BE IT FURTHER RESOLVED that this resolution shall be effective on December 21, 1970.

APPROVED AS TO FORM:

Read, approved and adopted by the City Council of the City of Charlotte, North Carolina, in regular session convened on the 21st day of December, 1970, the reference having been made in Minute Book 54, at Page 437, and recorded in full in Resolution Book 7, beginning on Page 216.

WHEREAS, the City Council of the City of Charlotte, by this resolution dated Dec. 21, 1970, does support the action taken by the eight (8) participating organizations\(^1\) on December 6 in Atlanta at the annual National League of Cities meeting.

WHEREAS, the federal government controls the broad based income tax and through it, the major share of the public wealth; and

WHEREAS, through its wealth and policies, the federal government controls the ability of states and more importantly of municipalities to raise operating revenues and finance capital improvements;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Charlotte in its regular meeting of that said body concurs with the following basic principles as agreed upon by the participating organizations:

- Revenue sharing should be a percent of the federal income tax base
- It should be a substantial amount
- There should be a continuing and predictable annual commitment
- The revenues should be for general purpose — state and local governments

---

\(^1\) ICMA, National Governor's Conference, the National Legislative Conference, the National League of Cities, the National Association of Counties, the National Conference of State Legislative Leaders, the National Society of State Legislators, and the U. S. Conference of Mayors.
The revenues should be unrestricted as to use
-- The revenues should be allocated to states on a
    formula basis as presently
-- The states should share with local governments in
    accordance with a prescribed formula or process

The Charlotte City Council by its endorsement of this plan does so
in the belief that the plan as outlined would —

A. Give cities access to tap sufficient traditional and new revenue
   resources to finance comprehensive city programs and services.

B. Relieve or avoid placing undue tax burdens on individuals and
   classes of taxpayers.

C. Eliminate fiscal disparities among cities and other local units
   of government and reduce the competition for local tax revenue.
