CITATION PRESENTED CAPTAIN W. A. MCCALL, POLICE DEPARTMENT, IN RECOGNITION OF HIS ACTION IN RESCUING ROBERT G. PRICE FROM JUMPING FROM A TOWER.

Mayor Smith presented a Citation to Captain W. A. McCall, Charlotte Police Department, in recognition of his action on November 27th in climbing a high tower and rescuing Mr. Robert G. Price from jumping from the tower. In presenting the Citation Mayor Smith stated it was for service rendered by Captain McCall beyond the call of duty in seeing that a life was preserved and for which he justly deserved public recognition. Captain McCall replied that he accepted the Citation with great humility, and the rescue could not have been accomplished without the cooperation of the Communications and Traffic Divisions of the Police Department and the Fire Department.

HEARING ON ORDINANCE NO. 490 AMENDING CHAPTER 21, ARTICLE I, SECTION 2 RE: CHANGE IN ZONING OF PROPERTY AT THE SE INTERSECTION OF INDEPENDENCE BOULEVARD AND ROCKWAY DRIVE.

The public hearing was held on Ordinance No. 490 Amending the Zoning Ordinance to amend the Building Zone Map of Charlotte by changing property at the SE intersection of Independence Boulevard and Rockway Drive, from R-I to O-I on appeal of Mr. Ray Barrier and wife.

Mr. McIntyre, Planning Director, stated the property consists of one lot, developed residentially, with all adjoining land being zoned R-I, and with the Chantilly School at the rear of the property.

Mr. Robert Perry, representing the petitioner, stated the property is unsuitable for residential purposes and that FHA and five Mortgage Institutions have refused loans on the property for residences. That in their opinion the O-I classification would in no way be hurtful to Chantilly School, as it would not create a nuisance, noise nor excessive traffic. He stated further that unless the property is zoned so that his client may use it, it will represent a confiscation of his property.
Mr. Barrier, the petitioner, stated that he has been assessed $400.00 for the paving on Rockway Drive which was for the benefit of the school. He advised that his property fronts 60 feet on Independence Boulevard and does not front on Rockway Drive.

Mr. Douglas Aitken, City School Board member, stated they have a sizable investment in Chantilly School and the rezoning of the adjacent property will bring business up to within 100 feet of the school. He called attention that the schools must be erected where the children are, and the protection of the children and the investment must receive the cooperation of the City Council. He asked that serious consideration be given their request that the zoning not be changed.

Mr. Joe Morgan, representing Chantilly PTA, called attention that the change in zoning is opposed by the Planning Board, the School Board and the PTA, and their interest is entirely for the 700 school children and their welfare, which will not be served by bringing business and its necessary noises within so short a distance from the class rooms.

Council decision was deferred for one week.

The Planning Director stated the property consists of several lots between Meacham Street and Ideal Way, largely developed with single family residences. That across from Ideal Way there is one business establishment and on the west it is developed industrially.

Factual information as to the property and surrounding area was given by the Planning Director, who stated the property consists of one lot on Cliffwood Place; that it is adjoined on the rear by Residential zone, and that all adjoining property is zoned R-2.

Mr. Lee Mikeal, the petitioner, stated that the lot is 160 x 100 and he wishes to conduct his own business on the property in which he will employ only five persons, and therefore, no traffic congestion will result from his business.

No opposition to the proposed change was expressed.

Mr. McIntyre, Planning Director, stated the property consists of 10 acres of land, and is adjoined by the City’s airport property, and other property zoned Rural.

Mr. Joe Grier, representing the petitioner, stated the property has no beneficial use as a residential or rural area, as it is adjoined by an industrial area, and they are merely requesting the extension of this present industrial zone to include the property of his client, who will use it in the future in connection with their operation.

No opposition to the change was expressed.

No opposition to the proposed change was expressed.

Councilman Baxter called the attention of the Planning Board to the fact that there are three petitions for zoning changes on Independence Boulevard before the Council today. CITY MANAGER ADVISED EXTENSION OF CITY SERVICES TO PERIMETER WILL BE COMPLETED PRIOR TO ANNEXATION DATE.

Councilman Baxter asked the City Manager if land has been purchased in the Perimeter area for the construction of the sewage pumping stations? Mr. Yancey replied that the City has an option on a portion of the needed property, and as soon as it is completed will work on securing the remainder of the land, and he will then ask the Council to purchase all of the needed property at the same time. Councilman Baxter then asked if the City will have sufficient time to live up to the promises to the people in the perimeter area, and Mr. Yancey replied there will be ample time.

PROGRESS REPORT ON WIDENING OF EAST 5TH STREET.

Councilman Dellinger asked for a progress report and the figure on the purchase of the right-of-way on the widening of East 5th Street, from Caldwell to McDowell. Mr. Yancey stated that the map and deeds are being prepared. He stated further that he assumes the Council wants to purchase all of the necessary property at one time, rather than piece-meal. Councilman Dellinger replied that should be done in which ever manner the Council wishes, and Mr. Yancey again asked that he be given specific instructions on it. Mr. Shaw, the City Attorney stated he thinks the Council would be better off to close the options when one or two have been secured.

CITY MANAGER REQUESTED TO PRESENT AT NEXT COUNCIL MEETING STATEMENT SHOWING AMOUNT OF FUNDS EARMARKED FOR STREET IMPROVEMENTS AND PROGRESS BEING MADE.

Councilman Poard requested the City Manager to have ready at next Council Meeting a statement showing the amount of funds earmarked for street

CITY MANAGER REQUESTED TO HAVE PLANNING BOARD LOOK INTO EXTENSION OF CITY’S FIRE BOUNDARIES.

Councilman Dellinger requested the City Manager to have the Planning Board look into the matter of extending the City's fire boundaries; that in his opinion it would be wise to take in more territory and stop the number of tin sheds being erected.

REPORT OF RECOMMENDATIONS FOR THE POLICE DEPARTMENT OF CHIEF SELVEY DEFERRED UNTIL ALL MEMBERS OF THE COUNCIL ARE PRESENT.

Police Chief Selvey was present at the request of Councilman Barker and Board to present a Report of his recommendations for the Department.

Mayor Smith stated that last week it was suggested that the Report be deferred as Councilman Board was absent; that today Councilman Brown is absent and is confined to the hospital, and to be consistent the Report should not be given until a full Council is present. Councilwoman Evans stated she understands the delay in hearing the Report was not because of the absence of Councilman Board but rather because Councilman Board had originally requested the Report and in deference to this, the matter was deferred until he was present. She asked that the Chief be allowed to make his Report and the Council to consider it next week, in view of the fact that it is impossible to know when a full Council will be present. Councilman Albee stated that Councilman Brown asked that the Report be deferred until he is present and stated he thinks it should be deferred. Councilman Wilkinson moved that the Report be deferred until a full Council is present. The motion was seconded by Councilman Dellinger. Councilwoman Evans stated that the City Clerk will record the Report in the Minutes and Councilman Brown can read it there. CONTRACT AWARDED SPARTAN EQUIPMENT COMPANY FOR AIR COMPRESSOR.

It was recommended by the City Manager and City Engineer that all bids received on November 25th on a Rotary Air Compressor for the Engineering Department be rejected to comply with the later instructions of Council, on December 3rd, that bids be received without allowance for trade in of used equipment.

Mr. Tom Pfaff, representing Spartan Equipment Company, who was low bidder meeting the specifications, stated that bids were requested with allowance for trade-in of old equipment, which they submitted. That the piece of equipment being traded in is not in operating condition, that in fact it has been torn down, and has practically no value beyond junk prices, and its appraised value on rebuilding it for resale is no more than $300.00. He stated further that there is a possibility that the City will lose money by postponing the purchase and readvertising, as the special price basis granted distributors by manufacturers for this transaction may be lost due to price increases in the interim. He asked that the contract be awarded his company as all conditions were met by them in their bid, and since they have exposed their price it would be unfair competition to readvertise for bids.

The City Manager stated he is of the opinion that the Council will do well to follow the recommendation of the City Engineer, who thinks the City can save money by readvertising for bids.

Councilman Dellinger called to the attention of the City Manager that the Council ask that bids be received without trade-in allowance for used equipment only on cars and trucks, and not on all rolling equipment.

Councilman Dellinger then moved that contract be awarded the Spartan Equipment Company for One Worthington 210 Rotary Air Compressor, as specified, f.o.b. Charlotte, at a price of $7,785.00, less trade-in allowance for old equipment No. 371 of $2,135.00, or a net exchanged delivered price of $5,650.00. The motion was seconded by Councilwoman Evans, and unanimously carried.

The following net exchanged delivered bids were received:

Spartan Equipment Company $5,650.00
