposed a new route through Arthur Goodman Park.

Teresa (no last name or address)
* Matthews does not need any more shopping centers or any new roads.

Frank Green: Cross and Crown Lutheran Church
   (1024 Pineville-Matthews Road)
* Do any routes hit church property?
* What type of buffers will be put in place?

Pam DeGeorge: 222 Demaree Lane
* The farm beside Hampton Green was described as the "essence of Matthews" and would never be disturbed.
* Opposed to the F-route.

Earl Brinson: 1143 Holleybank Drive
* Who would purchase homes in alignment prior to construction?
* It seems that the process for right-of-way protection is flawed.

Linda Harwood: 212 Foxfield Lane MNAC
* If the planning body in Mecklenburg County is so good, then why does the thoroughfare plan look like a plate of spaghetti?
Decision Points
1. Vision for interchange
   * plan
   * options

2. Plan Subarea - maximum development potential
   1. Providence Rd/Providence Rd West - east side
      * multi-family adjacent to single family
   2. Providence Rd West/Outer Belt - east side
      * high density multi-family or office at residential scale to Duke Power land
      * multi-family to Tilley Morris Intersection
   3. Providence Rd/south of Outer Belt - east side
      * high density multi-family close to interchange transitioning to single family - envisioning mixture of housing types
   4. Providence Rd/south of Outer Belt - west side
      * high density multi-family close to interchange transitioning to single family - envisioning mixture of housing types
      * Allison Lane can remain single family
   5. Providence Rd West/Outer Belt - west side
      * highway related retail - 100,000 square feet maximum - service broad area with auto service, food, and motel
      * office surrounding retail transitioning to residential scale or high density multi-family towards AME Zion Church
      * multi-family west to the point where Providence Rd West and Outer Belt intersect
   6. Providence Rd West/Providence Rd - west side
      * 150,000 square feet of retail
      * multi-family and single family to existing subdivision's edge

Recommendations delete 75,000 square feet convenience center at Tom Short and Outer Belt and delete 100,000 square feet of office/retail in #6 above.
Plan Assumptions for Providence Road/
Southern Outer Belt Interchange
Land Use Study

RETAIL

- 150,000 square feet neighborhood oriented commercial development in northwest quadrant of Providence Road/Providence Road West intersection. This will be 15-17 acres of principally retail development.

- 100,000 square feet highway service oriented commercial development, which would include appropriate uses such as:
  - auto service garage
  - fast food restaurants
  - gas stations

  in the northwest quadrant of the Providence Road/Southern Outer Belt interchange. A hotel/motel could also be included in this quadrant.

- 70,000 square feet neighborhood convenience center at the intersection of Providence Road/East-West Lower Mecklenburg County major circumferential road. This service center could be east or west of Providence Road. This is approximately 7 to 9 acres.

OFFICE

- Corporate office development in the northwest quadrant of the Providence Road/Southern Outer Belt interchange in the acreage nearest to the actual interchange. Office development of a residential scale could extend west to the Jonesville AME Zion Church. This office development could be mixed with high density multi-family.

- Office development of a residential scale east to the Duke Power property in the northeast quadrant of the Providence Road/Southern Outer Belt interchange. This office could be mixed with high density multi-family.

MULTI-FAMILY

- Multi-family developed at 10-12 du. ac. graduating to high density single-family, 4-6 du. ac., as a transition from commercial to single family residences in the northwest quadrant of the Providence Road/Providence Road West intersection.

- Multi-family developed at 8-10 du. ac. in the northeast quadrant of the Providence Road/Providence Road West intersection.
Multi-family up to 20+ du. ac. depending on design, in all four quadrants of the Providence Road/Southern Outer Belt interchange. In the northeast and northwest quadrants this could be mixed with residential scale office development. The southeast and southwest quadrants would have the higher densities nearer the interchange and graduated lesser densities as transitioning to single family development. The northeast quadrant will have this 20+ density east to the Duke Power property only.

Multi-family developed at 10-12 du. ac. east of the Duke Power property to Tilley Morris Road in the northeast quadrant of the Providence Road/Outer Belt interchange.

Multi-family at 10-15 du. ac. west of Jonesville AME Zion Church on the properties between Providence Road West and the Southern Outer Belt.

Provide meaningful open space in the form of common areas and/or neighborhood parks in multi-family areas. This is more critical as the density increases.

Coordination of design among the four corners of Providence Road and Providence Road West should occur through the rezoning process to highlight this important intersection. Design elements should include if possible, architectural features, landscaping, sidewalks and focal points.

TRANSPORTATION

Optimum clover leaf design for Outer Belt interchange.

Left in, but no left out on Providence Road for office/commercial in northeast and northwest quadrants of Providence Road/Outer Belt interchange.

Right-of-Way for the widening of Providence Road and Providence Road West should be dedicated through the conditional rezoning process.

Lower Mecklenburg County major circumferential may be extended to intersect with Tilley Morris Road. The recommendation will be through the South Mecklenburg District Planning Process.

Connector roads will be determined through the conditional rezoning process and the subdivision process for properties south of the Outer Belt to the Lower Mecklenburg County Circumferential Road.

Tom Short Road will not link to Four Mile Creek Road.

All commercial development will provide a detailed traffic analysis in coordination to all the other proposed development.
Access from Providence Road for Allison Lane could be north or south of the neighborhood.

Widening of Providence Road should be sensitive to the historic Providence Presbyterian Church and cemetery. Care should be taken not to compromise the setting and historical features such as significant trees, gravestones and monuments.

Phasing of development is expected to be a part of a rezoning petition and will take into consideration the provision of infrastructure.

Pedestrian access to commercial properties should be assured through the rezoning process.

Land should be identified for neighborhood parks as development occurs. Neighborhood parks offer the public a convenient source of recreation and are an amenity needed to maintain a high quality of life in the area. Any land identified for parks should be acquired either through dedication, reservation or purchase as part of the rezoning process.
SOUTH MECKLENBURG INTERIM DISTRICT PLAN

Approved by Charlotte-Mecklenburg Planning Commission March, 1987

Adopted by City Council and County Commission June, 1987

INTRODUCTION - SOUTH MECKLENBURG INTERIM DISTRICT PLAN

South Mecklenburg County is rapidly surpassing the 2005 Generalized Land Plan's projected yearly growth rate of 1,087 dwelling units. The annual number of approved dwelling units is currently four times this forecast, the issuance of building permits is double the projected rate. These events - combined with several large-tract rezoning requests - have forced land use decisions prior to the adoption of a district plan. County Commissioners and the City Council have, therefore, requested the Planning Commission to prepare an "Interim District Plan" for South Mecklenburg County.

The first step in the development of an interim plan is the preparation of a recommendation defining specific types of land uses and densities. Once land use is determined, the type and cost of the following capital needs can be assessed: transportation, schools, parks and recreation, water and sewer. The final step is defining possible methods to finance the needed capital improvements.

Additional Steps

Paralleling the development of an interim plan are several vital studies and analyses. Specific methods to finance the growing demand for capital improvements will be studied by the Revenue Committee, plus City and County financial and budgeting offices. Impact exactions and fees are two financial sources to be reviewed in depth.
Other studies include the Charlotte-Mecklenburg Utility Department's revision of extension policies and standards, as well as the Planning Commission's revision of zoning, subdivision, and sign ordinances. The recommendations from these studies will impact what will be included in the 1988 Ten-Year Capital Needs report. This document will serve two purposes: it will provide updated information for a final district plan, and it will help determine funding availability for infrastructure needs in South Mecklenburg as these needs are measured against the county-wide goal of balanced growth.

The development of a final district plan will begin early in 1987, and is anticipated to be a refinement of the interim plan. The final district plan should not be a significant deviation from the interim plan. Adoption of the final plan is expected in early 1988.

Immediate Recommendation

As an immediate step a limitation on rezonings, coinciding with the adoption of this interim plan, should be implemented restricting development to uses within the permitted zoning classification. Pending adoption of the final district plan, proposals for intensifying land use, through rezoning or otherwise, beyond the levels of intensity permitted within the zoning classifications now in place in South Mecklenburg are expected to conform to the following standards:

(1) Developments other than single family detached subdivisions must be served by public or private sewage treatment systems and not by septic tanks. Where a private treatment system is used for any development, sewer lines must meet Charlotte-Mecklenburg Utility Department standards and must be dedicated to the public system when CMUD is ready to accommodate them. Developments other than single family detached subdivisions must also be served by a publicly owned water system or a community well system. Water transmission lines must be sized to meet CMUD standards and must be installed at the expense of the developer, except where a joint public/private agreement can be negotiated with CMUD. Public/private financing options for water and sewer systems may be pursued based on CMUD policies, as modified from time to time.

Where, in the judgment of the Planning Commission or the governing body having jurisdiction over an area, a development should not be approved using a private sewage treatment system or a community well system, then the developer shall have the option of providing public water and sewer to the development or, alternatively, developing a phasing plan which coordinates the development with the provision of public water and sewer by CMUD.

(2) All transportation improvements contemplated by this plan which cross or are located on the development site must be constructed and must, if constructed by the developer, meet all State, Mecklenburg County and City of Charlotte standards. Any off site transportation improvements which are, in the opinion of the Mecklenburg County Engineering Department or the Charlotte Department of Transportation, necessary to support the development must be provided, either privately or through public financing.
In the event publicly financed off site transportation improvements which are needed to support the development are scheduled for some future date or are not yet scheduled and must first be scheduled by the appropriate public authorities, then development phasing must be coordinated with the timing of such off site improvements.

(3) Any land identified for on-site public facilities (such as parks, greenways, schools, thoroughfares, etc.) must be publicly dedicated. The percentage of land in a proposed development dedicated by the developer for public facilities will be a factor in consideration of the degree of intensification of a proposed development over and above the current zoning.

In applying these standards to proposals for intensification, especially in the case of small tracts where strict compliance may be impracticable, the Planning Commission and the appropriate governing body will give consideration to the other goals and objectives of this Plan. For example, where a particular site has been identified in this Plan as suitable or desirable for some higher intensity use, but such site or development is not of sufficient size to support extensive, privately financed off site infrastructure improvements, then consideration should be given to alternative ways of ensuring compatibility of the development with the scheduling of capital improvements or the provision of infrastructure. Generally, however, large scale developments will be expected to meet these standards without need for modifications.

Plan Development and Citizen Participation

Approximately one hundred citizens were invited to participate in the development of the interim plan. Eight workshops plus two community meetings and two elected officials meetings were held throughout June, July and August. The following issues were addressed:

- N C Highway 51 Special Project Plan (including UDC-V)
- Transportation (new roads, extensions, widenings)
- Land Use at the Outer Belt Interchanges
- Land Use
- Open Space, Recreation
- Water and Sewer Infrastructure
- Growth Management Tools (impact fees, phasing of development)

Many citizen suggestions were incorporated into this plan. Their comments are compiled in an addendum.
In 1982, the Planning Commission was asked by City Council and the County Commission to review and recommend policies for future development along the N C Highway 51 corridor. This corridor was composed of undeveloped properties which had a strong relationship to N C Highway 51, and were located from McAlpine Creek east to Sardis Road. In 1982, the area contained 2,731 acres of undeveloped land, compared to 1,945 acres in 1986.

In response to this request, the N C Highway 51 Special Project Plan was adopted in 1983. As an integral part of the South Mecklenburg Interim Plan, the N C Highway 51 plan and policies must be reevaluated in light of the 2005 Plan recommendations and recent decisions by elected officials. The following parts of the corridor plan were reviewed:

**Density And Mix Of Housing In The N C Highway 51 Corridor**

The N C Highway 51 Plan set policies for future growth along the corridor. Residential plans were expected to include a mixture of housing types and styles. For projects greater than 36 acres, at least 1/4 - 1/3 of the project area was to be devoted to single family detached dwelling units.

To assess the impact this policy has had over the past three years, statistics for built and planned dwelling units were analyzed. A total of 633 dwelling units were built on 380 acres during this period; 501 (70%) were single family units. Nine hundred thirty additional residential units have been approved for future development (760 units of this total will be multi-family). Combining existing with planned units, the residential mix on 638 acres will be 42% single family units and 58% multi-family units. With 1,945 undeveloped acres remaining in the corridor, the existing policy will continue to increase the multi-family percentage.

A new policy is recommended to ensure a more equal mix of single family and multi-family units along N C Highway 51. For projects over 36 acres, at least one-half of the units should be single family detached units.

The remaining policies adopted in the N C Highway 51 Plan regarding residential densities should remain intact. The maximum average ceiling for most projects is 4.5 units per acre. A density bonus raising the ceiling to 6 units per acre is allowable, if above standard open space and buffers are provided, and high quality design standards are incorporated into the project. The overall density of not more than 6 units per acre should still be the guideline used in evaluating development projects. It should be noted that the rezoning of property in this corridor will have to take place to reach these densities, including smaller lot single family homes, multi-family housing, and other innovative housing types.
Widening Of N C Highway 51

Improvements to N C Highway 51 are scheduled to occur in four phases. Construction is scheduled to begin on Phase I of the N C Highway 51 Widening Project (N C Highway 51/N C Highway 16 Intersection Improvement) in fall of 1986. Construction of Phase II of the N C Highway 51 Widening Project (from McAlpine Creek westward to the Pineville Bypass) could possibly begin as early as July, 1988. Phase II will be designed as a 5-lane cross section with additional turn lanes at major intersections.

Phases III and IV, from McAlpine Creek eastward to the Matthews Bypass (excluding that portion designed under the N C Highway 51/16 contract) will utilize a four lane, median (15' width) divided roadway as a basis for design. Additional turn lanes will be provided at all major intersections. Construction is anticipated to occur in 1989 and 1990. Once completed, the entire project from the Pineville Bypass to the Matthews Bypass is expected to cost an estimated 20 6 million dollars with developers contributing an additional $605,000 as of June, 1986.

The 1983 N C Highway 51 Policy sought to achieve an "Urban Parkway" character through the use of planted medians and 100 foot buffers paralleling the 100 foot road right-of-way from McAlpine Creek to the Matthews Bypass. To further enhance this parkway concept, trees, meandering sidewalks, and additional landscaping should be required as a part of an updated N C Highway 51 policy. The placement of these amenities must take into account the possibility of the future roadway widening from four lanes to six lanes. These sidewalks and landscaped amenities should be financed and constructed by developers through the subdivision process. In areas already developed, these amenities would be publicly financed, thereby, strengthening the parkway image and connecting the pedestrian system.

Three additional policies are recommended for the N C Highway 51 plan: First, utilities should be placed underground when road widening occurs. Second, the utility company should be asked to use alternative street light poles along N C Highway 51, such as aluminum or fiber-glass. Both of these policies will further enhance N C Highway 51. Third, the state needs to notify the City and the County of requested driveway and median breaks prior to final approval.
Charlotte’s attention has recently focused on the city’s growing traffic problems, particularly in South Mecklenburg. The improvement of existing thoroughfares and the construction of new roads to accommodate growth is a major challenge facing citizens and officials.

No substantial improvement in transportation will be evident until the Outer Belt is built. The North Carolina Department of Transportation is urged to proceed with construction of the Outer Belt as soon as possible.

**Existing Plans**

To accommodate future growth, the Charlotte-Mecklenburg Metropolitan Planning Organization has adopted a Thoroughfare Plan, identifying the area’s long range roadway needs. Roads are divided into three categories: minor, major and freeway-expressway.

The priority of individual roadway projects is established through a series of documents updated each year. The Capital Needs Inventory begins the process of identifying those projects from the Thoroughfare Plan that are needed within a ten-year time frame. Local priorities are further refined through the Charlotte-Mecklenburg Transportation Improvement Program and Charlotte’s Capital Improvement Program.

Projects of high priority in the study area that are yet to be funded include:

1. Providence Road Widening (International Drive to N C Highway 51)
2. U S Highway 521 Widening (N C Highway 51 to County Line)
3. Park Road/Johnston Road Widening (Goneaway Road to N C Highway 51)
4. Colony Road Extension (Sharon Road to Rea Road)

Funded projects for the area, found in either the City’s Capital Improvement Program or the State’s Transportation Improvement Program, include:

1. N C Highway 51 Widening (Pineville to Matthews)
2. Southern Outer Belt (I-77 to U S Highway 74)

The above six road projects are included in the ten-year Capital Needs Inventory prepared by the City.

**Transportation Needs**

The "South Mecklenburg Transportation Needs" table on pages 11 and 12 contains a list of roadway projects, the type of improvements required, estimated mileage, and an estimated priority level (priority being a timetable for need). The "private" percentage of a roadway denotes an estimated percentage of the project presently bordering undeveloped areas which might be constructed in the future.
future through the private development process. A preliminary cost estimate
indicates approximately $313,000,000 (in State and City funding - 1986
dollars) would be needed to construct these roadway improvements. Once the
private percentage is built, the priority assigned to the public portion may
fluctuate to allow for an earlier completion of the total project.

Over 70 miles of urban roadway improvements are needed, totalling approximately
$215,000,000. The construction of the Outer Belt is estimated to cost an
additional $98,430,000 (in 1986 dollars). The plan recommends sufficient
right-of-way should be reserved as development occurs for all roads listed in
the table. This reservation will ensure roads are constructed as originally
planned.

Approximately half of the roads listed in the "South Mecklenburg Transportation
Needs" table are identified for improvements in the Generalized Land Plan 2005.
These roads are noted with an asterisk, "*".

Altered road alignments and roads not included in the current Thoroughfare Plan
should be added or amended by the Metropolitan Planning Organization:

(1) Dorman Road - minor
(2) Elm Lane - minor
(3) Community House Extension to Providence Road West - minor
(4) Weddington - N C Highway 51 Connector - minor
(5) McKee Extension to Independence Boulevard - major
(6) U S Highway 521 Realignment - major
(7) Community House Extension between Providence Road West and
    U S Highway 521 Realignment - major
(8) U S Highway 521 Connector - major

A 2005 Transportation Plan will be developed in 1986-1987. A computer program
will simulate the traffic generated by the suggested land use in the
Generalized Land Plan 2005 and the South Mecklenburg Interim District Plan, and
will further refine the transportation system needed in South Mecklenburg
County.

The Metropolitan Planning Organization (MPO), has recognized the need for the
extension of Johnston Road as a major thoroughfare for this area. In its
May 20, 1987 meeting, the MPO stipulated, through a formal action, that Park
Road (from N C Highway 51 to U S Highway 521) could not be opened to
traffic until Johnston Road Extension is constructed, or for a period of five
years, whichever occurs first. This means if a developer were to construct the
road all the way to U S Highway 521 within the next five years, the City
would maintain a barricade at an appropriate location until the Johnston Road
Extension was complete or until the five years elapse. The MPO also noted that
if N C Department of Transportation were to adopt a schedule for the Johnston
Road project, the MPO might adjust their schedule (for keeping Park Road
closed) to coincide with the state's schedule.

The MPO also voted to add a new major roadway to the Thoroughfare Plan. This
roadway would provide an alternative connection between N C Highway 51 and
U S Highway 521 (west of the Outer Belt). This roadway would run west of
Park Road.
It is recommended that the Charlotte Department of Transportation study the feasibility of an additional Outer Belt interchange at Weddington Road and Johnston Road and a new road connecting Weddington Road to NC Highway 51. Since the connector would be within the Town of Matthews sphere of influence, the actual alignment should be determined by Matthews.

This plan recommends that frontage roads or service roads not be allowed along the Outer Belt.

**Thoroughfare Design**

This plan supports well-designed roads with aesthetic street light poles, even though they might be more costly than alternatives. Utilities should be buried underground or placed at the rear of property lines to enhance the visual image along roadways. The need for buffers, landscaping, meandering sidewalks, and bikeways are also considered important.

Four lane, median-divided roadways should be constructed where possible for aesthetic purposes. However, consideration should be given to what impacts increased right-of-way acquisition will have on previously developed neighborhoods and the cost associated with acquiring additional right-of-way. Most of the roadway improvements needed in South Mecklenburg, which call for widening roadways from two to four lanes, are state-maintained roadways, NCDOT does not maintain landscaped medians. Encroachment and maintenance agreements with NCDOT, therefore, would be needed where medians are constructed.

Where major four-lane roads are planned, it is recommended, where possible, that the first two lanes be constructed off-center. When additional lanes are needed, they could be added with a median to the side of the existing two lanes. Another alternative is to include a median between the first two lanes of a thoroughfare when it is constructed. The second set of lanes could be added to each side when needed. Either alternative would use tax revenues wisely.

*In 2005 Plan

**Lower Mecklenburg Major to Providence Rd West

***Prosvidence Rd West to U S 521 Realignment
After the thoroughfare plan was established for South Mecklenburg County, land use policies were developed for the following areas:

1. Major Intersections (Mixed-Use Centers)
2. Outer Belt Interchange Quadrants
3. Residential Land Uses
   a. Undeveloped land in the N C Highway 51 Corridor
   b. Vacant land near existing development
   c. Undeveloped land south of the Outer Belt

The recommendations for each area are discussed below.

**MIXED-USE CENTERS**

Charlotte continues to be a major retailing center in the Carolinas. The Mecklenburg County shopping center market currently contains 11,614,000 square feet of which 1,498,000 square feet are under construction. During the past twelve months, the Charlotte-Mecklenburg market area absorbed 1,400,000 square feet of retail space. The increased demand for shopping centers will continue as the population expands in South Mecklenburg. To prevent strip commercial development from occurring, adequate sites for major retail and office uses must be identified.

Four categories of retail and office mixed-use centers for South Mecklenburg County are proposed:

1. Regional Mixed-Use Centers
2. Community Mixed-Use Centers
3. Neighborhood Mixed-Use Centers
4. Neighborhood Convenience Centers

The recommended size for centers represents an approximate range to reflect varying market conditions from area to area. It is expected that most development proposals will fall within the suggested range in size. However, it is acknowledged that there may still be extenuating circumstances related to geographic market area, access conditions, or demographic features that warrant consideration of a development proposal somewhat larger than the recommended range. In these cases each situation will be evaluated on its own merits and unique factors or specific findings justifying any variation or enlargement of the development will be taken into account.

**Regional Mixed-Use Centers**

A regional mixed-use center has a 25-mile market area, and typically has up to 2,000,000 square feet (1,000,000 square feet can be retail space, and/or up to 1,000,000 square feet can be office space). However, under the following specific conditions the 2,000,000 square foot limitation may be exceeded.
Special dedication of land for parks, greenways, roadways, and other public facilities

Unique locational features related to the market area or regional accessibility are present

Special provisions for transit options are included

For comparison purposes, the SouthPark vicinity contains 4,000,000 square feet of retail and office space of which 1,000,000 square feet is retail (mall). Eastland Mall, slightly larger than SouthPark, has 1,179,000 square feet of retail space.

Five regional centers are proposed by development interests to serve South Mecklenburg:

Matthews - Three malls which will function as a regional center are proposed along Independence Boulevard, Matthews Township Festival, Windsor Square, and an unnamed mall to be developed by Faison Associates and Crosland-Erwin. Other commercial uses exist in this general area, further expanding its regional function.

Pineville - Cedar Hills complex is planned at the intersection of N C Highway 51 and the Outer Belt. Other commercial uses exist in the area expanding its regional function.

N C Highway 51 from Pineville to Carmel Road - while this area is not an integrated development, the area functions as a regional center. Included in this area are Carmel Commons, McMullen Creek Market, Countryside, Tower Place Festival, Park 51 Center Shops, and Park Place.

Piper Glen - Located at the southern part of the Outer Belt interchange at Rea Road Extension.

Intersection of Community House Extension and U S Highway 521 Realignment - an office oriented center should be planned to complement the retail-oriented center at Piper Glen. (Note: A total of 1,750,000 square feet of office space will be permitted between this site and the site at the U S Highway 521 Realignment - Johnston Road Interchange.)

Community Mixed-Use Centers

A community mixed-use center has a combined retail and office space of up to 1,000,000 square feet, and serves residents within approximately a ten-mile radius. This type of center has between 400,000-500,000 square feet of retail space, with the remaining square footage devoted to office use. Both Park Road Shopping Center and Freedom Mall contain about 400,000 square feet of retail space for comparison purposes. Two mid-size centers are planned for South Mecklenburg County.
(1) Providence and N C Highway 51 - The UDC-V concept for this intersection includes 600,000 square feet of retail and office space. Retail space is confined to the southwest quadrant while office space is distributed on all four corners.

(2) Landen - At the intersection of Rea Road Extension and the Lower Mecklenburg Circumferential Major Road, a community mixed-use center will provide 700,000 square feet of retail and office space. Construction will not begin until Rea Road Extension is completed from N C Highway 51 to the northern Landen property line, and until a portion of the Lower Mecklenburg Circumferential Major Road is built facilitating traffic flow.

Neighborhood Mixed-Use Centers

The third type of center is the neighborhood mixed-use center. These centers provide up to 250,000 square feet of space, having between 100,000-125,000 square feet of retail space and the opportunity for up to 125,000 square feet of office space. Cotswold Mall is an example of a neighborhood mixed-use center having 247,000 square feet of retail space. Quail Corners has 100,000 square feet of retail space.

Three Neighborhood Mixed-Use Centers are recommended for the South Mecklenburg area. Each center would occupy one corner of the following intersections:

1. McKee Road and Weddington Road
2. Providence Road and Providence Road West (northwest corner)
3. U S Highway 521 at the intersection of U S Highway 521 Realignment and the Lower Mecklenburg Circumferential Major Road

Neighborhood Convenience Centers

A neighborhood convenience center, has between 40,000-50,000 square feet of retail space. Each center would be located on one corner of major intersections and would provide services for residents within a one mile radius. The center could be an integrated development or consist of several free standing buildings with design integration.

Convenience centers will not generate high levels of traffic. They can contain, for example, a grocery store, drug store, cleaners, or barber/beauty salon. Good examples of convenience-size centers include Foxcroft East (25,000 square feet), Providence Road Center (30,000 square feet), and the Courtyard (33,000 square feet).

The neighborhood convenience centers recommended in this plan are at one corner of the following intersections:

1. Providence Road and Lower Mecklenburg Circumferential Major Road
2. Lower Mecklenburg Circumferential Major Road and Marvin Road
3. U S Highway 521 and Providence Road West Extension (existing center)
(4) U S Highway 521 and Existing U S Highway 521 - Proposed 
U S Highway 521 Connector
(5) Elm Lane and Four Mile Creek (Piper Glen)
(6) Elm Lane and Providence Road West (existing center)
(7) U S Highway 521 just north of U S Highway 521 Realignment 
(existing center)
(8) One of the following locations
   (a) Community House Extension and Providence Road West Extension
   (b) U S Highway 521 Realignment and Lower Mecklenburg 
       Circumferential Minor Road
   (c) Providence Road West Extension and U S Highway 521 Realignment
(9) One of the following locations
   (a) Providence Road West and Tom Short Extension
   (b) Tom Short and Lower Mecklenburg Circumferential Minor Road
(10) One of the following locations
   (a) Weddington Road and Old Monroe Road
   (b) N C Highway 51 - Weddington Connector and Weddington Road
(11) Monroe Road and McKee Road

Performance standards, adopted through the ordinance revision process, will 
require adequate buffering of convenience centers and mixed-use centers

OUTER BELT INTERCHANGE OPPORTUNITIES

The Outer Belt interchanges at U S. Highway 521 Realignment-Johnston Road, Rea 
Road Extension, Providence Road, Monroe Road, and Independence Boulevard offer 
opportunities for both residential and non-residential land uses

It is desirable from a transportation viewpoint to have major retail (community 
or regional in size) and employment areas located about one-half mile from an 
interchange. This facilitates better traffic control for both the interchange 
and the center

Two additional thoroughfares are recommended for full Outer Belt interchanges 
Weddington Road and Johnston Road. In addition, a split interchange at Elm 
Lane should be studied

Recommendations for the area around each interchange are discussed below

U S Highway 521 Realignment-Johnston Road Interchange

A community park is recommended in the western quadrants of the U S Highway 521 
Realignment-Johnston Road interchange (see Issue 4). The remaining interchange 
quadrants are designated for one of several permitted uses

(1) Corporate/Office Use

A total of up to 1,750,000 square feet of office space will be per-
mittted between this site and the site at the intersection of Community 
House Extension and U S Highway 521 Realignment. The maximum square 
footage could be developed if the site plan provided above average 
open space, transportation improvements, performance standards, and/or 
special design features were incorporated into the plan
This development is envisioned as one to four buildings within a compact, campus-type setting. Each development must provide adequate buffers, setbacks, landscaping, and/or berms shielding the development from adjacent residential areas and providing a residential edge relationship.

(2) Institutional Use

Educational, public service, or hospital facilities in a campus-type setting is permitted at the interchange quadrants. Again, proper buffering, landscaping, setbacks and/or berms would limit non-residential usage beyond the immediate quadrant.

(3) Hotel/Meeting Center

A hotel, not exceeding 300 rooms, could be built on one interchange quadrant.

(4) Residential Development

A four- to eight-story apartment, condominium, or small lot single family complex could be built on the interchange corners. To provide adequate buffer and setbacks from the interchange, on-site density transfers and bonuses will be considered on a case by case basis.

Rea Road Interchange

The northern section of the interchange has been approved for multi-family and single family developments. The southern quadrants will contain the Piper Glen Regional mixed-use center, with retail and office uses of 1,600,000 square feet.

Providence Road Interchange

A Freeway Service Center for the northwest quadrant of the Providence Road interchange is recommended. This parcel of land is between Providence Road West and the Outer Belt, about half the distance between I-77 and U.S. Highway 74. It would be an ideal service center for the freeway traveler. Appropriate uses at this interchange would include auto service garages, hotel/motels, fast food restaurants and gas stations to service the southern area and travelers on the Outer Belt.

By planning a freeway service center in advance, strip commercial development near residential areas can be avoided.

A rest stop and information center is proposed west of the freeway service center.

The remaining three interchange quadrants are designated to remain residential in nature (an average of 3-4 dwelling units per acre).
Monroe Road and Independence Boulevard Interchanges

The Town of Matthews is currently in the process of adopting a Master Plan. The Monroe Road and Independence Boulevard interchanges are within the Matthews sphere of influence, and are included in the Master Plan. The land use at these two interchanges reflects the proposed residential usage in the Matthews Master Plan. If the land use is changed when the plan is adopted, the revised information will be incorporated into the Interim District Plan.

Weddington Interchange

The land use surrounding this interchange should remain residential (an average of 3-4 dwelling units per acre).

RESIDENTIAL LAND USE

The rapid growth of the Charlotte-Mecklenburg area is likely to continue for the next twenty years. Because of this growth, the areas of Charlotte-Mecklenburg now rural will be, within next twenty years, inevitably urban. In order that the change from rural to urban does not adversely affect the quality of life in those areas, it is imperative the approval of new, intensifying developments be conditioned upon the availability of adequate infrastructure and amenities such as open space, greenways, parks, etc. These infrastructure improvements and amenities should be required wherever possible to create a pleasing, as well as liveable, environment. Without the provision of the infrastructure and amenities, intensifying development beyond the existing zoning should not be approved.

Residential land use policies are described for three areas:

Highway 51 Corridor

This plan supports the maximum average ceiling for most projects at 4.5 dwelling units per acre. A density bonus raising the ceiling up to 6 units per acre is allowable, if above standard open space and buffers are provided, and high quality design standards are incorporated into the project.

Vacant Land Near Existing Development

Vacant parcels near existing residential development should take on the single family character of the immediate area and, therefore, contain 0-4 dwelling units per acre.

Undeveloped Land south of the Outer Belt (including the vacant land just north of the U.S. Highway 521 Realignment-Johnston Road Interchange)

The plan recommends an average build-out density of 3-4 dwelling units per acre for this area. This represents a projection of the desired densities at full build-out, which may or may not occur within the next twenty years. It is important to realize the projection relates to an average density over a large section of South Mecklenburg. Thus, the density of 3-4 units per acre can not be used or interpreted as either an upper or lower limit for any particular area.
tract of land, or as a uniform density for development of all parcels. Some tracts, therefore, will develop at higher densities and others at lower densities. This will allow a mix of single family and multi-family units, approved through the site plan review process, and/or through an intensification of the present zoning. It should be noted the density of 3-4 units per acre can not always be used to guide the decision on any particular subdivision, multi-family plan approval, or any particular rezoning petition.

The following list of criteria used in evaluating the location of multi-family projects should be used as a guide by developers planning multi-family projects. Multi-family developments are expected to meet the following standard criteria, at a minimum:

1. The development should be located close to permanently dedicated open space such as parks, greenways, or golf courses.

2. The development should be located adjacent to major or minor thoroughfares with appropriate setbacks, buffers, special design features, and edge relationships that quickly blend into single family areas.

3. The development should be located adjacent to or near mixed-use centers.

In addition, multi-family developments will be reviewed more favorably if a number of the following exceptional criteria are met:

1. The development is located at the intersection of a major and minor thoroughfare, two minor thoroughfares, or two major thoroughfares.

2. The multi-family development is contained as part of a planned unit development, and offers a variety of housing types. Planned unit developments must be over 36 acres.

3. The development is located on a site which includes a historic structure or site to be preserved and adopted for public reuse, such as for a branch library or community house. The historic structure or site must be publicly donated.

4. The multi-family development is located on a site which contains a unique topographic feature (steep slopes, flood plain, rock outcropping).

5. The development is adjacent to a major institutional facility, such as a Junior or Senior High School, with sufficient open space that can be used by the residents of the multi-family development.

The progress toward reaching an average 3-4 dwelling units per acre should be monitored by the Planning Committee and staff in approximately a year. This will allow for any possible modifications of policies regarding densities, build-out, and location of multi-family housing.
Charlotte-Mecklenburg's livability is a result of a high quality of life - a pleasantly landscaped city in the piedmont countryside, with thriving neighborhoods, stately trees, and a growing array of social, cultural, and educational amenities. To maintain this livability, suitable land must be identified and reserved or acquired for schools, parks, and recreational areas.

In the past, the Charlotte-Mecklenburg Board of Education, and the City and County Parks and Recreation Departments have cooperated in developing a number of school sites with adjacent neighborhood parks containing approximately 15 acres. These organizations and the Planning Commission support the continuation of this joint effort for South Mecklenburg.

Historic structures and sites could also serve as an educational facility for an adjacent school or park. These uses could be combined where feasible.

The provision of bikeway paths (paved) in South Mecklenburg for both recreational users and speed enthusiasts is being studied by a County Parks and Recreation Subcommittee. Once their proposals have been reviewed and endorsed by various county departments, Planning Commission staff, the Charlotte-Mecklenburg Metropolitan Planning Organization and the State Department of Transportation, the routes will be added to this plan.

PARKS AND RECREATION

Four types of parks must be planned for South Mecklenburg: neighborhood, district, community, and greenway parks.

Neighborhood Parks

Neighborhood parks containing 2-25 acres should be located within residential areas. Park facilities could include hard surfaced play areas, play fields, playground equipment, and passive recreational areas. Predominantly used by young children, these parks should be located in close proximity (one-quarter to one-half of a mile) to the families served.

The City and County Parks Departments will accept parks of 15 acres or more if they are adjacent to a school or greenway for maintenance. (Parks over 25 acres are accepted for maintenance whether or not they are adjacent to other facilities.) Parks under 15 acres would require private maintenance, and could be maintained by neighborhood associations, for example.

Suitable neighborhood parks should be obtained through the development process. The transfer of development rights or density bonuses could also be used to encourage developers/owners to provide open space for parks.
**District Parks**

A district park usually contains approximately 40-60 acres, serving people within a two-mile radius. It generally provides a greater emphasis on organized sports appealing to all age groups. District parks may contain athletic fields, paved court areas, playground equipment, picnic areas, and passive recreational areas.

Seven district parks are recommended at the following locations:

1. Adjoining the Senior High School on N C Highway 51
2. North of N C Highway 51 at Elm Lane
3. Adjoining the proposed Junior High School on McKee Road
4. Encompassing the Big Rock Outcrop site, near Elm Lane
5. Adjacent to the intersection of Tom Short Road and the Lower Mecklenburg Circumferential-Minor Road (northwest quadrant)
6. Adjoining Tilley Morris Road between the Outer Belt and Union County (south side of the road)
7. Matthews proposed landfill site, west of Independence Boulevard (In the event this area does not become a landfill, the staff still recommends it for a district park. A study of appropriate alternative land uses for this site is presently being undertaken.)

**Community Parks**

Community parks (200-300 acres) usually contain some of the facilities found in neighborhood and district parks. They can also include facilities that require large amounts of space: golf courses, lakes, scenic areas, senior citizen outdoor areas, historic areas, zoos, or other specialized attractions that can draw people from the entire county.

The development of two community parks in South Mecklenburg County are recommended. One park would be created by converting the proposed Six Mile Creek basin landfill into a park. (In the event this area does not become a landfill, it would still be developed for a community park.) The second community park is proposed at the western quadrants of the Outer Belt interchange at U S Highway 521 Realignment-Johnston Road, adjacent to the McAlpine Creek Greenway. Both sites will provide adequate land for active and passive recreation.

**Greenway Parks**

Greenways may be utilized in a variety of ways. Bikeways or pedestrian paths may parallel the greenway and connect various parts of the city and county. Picnic areas or passive recreational areas can highlight the creek or interesting natural settings.

The recommendations of the Generalized Land Plan 2005 for the development of McMullen, McAlpine, Four Mile, and Six Mile Creek Greenways are supported in this plan. The immediate reservation or dedication of these greenways to the County Parks Department is of the utmost importance.
SCHOOLS

The provision of schools are just as important as roads, parks, water, and sewer, and must be planned in advance to maintain the quality of life in South Mecklenburg.

Presently, there are four schools planned for South Mecklenburg:

1. Elementary School on Tom Short Road (Landen)
2. McAlpine Elementary School on N.C. Highway 51
3. Junior High School on Rea Road (behind Olde Providence Elementary, just north of the study boundary)
4. High School on N.C. Highway 51 (between Hugh Forest and Reverdy)

Population growth in South Mecklenburg will result in the need for additional schools. These school sites have been located within a general area, and do not denote specific sites. Each proposed school location, however, should be within a mile radius of a selected site.

1. Three elementary schools (10 acres each plus one acre per 100 students)
   - U.S. Highway 521 and U.S. Highway 521 Connector
   - McKee Road between Tilley Morris and the Outer Belt
   - Weddington Road and Weddington - N.C. Highway 51 Connector

2. Two junior high schools (20 acres plus one acre per 100 students)
   - McKee Road between the Outer Belt and Weddington Road
   - Community House Extension between the Lower Mecklenburg Circumferential Minor Road and Providence Road West

A combination of each school site with either a neighborhood park (about 15 acres) or a historic site is recommended. The dedication of land for these purposes should be obtained through the development process. The transfer of development rights can be used to persuade developers to provide suitable land for parks and schools.

If the joint agreements between the Charlotte-Mecklenburg Board of Education, and the City and County Parks and Recreation Departments to cooperate in developing adjoining school/park sites does not result in adequate park land in the South Mecklenburg area, alternative park sites will have to be identified.

HISTORIC SITES

The location of historic resources identified in the 1975 Historic Inventory was mapped for South Mecklenburg. A complete cultural resources survey should be undertaken, and jointly funded by the City and the County. This survey would provide archaeological, architectural, cultural and historic data necessary for establishing preservation goals. Surveying typically involves visual examination of every property, researching publications and public documents, photographing and documenting each property that contributes to the significance of the area, and evaluating the results. The estimated cost for this survey is $35,000-$45,000.
An urban community's livability is directly related to the quality of its public services and facilities. This infrastructure provides the framework for land development. The planning of water and sewer, therefore, must accommodate growth in an orderly manner and, in the long run, guarantee a high quality infrastructure.

Because development pressure will continue beyond Mecklenburg County's boundaries, the possibility of providing water and sewer through regional agreements to adjoining counties should be reviewed. Through proper planning, adequate size mains can be targeted to meet this potential market.

It is intended by this Plan that (a) Private Treatment Plants be allowed only as an interim measure and they are to be constructed pursuant to Charlotte-Mecklenburg Utility Department (CMUD) standards, (b) Community water systems be allowed only for development within the uses allowed by R-15 zoning. The current water and sewer extension policies need to be amended to provide for the orderly integration of private community water and sewer systems into the CMUD system.

The following water transmission lines and sewer outfalls are recommended for South Mecklenburg.

WATER TRANSMISSION LINES

Short Range (1-5 years)

- Providence Road between N C Highway 51 and Providence Road West (24")
- Providence Road West between Elm Lane and Providence Road (16")
- Elm Lane between N C Highway 51 and Providence Road West (16")
- N C Highway 51 between Pineville and McAlpine Creek (24")
- Old Monroe Road from Matthews town limits south to Weddington Road interchange at the Outer Belt (16")

Mid Range (6-10 years)

- Providence Road between Providence Road West to Union County (16')

Long Range (10-20 years)

- John Street and Old Monroe Road between Pleasant Hill Drive and Union County
- Old Monroe Road south from the fork at Weddington Road and along Pleasant Plains Road south to Union County
- Weddington Road continuing from the water transmission line installed in the 1-5 year period, to McKee Road
- McKee Road between Weddington and Providence Road
- Tilly Morris Road between McKee Road and Union County
- Lower Mecklenburg Circumferential Major Road between Providence Road and U S Highway 521 Realignment
- U S Highway 521 from Pineville south to Lower Mecklenburg
  Circumferential Major Road where it intersects Ardry Kell Road
- Providence Road West Extension between Elm Lane and Existing
  U S Highway 521
- Johnston Road Extension between N C Highway 51 and the Outer Belt
- U S Highway 521 Realignment between the Outer Belt to Existing
  U S Highway 521
- Rea Road Extension between Providence Road West and Lower Mecklenburg
  Circumferential Major Road

WATER TANK

Mid Range (6-10 years)

- Sardis Road and N C Highway 51

SEWER LINES

Mid Range (6-10 years)

- Six Mile Creek Outfall between Marvin Road to Allenwood Road area
- Six Mile Creek Outfall along Flat Branch Creek from Union County past
  Tom Short Road
- Six Mile Creek Force Main and Outfall from Six Mile Creek north along
  Marvin Road and along creek bed to McAlpine Creek
- Sewer Outfall between N C Highway 51 (along the McAlpine Creek) and
  the McAlpine Treatment Plant

WASTEWATER TREATMENT PLANTS

Short Range (1-5 years)

- McAlpine Creek Treatment Plant Expansion to 50 MGD

Mid Range (6-10 years)

- McAlpine Creek Treatment Plant Expansion to 70 MGD

*Included in 5 year Capital Improvement Program
**Included in 10 year Capital Needs Inventory

The projects listed in the mid and long range classifications may be adjusted
in mid-1987, when projects move forward one year. It is, therefore, possible
some water and sewer projects may be eligible for the City's reimbursement
program.
The staff endorses this study and will support the committee's recommendation(s) on growth management tool(s). Final consideration by the Planning Committee is reserved until the growth management tools study is completed. At that time, the Planning Commission will review the report for possible incorporation of recommendations into the final district plan.

Development Phasing and Infrastructure

Intensification of development in South Mecklenburg should be closely linked to the 10-Year Capital Needs Inventory and the 5-Year Capital Improvement Program and the provision of needed infrastructure to support the development. Proposals for intensifying land use, through rezoning or otherwise, beyond the levels of intensity permitted within the zoning classifications now in place in South Mecklenburg are expected to conform to the following standards:

1. Developments other than single family detached subdivisions must be served by public or private sewage treatment systems and not by septic tanks. Where a private treatment system is used for any development, sewer lines must meet Charlotte-Mecklenburg Utility Department standards and must be dedicated to the public system when CMUD is ready to accommodate them. Developments other than single family detached subdivisions must also be served by a publicly owned water system or a community well system. Water transmission lines must be sized to meet CMUD standards and must be installed at the expense of the developer, except where a joint public/private agreement can be negotiated with CMUD. Public/private financing options for water and sewer systems may be pursued based on CMUD policies, as modified from time to time.

Where, in the judgment of the Planning Commission or the governing body having jurisdiction over an area, a development should not be approved using a private sewage treatment system or a community well system, then the developer shall have the option of providing public water and sewer to the development or, alternatively, developing a phasing plan which coordinates the development with the provision of public water and sewer by CMUD.

2. All transportation improvements contemplated by this plan which cross or are located on the development site must be constructed and must, if constructed by the developer, meet all State, Mecklenburg County and City of Charlotte standards. Any off site transportation improvements which are, in the opinion of the Mecklenburg County Engineering Department or the Charlotte Department of Transportation, necessary to support the development must be provided, either privately or through public financing.

In the event publicly financed off site transportation improvements which are needed to support the development are scheduled for some future date or are not yet scheduled and must first be scheduled by the appropriate public authorities, then development phasing must be coordinated with the timing of such off site improvements.
(3) Any land identified for on-site public facilities (such as parks, greenways, schools, thoroughfares, etc.) must be publicly dedicated. The percentage of land in a proposed development dedicated by the developer for public facilities will be a factor in consideration of the degree of intensification of a proposed development over and above the current zoning.

In applying these standards to proposals for intensification, especially in the case of small tracts where strict compliance may be impracticable, the Planning Commission and the appropriate governing body will give consideration to the other goals and objectives of this Plan. For example, where a particular site has been identified in this Plan as suitable or desirable for some higher intensity use, but such site or development is not of sufficient size to support extensive, privately financed off-site infrastructure improvements, then consideration should be given to alternative ways of ensuring compatibility of the development with the scheduling of capital improvements or the provision of infrastructure. Generally, however, large scale developments will be expected to meet these standards without need for modifications.

Ordinance Revision Process

The Zoning, Sign, and Subdivision Ordinances of the City of Charlotte and Mecklenburg County will be revised and combined into a unified land development code. The estimated adoption date for the revised ordinance is November, 1987.

This plan recommends the unified code include a provision for land dedication, or fee in lieu of land, for parks and open space. Mandatory greenway system dedication should also be included in the code. (Note: All open space and parks should be publicly held.)

A section on transfer of development rights which addresses large-scale planned developments should also be included in the updated zoning code provisions. This process can permit the transfer of unused development rights of one parcel to another, and could be used to compensate property owners who, for instance, provide public facilities or open space.

Once the Ordinance is adopted, vacant land in South Mecklenburg County will be reclassified to fit the revised zoning district system.

Housing Opportunities

Through the appropriate mechanism, tools shall be developed to provide a diversity of housing opportunities in the South Mecklenburg area. Criteria for the location of low-income housing and the potential number of units needed in the South Mecklenburg area will be included in the final district plan.
MINUTES OF MECKLENBURG COUNTY BOARD OF COUNTY COMMISSIONERS
September 6, 1990 5 00 P M
NORTH CAROLINA
MECKLENBURG COUNTY

The Board of Commissioners of Mecklenburg County, North Carolina, met in Special Scheduled Session in the Meeting Chamber Conference Room of the Charlotte-Mecklenburg Government Center on September 6, 1990, at 5 00 P M

ATTENDANCE

Present
Chairman Carla E. DuPuy and Commissioners
Kenneth L. Andrews, T. Rodney Autrey,
John G. Blackmon, Peter Keber, Barbara
Lockwood, and Robert L. Walton
Assistant County Manager Wanda Towler
Clerk to the Board Janice S. Paige

Absent
None

The Board had dinner in the Meeting Chamber Conference Room. They recessed at 5 55 P M and reconvened at 6 00 P M in the Meeting Chamber.

Commissioners Andrews and Blackmon were absent when the meeting was called to order and until noted in the minutes.

A) 0110-1111
B) Providence Rd
C) Providence Rd/ Providence Rd West Interchange

The Meeting was called to order by Chairman DuPuy. The purpose of the Meeting was to hold a public hearing on the Providence Road/Providence Road West Outerbelt Interchange.

Dave Howard of the Planning Commission reviewed the process used in studying this area.

Commissioner Andrews came into the Meeting at this time and was present until noted in the Minutes.

Mr. Howard continued his presentation.

Chairman DuPuy noted a letter received from Charlotte City Council asking the Board to consider deferring for 30 days a decision on this matter to allow City Council an opportunity to submit its comments to the Board on this issue.

A copy of the letter is on file in the office of the Clerk to the Board.

Motion was made by Commissioner Andrews and seconded by Commissioner Lockwood to defer for 30 days a decision on the Providence Road/Providence Road West Outerbelt Interchange Study issue per the request of the Charlotte City Council.

Discussion continued.

Commissioner Andrews left the meeting at this time and was absent until noted in the minutes.
The vote was then taken on the motion and carried 5-0, with Commissioners Autrey, Dupuy, Keber, Lockwood and Walton voting yes.

Commissioner Andrews returned to the meeting at this time and was present for the remainder of the meeting.

The following people addressed the Providence Road Interchange:

Bob Young representing Marsh Associates stated that Marsh Associates endorses and supports the recommendations of the plan with regard to their property.

Marsha Elliott representing the Southeast Coalition and President of Berkley Homeowners spoke and presented a slide presentation. She stated the plan will oversaturate the area with retail and it lacks consideration for phasing to allow completion of infrastructure, density is a concern and also traffic. They are not opposed to the Outerbelt itself but to the development that might come up around it which will have a negative effect on the corridor that was built to move traffic and not create it. She stated they have prepared a list of suggested amendments to the plan for Board consideration.

Commissioner Blackmon came into the meeting at this time and was present for the remainder of the meeting.

Mike Thrower, member of the Southeast Coalition, spoke concerning the retail and office space. He referred to the 150,000 sq ft commercial development in the plan and stated they would like to see that left in the existing B-1 zoning which would encompass 75,000 sq ft instead of being a commercial development, cluster type single-family homes on the basis of approximately 4-6 dwelling units per acre. He expressed concern for the 100,000 sq ft service center which they would like to see limited to one gas station and one fast food instead of many hotel/motel should be moved to Rea Road interchange architectural design and height should be limited to two stories and design should be compatible with existing residential developments.

George Pierson President of Southhall Homeowners Association spoke concerning density for single family and multi-family dwellings and supports the Southeast Coalition of Neighborhoods Amendments. They desire lower densities which would result in less traffic congestion, less waste and environmental impacts.

John Gaylord, resident of Bellwood Lane, asked the Board to commit in writing to the proposition of not issuing permits for commercial, high density, or very high density property until the roads are in place.

Louie Davis representing Allison Lane stated they would like the Allison Lane community to remain a single-family neighborhood which has been in existence 70 years. He asked the Board to consider providing water and sewer service to Allison Lane in the near future. He also asked that the interchange design have no more than 2 or 3 loops and that none go over Allison Lane. He stated Jonesville AME Zion Presbyterian Church was concerned about the multi-family units shown on the plan and opposes it being in front of or on the sides of the church property and requested protection of the church graveyard.

Vicky Semple a resident of Quail Acres subdivision spoke in support of the Southeast Coalition Amendments. She specifically addressed the absence of greenspaces and buffers in the plan. She requested that commercial areas be required to use 50% of the unobstructed area as greenspace, in multi-family areas 65% - 85% of land area remain as greenspace, that established trees outside the city limits be protected, consider possibility of designating strip of land west of Jonesville AME Zion Church as an historic park rather than used for multi-family...
Dottie Coplon President of the SE Coalition addressed the plan in general and questioned the need for the small area plan at this time since the South Mecklenburg District Plan has not been approved. She further recommended the reestablishment of the Light Rail Task Force for future planning efforts. She urged the Board to support the SE Coalition Amendments to the plan.

Margaret Harris representing the Board of Charlotte Organizing Project spoke in support of residents of Allison Lane and Jonesville AME Zion Church.

Steve Lefler representing the Lake Providence Estates neighborhood spoke in opposition to the multifamily zoning and commercial zoning indicated in the plan. He favors lower density zoning.

Larry Best representing the Catoe family, the largest land owner in this area (approximately 600 acres), spoke in support of the plan as submitted and addressed their involvement in the process.

Bailey Patrick representing Crosland-Erwin, Sally Mason and a subsidiary of Harris Teeter who have property in this area referenced a pending Petition and stated it is appropriate and consistent with what has been studied and believes it helps the neighborhood because of their acquiring an additional 5 acres adjoining their property.

Willie Rea addressed a difference in the map he received and the one being presented. His concern was for a road shown on the plan being presented, but not shown on his copy. Dave Howard clarified this issue.

Commissioner Autrey left the meeting at this time and was absent until noted in the minutes.

Roberta Gilman a resident of Kuykendall Road, supports what has been previously stated by residents of this area. She expressed concern for noise pollution, light pollution, a loss of wildlife and water run off.

Commissioner Autrey returned to the meeting at this time and was present for the remainder of the meeting.

David Guy resident of Woodview Circle, expressed the need for the widening of the road not only at the intersection but to the county line and asked for better planning to protect the neighborhoods in the area. He also asked the Board to take a closer look at mass transit.

James Mingo, a member of the Jonesville AME Zion Church, spoke in support of the preservation of the Jonesville AME Zion Church, Allison Lane and the SE Coalition Amendments.

Frank Leitner, resident of Lake Providence Estates, addressed the issue of trees and the preservation of trees.

Motion was made by Commissioner Walton, seconded by Commissioner Andrews and unanimously carried with Commissioners Andrews, Autrey, Blackmon, DuPuy, Keber, Lockwood and Walton voting yes, that there being no further business to come before the Board, that the meeting be adjourned at 7:23 PM.
State of North Carolina  
General Court of Justice  
Twenty Sixth Prosecutorial District  
CHARLOTTE NORTH CAROLINA 28202 3106

August 9, 1990

Ms. Sue Myrick, Mayor  
Charlotte-Mecklenburg Government Center  
600 East 4th Street, 15th Floor  
Charlotte, NC 28202

Dear Sue:

Effective July 31st, the fifth resignation in 1990 of one of my assistant district attorneys occurred. Monday, I was notified by the Administrative Office of the Courts that I will not be able to replace the assistant until December 1st because of reductions in the State budget.

There are now two vacant assistant district attorney positions and I anticipate at least one and possibility of as many as three more by year end. Positions that because vacant cannot be filled for 120 days.

I am requesting that the City of Charlotte provide assistant city attorneys or in the alternative temporarily place on the payroll of the city attorneys that I will then transfer to the State payroll when I am permitted to do so.

At the present time, our inability to fill vacant positions has made it impossible to adequately prosecute criminal cases filed in this county.

You have been aware for some time of the situation this office has been forced to work under but now it is utterly beyond our ability to respond.

Sincerely,

Peter S. Gilchrist, III  
District Attorney

PSG/ebj
RESOLUTION
Regional Utility System

WHEREAS, the Town of Fort Mill, City of Rock Hill, York County, Lancaster County and City of Charlotte are working to meet water and waste water treatment needs of a growing regional community; and

WHEREAS, these governmental entities are all concerned about the environmental impact of their actions upon the areas, lakes, and streams; and

WHEREAS, these governments wish to continue to provide for orderly growth of the region; and

WHEREAS, these governments believe that a regional solution to the water and waste water problems may be more environmentally and economically sound.

THEREFORE, the City of Charlotte does resolve to work with the other governmental entities and their consultants to develop a concept for a regional utility system and explore the potential benefits and issues involved in a regional utility system. To this end, our staff is directed to work together on the study of a regional utility and bring this report back to the involved governing bodies at the appropriate time for consideration of further action.

Approved This ______________ day of __________________, 1990.

ATTEST:__________________________________
HOUSING CODE ENFORCEMENT

A. Recommend adoption of an ordinance authorizing the use of
In Rem Remedy to demolish and remove the dwelling located at
1704 Parson Street. (Belmont)

BACKGROUND:

Date of Inspection: 5/19/89
Reason For Inspection: Concentrated Code Enforcement (Field
Observation)

Property was sold twice between May, 1989 and November, 1989.
Title search was ordered and received November 7, 1989.
Complaint and Notice of Hearing was advertised in the
Mecklenburg Times.

Hearing Held: 2/26/90
Owner(s) Ordered to Demolish Dwelling By: 4/21/90

Deed presented to Community Development Department showing
ownership of property in April. Owner requested time to
repair.

Owner(s) Notified of Hearing: 5/1/90
Hearing Held: 5/30/90
Owner(s) Ordered to Repair Dwelling By: 7/15/90

It was learned in August, 1990 that the deed was invalid,
therefore the order to demolish was re-activated.

Estimated Value of Dwelling: $8680
Estimated Repair (Which is more than 65% of Estimated Value):
$6780

The repairs include: major structural, electrical and
mechanical repairs. Dwelling is unoccupied.

The owner was notified of a Civil Penalty on August 28, 1990.
The total penalty as of September 24, 1990 amounts to $1640.
The owner has also been notified of this September 24, 1990
Council action.
B. Recommend adoption of an ordinance authorizing the use of
In Rem Remedy to demolish and remove the dwelling located at
1120 E. 15th Street, #1, #2, #3, #4. (Belmont)

BACKGROUND:

Date of Inspection: 1/3/90
Reason For Inspection: Concentrated Code Enforcement (Field
Observation)
Owner(s) Notified of Hearing: 2/8/90 (Mail Returned Unclaimed)
Title search was ordered and received on March 19, 1990.
Complaint and Notice of Hearing was advertised in the
Mecklenburg Times.

Hearing Held: 6/8/90
Owner(s) Ordered to Demolish Dwelling By: 8/13/90

Estimated Value of Dwelling: $23,340
Estimated Repair (Which is more than 65% of Estimated Value):
$15,790

The repairs include: major structural and plumbing repairs.
The units are occupied. The tenants have been placed on the
relocation workload and will be relocated prior to demolition.

The owner was notified of a Civil Penalty on August 17, 1990.
The total penalty as of September 24, 1990 amounts to $500.
The owner has also been notified of this September 24, 1990
Council action.

C. Recommend adoption of an ordinance authorizing the use of
In Rem Remedy to demolish and remove the dwelling located at
1416 Kennon Street. (Belmont)

BACKGROUND:

Date of Inspection: 5/30/89
Reason For Inspection: Concentrated Code Enforcement (Field
Observation)
Owner(s) Notified of Hearing: 6/16/89 (Mail Returned Unclaimed)
Owner(s) Notified of Hearing: 8/4/89
Hearing Held: 8/24/89
Owner(s) Ordered to Demolish Dwelling By: 10/13/89

Notice Received From Owner That Property Sold.
Owner(s) Notified of Hearing: 12/12/89 (Mail Returned)
Owner(s) Notified of Hearing: 2/6/90
Hearing Held: 3/2/90
Notice Received From Owner That Property Sold.
Owner(s) Notified of Hearing: 3/9/90
Hearing Held: 4/2/90
Owner(s) Ordered to Demolish Dwelling By 5/6/90

Title search was ordered and received on July 26, 1990. Title search revealed parties of interest to the property.

Parties of Interest Notified of Hearing: 5/22/90
Hearing Held: 6/14/90
Owner(s) Ordered to Demolish Dwelling By: 8/3/90

Estimated Value of Dwelling: $1540
Estimated Repair (Which is more than 65% of Estimated Value):
$27,120

The repairs include: major structural, electrical, mechanical and plumbing repairs. The dwelling is unoccupied.

The owner was notified of a Civil Penalty on August 28, 1990. The total penalty as of September 24, 1990 amounts to $610. The owner has also been notified of this September 24, 1990 Council action.

D. Recommend adoption of an ordinance authorizing the use of In Rem Remedy to demolish and remove the dwelling located at 1924 Renner Street. (McCroy Heights)

BACKGROUND:

Date of Inspection: 10/23/89
Reason For Inspection: Concentrated Code Enforcement (Field Observation)
Owner(s) Notified of Hearing: 11/6/89 (Mail Returned Unclaimed)
Owner(s) Notified of Hearing: 12/28/89
Hearing Held: 1/22/90
Owner(s) Ordered to Demolish Dwelling By: 3/15/90

Tax records indicated a second owner, who was eventually located. Owner(s) Ordered to Demolish Dwelling By: 4/16/90

Title search was ordered and received on July 31, 1990. Title search revealed no parties in interest to this property.

Estimated Value of Dwelling: $1430
Estimated Repair (Which is more than 65% of Estimated Value):
$25,700
The repairs include: major structural, electrical, mechanical and plumbing repairs. Dwelling is unoccupied.

The owner was notified of a Civil Penalty on August 17, 1990. The total penalty as of September 24, 1990 amounts to $1690. The owner has also been notified of this September 24, 1990 Council action.
CHARLOTTE-MECKLENBURG ADVISORY ENERGY COMMISSION
(9 Members)

Membership - Terms are for two years. No member may serve more than two consecutive terms.

Members are appointed from the following sectors:

1. One Education/Public Awareness Representative - appointed by the Board of Education.

Representatives from the remaining sectors are appointed by the City and County on an alternating basis (those for which the City had responsibility in 1982, when the Commission was established as a permanent body, are shown in ALL CAPS and designated as to "Mayor" or "Council"; the Mayor's appointment rotates with each appointment period):

2. ONE CONSUMER ADVOCATE REPRESENTATIVE (not involved in energy production, energy equipment or the provision of energy services). (C)

3. Four Energy Production or Energy Services Representatives -
   (a) ONE ELECTRIC UTILITY (C)
   (b) One Gas Utility
   (c) ONE PETROLEUM INDUSTRY (C)
   (d) One Renewable Energy Environmental

4. One Business Community Representative (not involved in energy production, energy equipment or the provision of energy services).

5. ONE ENGINEERING/TECHNICAL PROFESSIONAL REPRESENTATIVE. (M)

6. One UCS Representative.

The Chairman and Vice-Chairman are selected jointly by the Mayor and County Commission Chairman, from the body membership.

Responsibilities - Serves as a designated body to study community energy problems and to develop an annual community Energy Management Plan for Charlotte/Mecklenburg to be approved by the City Council and County Commission and encourage its implementation.

Revised 5/29/90
August 31, 1990

Jane F. Roper
430 Hillsborough Street #3
Chapel Hill, NC 27514

Citizens Oversight Committee for Cable Television
General Services Department
600 East Fourth Street
Charlotte, NC 28202-2855

Dear Committee,

I am no longer a resident of Charlotte-Mecklenburg in the literal sense of the word. I have accepted a two-year position in Chapel Hill and thus, regretfully tender my resignation to the Citizens Oversight Committee for Cable Television.

Kindest regards,

Jack E. Roper

Jane F. Roper
Dear Arthur:

I am sorry that I missed the Citizens Cable Oversight Committee meeting last week. I have decided at this time to resign from the committee. It is time for me to move my volunteer hours into other community projects. I have enjoyed working with you and the other members of the committee. Please except my resignation effective September 1, 1990.

I am hopefully that the committee will continue to look at all three access channels to be sure that each is meeting the needs of the community in educational, governmental, public access.

I know that the committee will face many new challenges in the future. If I can every be of assistance to you or the committee please let me know.

Sincerely,

Tom Klipp

(over)
INTERESTS/SKILLS/AREAS OF EXPERTISE
My job background has given me experience in household appliances, air conditioning and heating, building repairs and property management. 
My family has roots in Mecklenburg County from the 1760's, and I was born and raised here. Charlotte is definitely my home, and I would like to be part of the processes to maintain and improve life in this city.

CURRENT PROFESSIONAL ORGANIZATIONS, CIVIC, RELIGIOUS AND POLITICAL ACTIVITIES

COMMENTS
I work for a large central city church. I feel that I can bring a Christian perspective to city government supported by job experience which has direct contact with problems such as downtown growth, homelessness, aging high density public housing.

OFFICE OF CITY CLERK
While I personally do not think that this is a possible conflict of interest, I feel that the members of the City Council should know that Mayor Sue Myrick is a member of the church where I am employed.

I regret that I will not be present at the Council meeting on September 24th, but that day is the regular meeting day for our church's Board of Trustees, Finance Committee and Administrative Board, and we are in the middle of our budget preparation and pledge drive for next year which necessitates my presence at those meetings.

OFFICE OF CITY CLERK
# TREE ADVISORY COMMISSION

(12 Members)

**Membership** - Appointments are for three-year terms with service limited to two consecutive full terms. A majority of the membership should be residents of the City of Charlotte. Ten members are appointed by elected officials; the remaining two should be representatives of the Parks & Recreation Department, who serve ex-officio, attending meetings when so requested by the secretary of the Commission.

**Responsibility** - Make recommendations from time to time to the City Manager or his authorized representative relative to trees and shrubbery in the City.

OFFICE OF CITY CLERK

City Clerk
1989
CHARLOTTE UPTOWN DEVELOPMENT CORPORATION - BOARD OF DIRECTORS

(13 Members by Appointment; 3 Ex-Officio)

Membership - Appointments are made in four categories: Class A - Business (7); Class B - Non-Profit Organizations (2); Class C - Residents (2); Class D - City Council/County Commission (2). Terms are for three years with appointees in Classes A, B, and C limited to no more than two consecutive terms. Class D directors are appointed for one-year terms.

The chairman is appointed by the Mayor from among the entire membership and serves on a one-year basis, but may be reappointed.

Responsibilities - Organized as a non-profit corporation to:

1. Engage in any or all downtown revitalization projects as defined by North Carolina General Statute 160A-536, as amended, in a Municipal Service District created by act of the Council of the City of Charlotte pursuant to the provisions of North Carolina General Statutes 160A-537, et seq.

2. To contract with the City of Charlotte to conduct the following:

   (a) Economic and land use planning of the Municipal Service District and designated sub-areas within the District.
   (b) Develop and issue publications and information on the District to property owners, residents, developers, and investors.
   (c) Stimulate private investment within the District for commercial, residential, and other development.
   (d) Coordinate private and public sector actions relevant to the District, and
   (e) Produce and implement promotional and developmental activities within the District.

OFFICE OF CITY CLERK
September 13, 1990

Ms. Pat Sharkey
City Clerk
City of Charlotte
600 E. 4th Street
Charlotte, NC 28202

Dear Pat,

The Charlotte Uptown Development Corporation regrets to inform you that Mr. Harvey Gantt has tendered his resignation from the Board of Directors of CUDC. His interest in uptown ventures doesn't cease, but his present schedule doesn't permit him the time to serve. He was appointed by the City Council as a residential representative.

To fill the unexpired term of Mr. Gantt, CUDC is pleased to nominate Dr. Tolly Kennon to replace him. Dr. Kennon has been a resident of Fourth Ward for many years and has a very successful dental practice in an office building he developed in Third Ward.

Dr. Kennon specializes in oral surgery and has taught at various local colleges. His community interest over the years has been broad as evidenced by his involvement in the American Heart Association, United Way, Charlotte Dental Society, Charlotte Pharmaceutical Society, Charlotte-Mecklenburg Community Relations Committee, The Historic District Commission and other activities.

We believe that Dr. Kennon will be a valuable asset to CUDC and a productive and contributing member. We would appreciate your submittal of his name to Council.

Thank you,

Michael Schneiderman
Executive Director

City Clerk 1989

OFFICE OF CITY CLERK
INVolVEMENT

Examples of past activities, civic, social, and community:

1969 Brevard College
*Elected to the Judicial Board by the student body, one of three students and three faculty that administered the most critical decisions on student discipline including suspension or expulsion.

1971 72 N. C. State
*Only undergraduate representative and one of only 2 students that determined tenure for the faculty of the School of Education Department of Psychology on an equal voting basis with their peers. Chosen by the faculty from 250+ undergraduates. Also chosen to serve as only student representative to review new faculty positions and provide input into the hiring or firing of personnel.

1974 78 Charlotte, NC
*Conducted educational workshops on crisis intervention and on various therapeutic techniques for the Human Resources Department of Central Piedmont Community College.

*Active member on the Handicap Committee, University of North Carolina, Charlotte that assessed campus compliance to Federal Law 504 on Handicapped Programs.

*Conducted jointly with staff, workshops on Human Sexuality and the Handicapped at Charlotte Rehabilitation Hospital.

*Guest speaker at several of the local organizations for parents with handicapped or mentally retarded children.

*Appeared on the local television program Scope with county commissioner and a leading educator to discuss difficulties facing handicapped children in the community.

1979-82 Atlanta, GA.
*Asked to serve on the Citizen's Advisory Council to the Fulton County Mental Health and Mental Retardation facilities. Later asked to serve on the Citizen's Advisory Council to the Georgia Regional Hospital in Milledgeville, GA.

*Served on the task force of The Easter Seal Society that assessed the housing needs of the handicapped in Metro Atlanta.

*Consultant to Aid for Independent Living Inc a non profit corporation that does on-site evaluations of institutions with regard to accessibility.

*Appeared on P.M. Magazine as spokes person for The Fine Line a segment on fine arts.

1984-86 Charlotte, NC
*After one year as volunteer for Springlest Inc co-chaired the Volunteer Committee the following year and was asked to be Chairman of the Public Relations Committee the next (declined).

*After one year as member of Free Spirt, an organization that supports Spirit Square through volunteerism and fundraising activities, I was elected vice president by its 600+ members. The position of vice-president automatically becomes President the following year and sits on the Board of Directors of Spirit Square. (resigned)

*The Boy Scouts of America has an in-school scouting program for the handicapped. I was asked to be vice-chairman of its Board. (resigned)

*Asked to serve on the Board of Directors of the Meotrolina Independent Living Ctr (now Partners for Accessible Living) (declined)

*Asked by several committee members of Leadership Charlotte to apply for participation.

Currently:

*Asked to serve on the Board of Partners for Accessible Living (under consideration)

*Member of the Meotrolina World Trade Association

*Member of the Better Business Bureau

Revised 8/02/88
ZONING BOARD OF ADJUSTMENT

(5 Regular Members; 3 Alternates)

Membership - Members are appointed for a term of three years, and until their respective successors have been appointed and qualified. No member shall serve more than two full consecutive terms. Alternate members serve on the Board in the absence of any regular members and are appointed in the same manner and for the same term as regular members. The Code makes no reference to residency requirements of appointees.

Responsibilities - Established under Section 1400 et seq of the City Code to hear appeals where it is alleged there is error in any order, requirement, decision, or determination made by the Director of the Charlotte-Mecklenburg Building Standards Department. It hears and decides appeals for variances from the requirements of the ordinance when strict application of its provisions would result in practical difficulties or unnecessary hardship.

+ Chairman

Revised 5/29/90
June 28, 1990

Ms Pat Sharkey  
City Clerk  
600 E Fourth Street  
Charlotte, NC 28202-2853

Dear Ms Sharkey,

As a result of my recent appointment to the Charlotte/Mecklenburg Planning Commission I hereby submit my resignation as Chairman of the Charlotte Zoning Board of Adjustment. My sense is that the time demands of the Planning Commission will preclude me from appropriately addressing those issues which come before the Zoning Board of Adjustment. There is prospectively also the potential for some degree of conflict.

Thank you for your assistance.

Best Regards,

COLDWELL BANKER COMMERCIAL REAL ESTATE SERVICES

Thomas F O'Brien
