INVOCATION.

The invocation was given by Councilman Claude L. Albee.

MINUTES APPROVED.

Upon motion of Councilman Jordan, seconded by Councilman Aitken, and unanimously carried, the minutes of the last meeting were approved as submitted.

OATH OF OFFICE ADMINISTERED TO FOUR NEW PARK AND RECREATION COMMISSION MEMBERS.

Messrs. J. H. Munnick, R. P. Steffen, D. L. LeFevres and Joe Grier, Jr., newly elected members of the Park and Recreation Commission, were administered the Oath of Office by Mayor Shaw who then addressed the following remarks to them:

"Now there you are, Gentlemen. It is unfortunate that this Body has become involved with the former members of the Park & Recreation Commission over what might have been just a minor little argument. The thing never would have gotten into the newspapers had we been permitted to sit down with them and thrash out the location of a certain recreation building.

I sincerely hope that whoever serves the City in the future will not become involved in such a controversy.

May I suggest to you that any such row can be easily and happily settled if the two opposing groups will get together around a table and discuss the point of issue and reach some harmonious agreement.

It may not be in keeping for me to say this to you because the law is written in such a way that you are appointed by us, and we have no authority after that except to appropriate funds with which to operate. But there is nothing in the law which prohibits our keeping each other advised on matters that affect the people we serve."

I do hope that you gentlemen will investigate the advisability of having your purchases made through the City Purchasing Department which, I believe, and the Council agrees with me, would be a more business like method of making your purchases.

The former Park & Recreation Commission has left behind a good record. On the whole, everything they have done has been approved by the majority of our citizens, and I know that you gentlemen will carry on the work that group has so well planned."

On behalf of the Economic Corporation Administrator, Mayor Shaw awarded Certificates of Cooperation for Furnishing technical assistance to the Peoples of the Marshall Plan Countries to aid them in maintaining individual liberty, free institutions and peace, to representatives of the following concerns and organizations:

REQUEST THAT ATANDO AVENUE BE PAVED WITH FUNDS RECEIVED UNDER THE POWELL BILL.

Mr. W. S. Strong was spokesman for a delegation representing business concerns located on Atando Avenue; he expressed appreciation for the City's limited maintenance of the street and urged that it be paved and that funds for the work be provided from monies to be received from the State under the Powell Bill.

Councilman Atiken advised that consideration is being given the establishment of a revolving fund of $125,000.00 for street paving, to be placed back in the fund by by assessment over a 5 year period to be used for paving other streets, which plan has been recommended by the City Manager. He further stated that the Powell Bill provides that such funds received from the State be used on through streets, or highways within cities, and too, that these funds will not be available until October.

Mayor Shaw stated he believes that Atando Avenue will be given first priority when the new budget is adopted.

FINANCIAL AID IN THE ERADICATION OF BEETLES ALONG SUGAR CREEK AREA REQUESTED BY U.S. DEPARTMENT OF COMMERCE, BUREAU OF ENTOMOLOGY.

Mr. H. V. Autrey of the Federal Department of Commerce, Bureau of Entomology, advised that the white-fringed beetle is prevalent along Sugar Creek and in order to prevent its spreading it is necessary that the area be sprayed with DDT. He advised that the Federal Government has heretofore furnished funds for the purchase of the DDT but it must now be supplied by the local governments; that $1,200.00 will be needed for the required quantity of DDT and the services of two men for an estimated 20 days period will also be required. He stated that the Chairman of the County Commissioners has advised that half the costs will be furnished by them. At the suggestion of Councilman Aitken, the City Manager was directed to work out the details of the matter with Mr. Autrey.

APPROPRIATION FOR CHARLOTTE COLLEGE OPERATION AND EXPANSION REQUESTED BY THE COLLEGE ADVISORY COMMITTEE.

Appearing in the interest of Charlotte College were Mr. J. O. Autrey Atkins, Chairman, Miss Charlotte Nobley and Mr. W. A. Kennedy of the College Advisory Committee, Miss Bonnie Cone, Director of the College, Messrs. Floyd Kay, W. S. Lupo and Reginald Price of the Chamber of Commerce, and Messrs. B. A. Terrell and Merritt Wheeler of the Engineers Club. Mr. Atkins stated that the College is an outgrowth of the University of N. C. Extension Division, and was established two years ago under the Charlotte School System; that it is being supported entirely by tuitions and student fees, which are not sufficient for its operation to say nothing of its expansion. He advised that the Charlotte School Board has been able to set up only $10,000.00 from non-tax funds for their use and it is imperative that additional monies be received if the College is to continue to operate. Mr. Atkins further stated that it is their desire to establish a technical division, in which proposal the Charlotte Engineers Club is cooperating. He stated that $50,000.00 is needed for the operation and expansion of the College, and it is their hope that the City of Charlotte and Mecklenburg County will jointly appropriate the amount, without restrictions as to its use, so that it may be used for other vital needs should sufficient funds not be found for the establishment of the technical division.

Miss Cone explained the courses now offered at the College. She advised that a 5 cent tax levy is made by the City of Wilmington for a similar college located there.

Mr. Lupo and Mr. Terrell each urged that funds be appropriated by the City. Mr. Terrell stated that engineering contracting firms are training their own men in their shops to fill their actual needs but are unable to give the needed basic training.
Councilman Boyd called attention to the fact that the law does not permit the appropriation of funds to schools. Mr. Atkins stated it was their hope that the appropriation could be made from non-tax monies, such as funds received from the ABC System.

Mayor Shaw advised the delegation that the City Attorney will be requested to rule on the legality of such an appropriation.

REQUEST FOR PERMISSION TO COMPLETE CONSTRUCTION OF CAPE IN NON-CONFORMING ZONING AREA REFERRED TO CITY ATTORNEY FOR RULING.

Mr. W. J. Crosby was again present with regard to his request for permission to complete construction of a cafe building in Griertown.

Mr. Yancey, City Manager, advised that the Building Inspector reports that the original permit for the construction was issued by the County on September 1, 1948 and only the walls of the building were constructed and a wall dug when the property was sold to Mr. Crosby on April 6, 1949, which date was after the area was annexed to the City and zoned as Residential-2. That the construction was continued by Mr. Crosby in April 1949 and work was stopped by the Building Inspection Department of the City. That an inspection this morning reveals that the walls have been torn down to ground level and materials removed from the lot.

Councilman Boyd stated he did not think a person's property rights should be destroyed and suggested that the matter be referred to the City Attorney for an opinion. The Council requested the City Manager to so advise. Mr. Shaw, City Attorney.
