An ordinance amending Chapter 23 of the City Code - Zoning

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF CHARLOTTE:

Section 1. Chapter 23, "Zoning" of the Code of the City of Charlotte is amended as follows:

1. Amend Article III Division 3. Conditional Zoning Districts and Special Use Permits Section 23-35.4 by adding a new paragraph (j) as follows:

"(j). 1. Innovative Development. Paragraphs (e) and (i) above refer to minimum development standards for planned unit developments. However, it may be desirable from time to time to consider and evaluate new and innovative development concepts in a planned unit development setting in order to first insure the acceptability and appropriateness of such concepts before potentially adopting their general use on a more widespread basis. It is an objective of the Planning Commission to encourage innovative development that exhibits special qualities and such development concepts may deviate from standard ordinance requirements if the design of the proposed development justifies its approval. The Planning Commission is hereby authorized to review and approve innovative development proposals.

2. The intent of these provisions is to provide a mechanism to evaluate each application on its own merit. Furthermore it is recognized that some concepts will be more successful than others and the approval of an application in one situation does not necessarily indicate the development will be applicable in other situations. Finally it should be emphasized that these provisions are not to be confused with nor designed to circumvent the normal variance process as described in Section 23-95 of this ordinance and Section 18-27 of the Charlotte Subdivision Ordinance. These provisions are designed to evaluate only those innovative concepts that proposed to meet a community need that would not otherwise be met or provided. Therefore, the opportunity for innovative development may be included as an integral part of planned unit developments. Only certain development standards as listed below may be modified under these provisions.

1. lot area
2. lot width
3. frontage on a public street
4. setback and yards
5. building separation
6. height of fences or walls
7. off-street parking
8. open space
3. In addition, in accordance with the provisions of Section 18-4.1. of the Charlotte Subdivision Ordinance, the following subdivision standards may also be modified under these provisions.

1. street right-of-way
2. sidewalks
3. curb and gutter
4. street type (public or private)

4. Because of the special nature of these provisions it is desirable to limit the size of the area proposed for innovative development so as to insure the appropriateness of land use relationships to adjoining property, while at the same time providing the needed flexibility that is essential to the success of these provisions.

Thus, the maximum area that may be considered under these provisions in any planned unit development shall be a total of thirty-six acres. This may be accomplished through a single application involving thirty-six acres or through a series of smaller areas whose combined total does not exceed thirty-six acres.

5. In applying for approval of an innovative development concept the applicant shall include, by letter to the Director of Planning, a statement of intent outlining the purpose and objectives of the proposed development, which particular development standards are being modified, what special design features or amenities are being incorporated into the plan which make the proposed development significant and worthy of approval, and any other applicable information that the applicant may deem appropriate. In addition the applicant shall submit a site development plan drawn to scale showing the following information.

1. proposed lot configuration(s)
2. proposed specific building location(s)
3. proposed vehicular circulatory system and off-street parking arrangements
4. proposed pedestrian or open space system
5. proposed building exterior elevations
6. proposed screening, including fences, walls, or planting areas
7. proposed treatment of any existing significant natural features.

The Planning Commission or the Director of Planning may require additional information as they deem necessary for an adequate review of the proposed development, such as but not limited to: individual dwelling unit concepts, intended use and design of the open space network, recreational amenities, and the like.

6. In evaluating an application for innovative developments the Planning Commission shall have considered whether or not the development plan:

1. accomplishes objectives as specified in the statement of intent;
2. exhibits special, atypical design features and thoughtful, imaginative use of the land;
3. provides for reasonable and appropriate land use relationships, both within the development itself and to surrounding areas adjacent to the development; and
4. provides the community with a beneficial, alternative design concept which is potentially applicable in other community situations.
7. If the Planning Commission disapproves an application for an innovative development, the grounds for such disapproval shall be stated upon the records of the Planning Commission and any appeal from the decision of the Planning Commission shall be taken to the City Council.

2. Amend Article III Division 3. Conditional Zoning Districts and Special Use Permits Section 23-35.4 by re-designating the existing paragraph (j) to (k).

3. Amend Article VII Division 3. City Council and Planning Commission by adding a new Section 23-96.1 Modification of Development Standards as follows:

Section 23-96.1 Modification of Development Standards. Within planned unit development districts certain development standards regulated by this ordinance and specifically listed below, may be modified by the Planning Commission under the provisions of Section 23-35.4 (j).

1. lot area
2. lot width
3. frontage on a public street
4. setback and yards
5. building separation
6. height of fences or walls
7. off-street parking
8. open space

Section 2. That this ordinance shall become effective upon its adoption.
