Explanation:

- Charlotte Storm Water fees were established in 1995 to provide a comprehensive solution to the drainage problems experienced by the City. The ordinance is intended to ensure that the City is able to meet its ongoing obligations, and to ensure that the City can continue to provide public services.

- The agenda item for this action did not reflect the customary words "approve an ordinance", therefore one was not processed. At a later date, this issue arose and it was determined that the intent for a "text amendment" to be approved was in the action.
