Nothing contained in this section shall authorize a driver or chauffeur to refuse or neglect to transport any person as a pretext to the driver’s or chauffeur’s noncompliance with the provisions contained in section 22-20(h) and (i) of this section.

(k) No company operating certificate holder, vehicle operating permit holder, driver or chauffeur shall knowingly use, sell, handle or transport illegal or controlled substances at any time while operating a passenger vehicle for hire or limousine. DIVISION 2. COMPANY OPERATING CERTIFICATE

Sec. 22-31. Required.

No person shall operate any passenger vehicle for hire or limousine in the City without first having obtained a company operating certificate authorizing the operation of such business.

Sec. 22-32. Issuance.

(a) The City Council authorizes the city manager, or his or her designee, to issue a company operating certificate to any applicant or applicants, subject to such conditions as the City Council may deem advisable or necessary in the public interest, and upon payment of a regulatory fee provided by section 22-46 of this article. A separate company operating certificate shall be required for a taxicab company, each class of passenger vehicle for hire company and a limousine company. The authorization, granted by the company operating certificate to operate a taxicab company, limousine company or other class of passenger vehicle for hire company, shall be restricted to the use designated and approved in the company operating certificate. A company operating certificate shall be valid for a period of one (1) year and may be renewed annually upon the approval of the city manager, or his or her designee, and the payment of the regulatory fees provided by section 22-46.

(b) No company operating certificate shall be issued to or renewed by any person who shall not have fully complied with all of the requirements of this article before the commencement of the operation of the proposed service.

(c) No company operating certificate shall be issued or renewed unless the applicant presents a financial statement to the passenger vehicle for hire manager verifying that the applicant has sufficient funds to operate the minimum number of vehicles set forth in paragraph (d) of this section for each type of use. The financial statement shall be in the name of the passenger vehicle for hire or limousine company requesting the certificate and any bank accounts identified on the financial statement shall have been opened for at least 30 days prior to the certificate application date.

In addition, the applicant shall provide a written statement verifying that the applicant is not currently a named party to any bankruptcy proceeding and that the applicant has not been a named party to any bankruptcy proceeding within seven (7) years prior to the date of the certificate application date.
(d) Each company operating certificate shall specify the type of passenger vehicle(s) for hire or limousine(s) which the company operating certificate holder is authorized to operate under that certificate. No passenger vehicle for hire company or limousine company shall operate in a manner except as authorized by the company operating certificate. In addition, no company operating certificate shall be issued to or renewed by any company that shall not have maintained and operated the following minimum number of vehicles for each type of use:

Thirty (30) taxicabs; or one (1) non-metered passenger vehicle for hire; or one (1) contract vehicle; or one (1) special needs vehicle; or one (1) shuttle van; or one (1) limousine or such other number equivalent to the number of vehicle operating permits requested. However, the minimum number of taxicabs required for a company operating certificate holder to operate shall vary based on the following number of accessible vehicles owned, maintained or operated by the company operating certificate holder. Therefore, to obtain a company operating certificate to provide taxicab service, a company must have:

- A minimum of thirty (30) taxicabs, if the company has no accessible vehicles;
- A minimum of twenty-five (25) taxicabs, if the company has one (1) accessible vehicle;
- A minimum of twenty (20) taxicabs, if the company has two (2) accessible vehicles;
- A minimum of fifteen (15) taxicabs, if the company has three (3) accessible vehicles;
- A minimum of ten (10) taxicabs, if the company has four (4) accessible vehicles; or
- A minimum of five (5) taxicabs, if the company has five (5) accessible vehicles.

Pursuant to the provisions of section 22-102 of this article and upon the recommendation of the passenger vehicle for hire board and approval by the City Council, the City may impose limitations on the number of company operating certificates, vehicle operating permits or drivers’ or chauffeurs’ permits and may require a minimum number of accessible vehicles for companies providing taxicab service.
The provisions of this section shall not apply to the renewal of any company operating certificate occurring earlier than one (1) year following the effective date of this ordinance; however, in that event, the provisions of this section shall apply one (1) year from the date of the first renewal period after the effective date of this ordinance.

(e) When the company operating certificate has been issued for a passenger vehicle for hire company or limousine company pursuant to this article and a vehicle operating permit has been authorized for a vehicle for hire or limousine pursuant to the terms of this article, and, with respect to taxicabs, upon determination by the passenger vehicle for hire manager that the color scheme for the taxicab company is sufficiently distinctive not to cause confusion with other taxicabs already operating, the passenger vehicle for hire manager, upon the receipt of a fee for each vehicle operating permit and for each vehicle decal pursuant to section 22-46 of this article, will issue for each passenger vehicle for hire and limousine, a vehicle operating permit and numbered vehicle decal.

A vehicle decal shall be affixed to the inside lower left windshield portion of the passenger vehicle for hire for which the vehicle operating permit is issued, in plain view from the rear of the passenger vehicle for hire. Limousines, as defined in section 22-16 of this article, shall display a numbered vehicle decal on the left rear bumper of the vehicle for which the vehicle operating permit is issued, in plain view from a position located behind the vehicle. Any loss, destruction or defacement of the vehicle decal shall be reported to the passenger vehicle for hire manager.

No vehicle shall be operated without a vehicle decal affixed thereto and issued pursuant to this paragraph of this section unless, pursuant to this division, the vehicle's use as a passenger vehicle for hire or limousine has been authorized and the driver or chauffeur of the vehicle has been authorized to drive a passenger vehicle for hire or limousine for the company operating certificate holder to whom the vehicle decal was issued.

(f) The privilege of engaging in the business of operating a passenger vehicle for hire or limousine in the City authorized in the company operating certificate is personal to the company operating certificate holder and limited to the specific type of vehicle permitted therein. The rights, requirements and responsibilities which attach to the company operating certificate remain with the holder at all times that the passenger vehicle for hire or limousine is operating in the City under the authority of the company operating certificate. These rights, requirements and responsibilities which include, but are not limited to, the requirements of this article, will remain unaffected by any agreement or contractual arrangement between the company operating certificate holder, vehicle operating permit holder and/or driver or chauffeur not authorized by this article, regardless of the form or characterization of the agreement between the company operating certificate holder, vehicle operating permit holder and/or driver or chauffeur.
(g) The company operating certificate holder shall, in the case of any change in business address or telephone number, notify the passenger vehicle for hire manager in writing of such change within forty-eight (48) hours prior to the effective date of the change.

(h) Before allowing a driver or chauffeur to operate under a company operating certificate, the company operating certificate holder shall review the qualifications of the driver or chauffeur to operate a passenger vehicle for hire or limousine. No company operating certificate holder shall permit or allow any driver or chauffeur to operate a passenger vehicle for hire or limousine under the company operating certificate if, after reasonable inquiry by the certificate holder, it appears the driver or chauffeur to operate a passenger vehicle for hire or limousine fails to comply with the provisions contained in this article.

The failure of a passenger vehicle for hire or limousine company to comply with this section shall subject the company’s company operating certificate to revocation or suspension as provided in section 22-42(a)(1). Nothing herein shall be construed as establishing a standard for civil liability for the evaluation of prospective or current passenger vehicle for hire drivers or limousine chauffeurs and a violation of this section shall not be considered as evidence of negligence.

Sec. 22-33. Authorization to operate a taxicab under company operating certificate.

Nothing contained in this article shall prohibit any person from owning or operating a taxicab under a company operating certificate, provided:

(a) A person shall operate under the color scheme of a company operating certificate and use the company’s depot or terminal, dispatcher service, radio equipment and meter;

(c) A person shall have a valid vehicle operating permit, as provided in Division 3 of this article, and the vehicle shall display a valid vehicle decal; and

(d) A person shall be affiliated with a company operating certificate holder at all times.

(7) The applicant shall swear that the information submitted is neither false nor misleading. Submitting, or causing to be submitted, false or misleading information is unlawful and shall be grounds for denial of a company operating certificate.

(8) In providing information required by subsections (1), (5) and (6), an applicant may simply refer to previous applications and reference previously submitted documents or information, provided there has been no change with respect to the documents or information.

(b) Reserved.

   - Sex offenses;
   - Felonious drug offenses;
   - Prostitution;
   - Felonies involving violence or attempted violence; and/or
