INVOCATION.

The invocation was given by the Reverend Thomas Miller, Pastor of Westminster Presbyterian Church.

MINUTES APPROVED.

Upon motion of Councilman Thrower, seconded by Councilman Albee, and unanimously carried, the Minutes of the last meeting on November 26th were approved as submitted.

PETITION PROTESTING PROCEDURE OF OPERATION OF AMBULANCE SERVICE AND OF ORDINANCE PROVIDING THAT POLICE CHECK ACCIDENTS PRIOR TO ORDERING AMBULANCE, REFERRED TO CITY MANAGER AND CITY ATTORNEY FOR INVESTIGATION AND REPORT.

Mr. W. H. Smith presented a petition, signed by a large number of residents of the area of Mockingbird Lane, requesting that Charlotte Ambulance Service be required to answer calls immediately upon receipt, and the City's ordinance providing a procedure for handling calls in opposition to this be immediately changed, and that their drivers and attendants be periodically examined by a Council appointed Committee, including doctors and the Director of Safety Services of the American Red Cross to determine whether they are thoroughly familiar with first aid and the care of the sick and injured.

The petition was predicated on an accident, the details of which were reviewed in the petition, on November 22nd shortly after 10:25 A.M., in which a young driver was involved on Mockingbird Lane and was thrown through the windshield receiving facial lacerations and bleeding severely; that at 10:28 A.M., Mr. Robert K. Ballard placed a call through the telephone operator for the Charlotte Ambulance Service, and sometime later a Police Station wagon arrived at the scene, the Policeman took a look, returned to his radio and ordered an ambulance; that upon being questioned, he told onlooker this is the standard procedure for a Policeman to check a call to see if an ambulance is really needed because of the number of prank calls received; that two police cars, a motorcycle Policeman and Television Cameramen arrived at the scene before the ambulance; that on questioning, Mr. Brandes of the Charlotte Ambulance Service stated he received the official police call at 10:46 A.M., a lapse of 18 minutes after the original private call; that Mr. Brandes refused to tell the time he received the original call; he further stated this procedure is in accordance with the City Ordinance. That the signers of the Petition protest such an Ordinance, condition or order and respectfully submit this should be changed immediately. That while they feel the City will never have adequate Ambulance Service until the City Government accepts its responsibility and provides a municipally operated service, in the meanwhile calls should be answered immediately and no time wasted that could mean a human life saved.

At the request of Mayor Brookshire for comment, the City Manager advised he is not familiar with the incident and would like to inform himself on it and will give Council a report.

Councilman Dellinger asked the City Attorney if our ordinance provides that the Police check these accidents first, and Mr. Morris replied that we have the most comprehensive ordinance regulating the operation of ambulance of any city in the United States, and he would check the details of the ordinance, together with the City Manager's report and supply the information to Council.

Councilman Bryant stated, in defense of Charlotte Ambulance Service, having some familiarity with it, that it is already written in by the owner of the Ambulance Service a very severe restriction regarding inspection and training of their personnel and of their equipment; that he thinks upon inspection it will be found that we have as fine knowledge on that matter, that they are thoroughly trained by contract and inspected periodically by the hospitals, a committee of the Medical Association, the Red Cross and the Police, and he feels if such things as this happen, most likely it is not a short-circuiting of the Ambulance Company, and while everything is not perfect, of course, our ambulance service is very fine in comparison with most cities in the southeast.

Councilman Albee stated he agrees with Mr. Bryant as to the equipment, etc., if a condition exists where calls are answered as stated by Mr. Smith, then something should be done about it. Councilman Bryant concurred in this, stating he is not defending that point at all, which is something that Council should not tolerate under any circumstances, but he was speaking of the service as a whole.

At the request of Mayor Brookshire for comment, the City Manager advised

The City Manager advised that through the efforts of the Purchasing Agent and City Attorney, we have been able to negotiate changes in the bidding on Plant Mix Asphalt to the point where the bidders have expressed their willingness to enter into a contract with the City at the same price we are currently paying, and the City Attorney has told us that because of the nature of this contract, we can waive the need for a performance bond and in view of all this and the assurance of when we can get the material over a 10 year period at $6.50 per ton, the following resolution has been prepared, which will have the effect of awarding the contracts, for a period of one year, based on this reduced price.

Councilman Bryant stated he understands that the equipment of the second bidder, E. F. Craven Company, is 10% to 12% heavier at a small additional price. He asked if this should be considered or if the Western Carolina tractor meets our needs?

The City Manager advised that when this was bid previously we recommended the acceptance of the Western Carolina Tractor Company and he does not think on the rebid they could adviseably put themselves in the position of changing their recommendation.

Councilman Smith asked if the City gained anything by having this equipment rebid? The City Manager advised that we did not, that the rebid is costing the City $927.00 more than the original bid. That the color of the painting of the truck might account for a small portion of the additional cost.
