The resolution is recorded in full in Resolutions Book 2, at Page 256.

REPORT OF "THE STATE OF THE CITY OF CHARLOTTE" PRESENTED BY COUNCILMAN BAXTER.

Councilman Baxter extended New Year's Greetings to the assembly at this the first meeting of the Council in 1955, and he stated since we have been hearing so much of late about the "State of The Nation" and "The State of the State of North Carolina" he wished to present the following report of his version of "The State of the City of Charlotte":

"1954 was a great year for Charlotte. Our City has grown tremen-
duously during the last five years due to proper relationship of our
church, home, and school life, supported by our industrial and
political efforts as to the needs of the individual and the community
as a whole. Co-operation and the harmonious relation of these
factors in life's cycle have paid dividends to all Charlotte citizens.

Let us see what we have done for the past few years as a
guide to our obligations for the next five years, I submit a set
of comparative figures for your examination and guidance, which is
very informative.

During the past five years we have invested our money as follows:
(excluding water, sewer, and street extensions)

- New school buildings: $7,755,623.00
- New church buildings: $7,673,375.00
- New residences: $50,291,077.00
- Commercial buildings: $39,896,238.00
January 7, 1955
Minute Book 35 - Page 431

A break down of the money spent for new residences per dwelling unit is interesting and forms a basis for the estimated population of today of 180,000.

Year 1950: 3,046 new dwelling units
Year 1951: 1,294 new dwelling units
Year 1952: 1,475 new dwelling units
Year 1953: 1,206 new dwelling units
Year 1954: 1,053 new dwelling units

Total new dwelling units for five years - 8,074

Using this five year record as a guide for the next five years, it should form a pattern of what is before us and challenge us to get ready for 1960 (only five years off) by doing something with our problems. While our debt per person has increased only 260,00, our net property worth per person has increased over $800,00, which should prove that we are really a growing concern and is a good percentage in any banker’s credit ratio. It appears to me that this City Council has a tremendous responsibility to keep pace with this growth by providing facilities to keep abreast of the times. Unless we seriously consider our needs, the competition between cities will draw people elsewhere which will mean loss of income and jobs to our citizens and we will become stunted in our growth. It is the right policies and future planning that I am concerned with - not the mere mechanics of City Government so ably handled by our department heads and employees under the guidance of our City Manager.

I congratulate the City Council and the Mayor for our major progressive achievements, namely:

The organization of our new Charlotte-Mecklenburg Planning Board
The sale of our Duke Power busses
The completion of Selwyn Avenue
The completion of 11th Street bridge

We have five months more to run as a City Council and those of us who plan to run for re-election will be asked by the voting public:

1. "How are you planning to meet this unprecedented growth that is at our door step?"
2. "What have you gentlemen done for the City of Charlotte and its citizens besides the mere operation of our City Government?"
3. "What are you going to do to equalize taxation and hold the tax rate at a minimum?"
4. "Are you going to do anything definite with our major problems, namely?"

Off-street parking
Set-back requirements
Zoning our perimeter areas
The extension of our city limits
The suggested authority for water and sewer
The cleaning up of Sugar Creek
The duplication of street names
The consolidation of tax departments

Most of these items will save us money and will help our tax rate in the future and I urge your co-operation as each item is presented and hereby request your support of same. These projects have been suggested in my fourteen points of progress before, but I need your help in starting them, so that this Council will be remembered as a "promoter for a bigger and better city."

When I took the oath of office a year and one-half ago, I suggested -- -- --

"Let’s be Doers of the Word and not hearers only.”“
