Pat Sharkey
City Clerk
WHEREAS, it is in the public interest to reduce hazardous traffic conditions resulting from the use of streets within areas zoned for residential uses for the parking of vehicles by persons using districts zoned for commercial or industrial uses; to protect those districts from polluted air, excessive noise, and trash and refuse caused by the entry of such vehicles; to protect the residents of those districts from unreasonable burdens in gaining access to their residences; to preserve the character of those districts as residential districts; to promote efficiency in the maintenance of those streets in a clean and safe condition; to preserve the safety of children and other pedestrians and traffic safety, and the peace, good order, comfort, convenience and welfare of the inhabitants of the City.

WHEREAS, the public interest would be served by the implementation, in appropriate situations, of a parking permit system;

NOW, THEREFORE, BE IT ORDAINED by the Council of the City of Charlotte:

Section 1: That the Code of the City of Charlotte is hereby amended by adding one new section thereto so numbered and reading as follows:

Sec. 14-185 Designation of parking permit areas.

(a) The Director of Transportation is hereby authorized to designate, by written order, roads, streets and other areas within the City in which the parking of vehicles may be restricted, in whole or in part, during certain specified times, to holders of valid parking permits issued pursuant to this section. The Director of Transportation shall consider the institution of a parking permit system upon receipt of a letter of interest from the residents of a given area as provided herein. The authority granted herein shall be in addition to, and may be exercised in conjunction with, any other authority the Director of Transportation may have to regulate the times and conditions of motor vehicle parking.

(b) Letter of Interest. In order to initiate studies required for determination of a parking permit area, applicants must submit a "Letter of Interest" indicating the problem area, nature of the problem, and any additional details that permit proper analysis. Except as otherwise provided, Letters of Interest will only be accepted from
Exhibit B-2

neighborhood associations, their boards, or from the
official contact person, as identified in "Neighborhood
Organizations" issued by the Charlotte-Mecklenburg
Planning Commission. In the absence of an identifiable
neighborhood organization or contact person, Letters of
Interest will be accepted from un-affiliated persons.

(c) Studies. The designation of a parking permit area shall
take into account, among other things:

(1) The effect on the safety of residents of the area
under consideration from intensive use by non-residents
for parking of vehicles.

(2) The need of the residents of the area to obtain
adequate on-street parking adjacent to or close by
their place of residence.

(3) The difficulty or inability of residents of the
area to secure adequate on-street parking adjacent to
or close by their places of residence because of widespread use of available parking spaces in that area by
non-resident transient motorists.

(4) The impact of major public facilities and programs
on the health, safety, and welfare of the residents of
the area and any unreasonable burdens placed on those
residents in securing adequate on-street parking and
gaining access to their places of residence by virtue
of such facilities and programs.

(5) The likelihood of alleviating, by use of a parking
permit system, any problem of non-availability of resi-
dential parking spaces.

(6) The desire of the residents in the area for the in-
stitution of a parking permit system and the willingness
of those residents to bear the administrative costs
incidental to the issuance of permits authorized by this
section.

(7) The fact that the residents of a contemplated parking
permit area have contributed to the cost of construction
and/or improvement of streets and roads in such area
either by the direct assessment of costs or indirectly to
the extent such costs are reflected in purchase or rental
prices paid by those residents.

(8) The need for some parking spaces to be available in
the area under consideration for use by visitors and the
general public.

Exhibit B-3

(9) Such other factors as the Director of Transportation shall deem relevant.

(d) Public hearing.

(1) Following the completion of studies to determine the fulfillment of the specified standards for residential parking permit areas, the Director of Transportation or his designee shall conduct, prior to the designation of parking permit area, or prior to the withdrawal of such designation once it is established, a public hearing at which time any interested person shall be entitled to appear and be heard. Such hearing shall be held only after due notice has been given by posting as appropriate notices or signs within the area of concern of the proposal.

(2) Within 45 days following the close of the public hearing, the Director of Transportation shall decide, based on the record of that hearing, and studies authorized by him, whether or not to designate the area under consideration as a parking permit area or to remove the designation in the case of an established parking permit area.

(e) Petition.

(1) After designation of the parking permit zone by the Director of Transportation, residents within a particular district or a distinct portion of a district in which residential uses are permitted may petition the Director of Transportation for the establishment of an on-street permit parking district. Such petitions shall be on forms prepared and promulgated by the Director of Transportation, or his designee. Petitions shall be submitted to the Director of Transportation, or his designee, who shall determine their sufficiency. Any insufficient petition shall be remanded to the individual submitting it, with instructions for correction of deficiencies.

(2) No petition shall be deemed sufficient unless the same be signed by representatives of 75 percent of the households within the proposed parking district for implementation of restrictions.

(f) Action of petition. When a petition has been found to be sufficient by the Director of Transportation, or his designee, the appropriate parking restrictions will be installed.
(g) Designation of parking permit area. Following the designation of a parking permit area by the Director of Transportation, he shall cause to be posted parking signs in the area, indicating the times, locations and conditions under which parking shall be by permit only.

(h) Decals. The Director of Transportation shall have authority to promulgate regulations necessary to the administration of this program including but not limited to the issuance, display, renewal, revocation, and replacement of decals, and the establishment of reasonable fees for the users of the program.

(i) Enforcement. Governmental enforcement of parking regulations shall not be effective until thirty days after signs delineating the parking restrictions have been posted. Emergency and service vehicles when on a call or delivery shall be exempt. Purchase of a parking decal or display of one will not guarantee the holder of a parking place nor exempt a vehicle operator from any City code regulation governing parking on City streets.

(j) Violations and penalties. No person shall park any vehicle or use any parking permit in a manner contrary to the provisions of this ordinance or any regulations promulgated pursuant to this ordinance and any person parked in violation of any regulation or sign in any district shall pay a civil penalty as provided in 14-81, and any motor vehicle so parked may be towed by or at the direction of any City personnel authorized to do so by the Chief of Police or Director of Transportation.

Section 2. - That the Code of the City of Charlotte is hereby amended by adding one new subsection to Section 14-81 (a) thereto so numbered and reading as follows:

(20) Violating restrictions in neighborhood parking permit area.................................................$15.00.

Section 3. - That this ordinance shall take effect from and after the date of adoption by Council.
