A. Stephens for their fine work in reducing traffic accidents. He called attention that the 21 traffic fatalities in Charlotte this year are down significantly from the 50 in 1960, and stated that 11 of the 21 were pedestrians. He stated that Governor Sanford is so impressed with the Safety Programs he is appointing a similar Council for the State to make a thorough study of the safety fields to assist in starting and carrying out strong safety programs throughout the State. Major Speed commended the City Council on the big step in the right direction in plans for the establishment of a separate Traffic Court.

REQUESTS OF RESIDENTS OF 2700 AND 2800 BLOCKS OF ARNOLD DRIVE REFERRED TO CITY MANAGER FOR RECOMMENDATIONS.

Mr Everett Bemont, who resides at the corner of Eastway and Arnold Drives filed a petition signed by the property owners in the 2700 and 2800 blocks of Arnold Drive requesting that Council action a few weeks ago authorizing the construction of a gravel sidewalk from Eastway Drive to Markham Court be reconsidered and resubmitted to the Engineering and Police Departments for further study and recommendations; and suggesting that the present ditch be covered and the sidewalk placed over the ditch. Also, that these Departments make a study of the corner where Eastway and Arnold Drives intersect in order that a bad situation be eliminated, as cars making the turn into Arnold Drive have to go off the pavement onto the shoulders and sometimes into the ditch in order to make the turn.

Mr Bemont stated a sidewalk is badly needed for school children from Markham Village going to Merry Oaks Grammer School, however, the construction of the proposed sidewalk along property lines will create a hazard and unsightly condition, and he urged that the ditch be filled and the sidewalk constructed nearer the street. He stated further if the sidewalk is constructed 6-inches higher than the center of the street, was was done in front of his former residence last year, then it would be impossible to mow the strip between the sidewalk and ditch. Mr Bemont urged that the hazardous condition at the intersection of Eastway and Arnold Drive be corrected, and that both requests be referred for recommendations by the Engineering and Police Departments.

Mayor Brookshire advised that consideration will be given the requests and Councilman Dellinger requested the City Manager to look into the possibility of covering the ditch.

Mr Jarvis King, resident of Plaza Road, filed a petition signed by patrons of

Minute Book 41 - Page 135

Briarwood School, requesting that in the interest of safety of children attending the School consideration be given their requests for sidewalks along The Plaza, from Lakedell Drive to Shannonhouse Drive, and on Wilann Drive, from The Plaza to the School, and that the proper caution lights be erected on The Plaza approaching the entrance to Briarwood School from each direction. He advised there are 580 children attending the school and these safety measures are imperative.

Councilman Dellinger stated he brought this to Council several months ago, and he moved that the City Manager have Mr Hose make a check into the conditions outlined and a report be made to Council. The motion was seconded by Councilman Albea, and unanimously carried.

Mr Hose, who was present at the meeting, stated a survey into traffic conditions has been made near the school and all standard school signs, with cross-walks, speed zone etc has been installed. That there is a wide shoulder along the area for pedestrians to walk; that speed records were run and are being observed, and he feels that everything necessary has been done at this school. He stated he was out there this morning and only six children crossed at the crosswalk; they are crossing at Shannonhouse and walking up a private driveway to the school. He advised, however, the School does not have a School Boy Patrol as most schools do.

Councilman Dellinger asked Mr King if the School will not organize a Patrol and he replied he thinks the School has been convinced it is needed. He advised further there are 87 children who could use the sidewalk on The Plaza.

Councilman Thrower asked if Mr King did not think the Safety Patrol would take care of the situation? Mr King stated they would still like to have sidewalks.

DR HAMPTON SHORT REQUESTS REMOVAL OF NO PARKING 6 A.M. TO 6 P.M. SIGNS IN FRONT OF HIS RESIDENCE AT 1421 QUEENS ROAD WEST, AND TRAFFIC ENGINEER ADVISES COUNCIL TRAFFIC COUNT INDICATES RESTRICTIONS NECESSARY.

Dr Hampton Short advised that no-parking signs have been erected in front of his residence at 1421 Queen Road West, which he thinks are entirely unnecessary and he requested that they be removed. He stated further he does not think traffic regulations are necessary on Queens Road West, and right now there may be an increase in traffic because of the improvements to Providence Road but it is not permanent. He advised with the restrictions from 6 a.m. to 6 p.m. his children can have no birthday parties and his wife cannot have her missionary society because his driveway cannot accommodate the cars and they are most unhappy. He advised the no-parking signs at other houses on the street are from 4:30 to 6:30 and he cannot see the difference. Mr Short stated he does not care to continue living at this location under the circumstances, and he would put up a For Sale Sign if his wife would let him, even though the parking restrictions will devaluate his property at least $4,000.00.

Mr Hose, Traffic Engineer, who was present at the meeting, explained the reason for the signs at the request of Councilman Albea. He stated Dr Short's residence is located on the east side of Queens Road West, between the intersection of Queens Road West, East Boulevard and Kings Drive, and the intersection of Queens Road West and Ratcliff Avenue, and the parking restrictions are from 6 a.m. to 6 p.m. except on Saturday and Sunday while the 4:30 to 6:30 p.m. restrictions are beyond the Ratcliff Avenue intersection; that the traffic count showed that 10,493 cars passed over the
block in which Dr Short's house is located in a 24-hour period, while the count was 7,268 cars in the blocks beyond. He also stated the count was made after King's Drive was widened but before the Providence Road widening started. Mr Hoose stated they feel the parking restrictions are necessary.

Mayor Brookshire thanked Dr Short for coming down and presenting the problem and stated that many problems come up as the city grows.

MR W. M. KIRKPATRICK ADVISED NO HEALTH HAZARD INVOLVED ON PROPERTY AT REAR OF HIS RESIDENCE IN THE 1500 BLOCK OF THOMAS AVENUE.

Mr W. M. Kirkpatrick, resident of the 1500 block of Thomas Avenue, stated he appeared before Council on October 16th requesting that the property owned by Mr Lee Heath, at the rear of his property be cleaned up and nothing has been done as yet. He advised that the lot is 250 ft. by 50 ft. and the grass is 3 feet tall, full of debris and snakes and rats.

Mr Veeder, City Manager, read a report on the situation from the Health Department, stating the property has been inspected within the last two months individually by Sanitarians Jones, Tilley and Livingstone and the reports are the same, that no health hazard exists.

Mayor Brookshire advised Mr Kirkpatrick the City has done what he asked and had the property inspected for a health hazard and none exists.

Councilman Dellinger stated he talked with Mr Heath and he said there was no health hazard on the property but if Mr Kirkpatrick will show him the places he wants cleaned up he will do so.

ORDINANCE NO. 54 AMENDING CHAPTER 20, ARTICLE I, SECTION 20-25 OF THE CITY CODE, ADDING TRUCK ROUTES ON HOSKINS ROAD, BETWEEN BELHAVEN BOULEVARD AND ROZELLS FERRY ROAD, AND ON REMOUNT ROAD, BETWEEN WEST BOULEVARD AND SOUTH TRYON STREET, ADOPTED.

Mr Hoose, Traffic Engineer, explained the proposed Ordinance to add the following truck routes to Schedule V of Chapter 20, entitled, Traffic:
October 30, 1961
Minute Book 41 - Page 138

Ashley Road, between Tuckasegee Road and Wilkinson Boulevard
Hoskins Road, between Belhaven Boulevard and Rozzelle Ferry Road
Remount Road, between West Boulevard and South Tryon Street
Tuckasegee Road, between Ashley Road and Freedom Drive

Mr. Hoose stated officials of the Truckers Association came to his office six months ago and presented for his consideration a list of streets over which they need truck routes. That surveys were made with relationship to the requests and he believes these to be the most suitable streets and most badly needed routes.

In the discussion of the route over Ashley Road, Councilman Dellinger asked how much truck travel is anticipated? Mr. Hoose stated 500 trucks for 12 hour periods. The close proximity to Ashley Road Elementary School and Harding High School was noted, as well as the thickly populated residential area, and Councilman Albea asked if these truck routes could not go through other than residential areas? Mr. Hoose advised it is impossible to route trucks in and out of Charlotte without touching some residential areas, that in this area, for example, it would be necessary to go as far out as Little Rock Road.

The proposed route over Hoskins Road was then discussed, and Mr. Hoose advised it is for only a short distance of some 700 feet, to connect NC #16 and Interstate #55.

The proposed routes over Remount Road and then Tuckasegee Road were explained and discussed.

Objections to placing a truck route on Ashley Road were expressed and Mr. Hoose pointed out that unless the route over Ashley Road, between Tuckasegee Road and Wilkinson Boulevard was approved, there would be no need for the connector route over Tuckasegee Road, between Ashley Road and Freedom Drive.

Councilman Dellinger moved that the routes over Hoskins Road and Remount Road be approved as requested, and the proposed routes over Ashley Road and Tuckasegee Road be withheld. The motion was seconded by Councilman Thrower.

Councilman Bryant offered a substitute motion that all four suggested routes be approved. The motion was lost for a lack of a second. Councilman Bryant stated situations of this kind will be run into again and again, as schools are dotted all over town.

The vote was taken on the main motion, and carried by the following recorded vote:

He stated the tree is 12 feet inside the street right of way; that the purpose of the widening is to straighten the roadway so it will sit in the center of the right of way, which cannot be done and retain the tree, therefore, the tree must go if the street is to be improved.

Mayor Brookshire asked the City Manager to so advise Mrs Rees.
