2. Section 10.803, "Development Standards", first paragraph to be amended as follows:

   The following PED Overlay standards and requirements have precedence over the underlying zoning district standards and requirements. The PED development standards shall apply to all buildings or uses in PED unless specified otherwise in Section 10.805.

3. Section 10.803(5), "Maximum height" to be amended to read as follows:

   (5) Maximum height

   The permitted height shall be determined by the distance of the structure from property used and/or zoned for residential purposes. The base height for this district is 40 feet. The building height may increase one foot in height, over 40 feet, for every 10 feet in distance from the property line of the nearest site used and/or zoned for residential purposes, except for property zoned PED, MUDD, or UMUD. For purposes of this Ordinance, distances shall be measured in a straight line from the closest edge of the PED property to the nearest residentially used/zoned property. The intent of this standard is to allow the height of a portion of a structure to increase as the distance from residential properties increases. The maximum height shall be 100 feet.

If a wall is provided, then the area devoted to the wall shall be wide enough to allow for its maintenance. Surface parking lots shall conform to the “Charlotte Tree Ordinance”.

7. Amend Section 10.804(e)(1), “Signs, Banners, Flags and Pennants” to read as follows:

(1) Specifications for permanent signs shall be according to Section 13.108a, except for signs located on any building wall of a structure shall have a maximum sign surface of all signs on one wall not to exceed 5% of building wall area to which the sign is attached, up to a maximum of 100 square feet. Wall signs may be increased by 10% per sign in lieu of a ground mounted or monument sign.

8. Amend Section 10.804(f)(3), “Streetscape Requirements” to read as follows.

3. The Planning Director with the affirmative recommendation of the City Arborist/Urban Forester shall have the authority to modify the above streetscape requirements, including the modification of the planting strip, sidewalk location and width in order to preserve existing trees.

9. Add a new Section 10.804(g), “Valet Parking Standards” to read as follows:

(g) Valet parking may be incorporated into the parking plan, and shall be reviewed on a case-by-case basis. If utilized, the following requirements shall be met:

1. Valet parking shall be located at the existing curb.
2. Valet Parking plans shall be submitted to the Charlotte Department of Transportation (CDOT) for review. Approval of the valet parking plan shall be obtained from CDOT.

3. Valet parking is not permitted on streets or thoroughfares where on-street parking/loading is not permitted.

4. No reduction in the width of the sidewalk or the planting strip is allowed for valet cutouts. If special valet parking is desired, it shall be incorporated into the parking lot or parking structure area.
