INTERLOCAL AGREEMENT FOR ROAD IMPROVEMENTS AT THE CHARLOTTE-
MECKLENBURG SCHOOLS GOVERNORS VILLAGE CAMPUS

This Interlocal Agreement (the "Agreement") is made and entered into as of the _____ of June, 2015, between The Charlotte-Mecklenburg Board of Education ("CMBE") and the City of Charlotte, a North Carolina municipal corporation (the "City"), (jointly, the "Parties").

RECITALS

WHEREAS, the City is designing and intends to build a road improvement project to extend the existing University Pointe Boulevard to IBM Drive for the purpose of improving vehicular, pedestrian and bicycle travel (the "Project"); and

WHEREAS, as part of the Project, the City requires certain right-of-way across the property owned and operated by CMBE known as Zebulon Vance High School and James Martin Middle School (individually, the "Vance School Site" and "Martin School Site", respectively, and collectively, the "School Site"); and

WHEREAS, as part of the Project, the City plans certain new road-related improvements including a new public road, a private access road, a bridge over I-85, a roundabout at the intersection of IBM Drive and the new University Pointe Boulevard extension, paved bicycle and traffic lanes, curb and gutter, planting strips, sidewalks, a new culvert over Doby Creek, and driveway and parking lot improvements as further identified on "Exhibit A", attached hereto and incorporated herein by reference; and

WHEREAS, CMBE desires to cooperate with the City for the benefit of the City and the community as a whole and the City desires to fairly compensate CMBE for land taken to complete this project; and

WHEREAS, the Parties desire to establish and set forth in this Agreement the general responsibilities and obligations of the Parties for the construction of the Project:
NOW, THEREFORE, in consideration of the foregoing recitals and mutual covenants contained herein, the parties hereto agree as follows:

The City will:

1. Produce and submit to CMBE Operations staff for review and approval signed and sealed engineering design plans ("Design Plans") for the Project; said Design Plans to be certified by the City to provide for sufficient turn lanes, sight distances and on-site stacking, where sufficient shall mean “no less than what a professional engineer’s standard of care would be as found in the 2011 edition of the American Association of State Highway and Transportation Officials’ *A Policy on Geometric Design of Highways and Streets*, also known as the “Green Book”, such that the School Site and the use thereof is in compliance with any applicable laws and ordinances including driveway permitting requirements that may be applicable to the School Site. It is the intent of the City that the final design shall create a system of access for the school use of the School Site such that no future road improvements will be required by the City for CMBEs use of the School Site for its current use as a high school and a middle school having a similar number of students as it now has (approximately 1,100 middle school students and approximately 2000 high school students) and that the City would issue a driveway permit to CMBE if the School Site access and driveways were developed in the manner proposed by the City in connection with this Project).

2. Produce and provide to CMBE plats, signed by a professional land surveyor (as defined by NCGS Chapter 89C), showing the rights-of-way, easements and fee simple areas on the School Site necessary for construction of the Project (the “Plats”).

3. Secure all necessary consents and approvals from Duke Energy for work associated with the Project.

4. Secure all necessary consents, permits, easements, and encroachments from the North Carolina Department of Transportation, North Carolina Department of Environment and Natural Resources, and/or other regulatory bodies for work associated with the Project.

5. Construct the improvements on School Site in accordance with the approved Design Plans.

6. Be responsible for costs of all work contracted by the City for this Project, including, but not limited to, those associated with any utility relocation (and ensure that none of these costs are the responsibility of the CMBE).

7. Complete certain improvements on the School Site to mitigate the impacts of
the Project including a new parking lot area, a new private access driveway from Neal Road, with a traffic signal, as more specifically described on Exhibit B attached hereto and incorporated herein by reference, and to be installed no later than June 9, 2016, such date being contingent on item # 10 below.

8. Schedule construction of the Project at dates and times mutually satisfactory to CMBE Operations staff and City staff such that pick-up and drop-off times are not disrupted by construction activity, and that disruptions to other school functions are minimized as much as possible. A proposed schedule and phasing plan, and contingency plan are attached hereto as Exhibit C. In no event shall access be limited on school days, including both before and after school hours.

9. Compensate CMBE the appraised fair market value, as determined by an independent MAI appraiser, for the property rights acquired in the amount of $388,275.00.

10. Install a traffic signal at the Neal Rd./school access road intersection. The CMBE will be required to dedicate any necessary rights-of-way and easements for property under its control in order for the City to install this signal, as specified in Item 1 under the section entitled “CMBE Will”, below.

11. Upon request, provide CMBE with technical data showing predicted levels-of-service of the roundabout at the IBM Drive/University Pointe Boulevard intersection, for the opening and/or design years of the project.

12. Reconfigure the front parking lot of Martin Middle School to accommodate a vehicle queue of approximately 2070 feet, in excess of the 2003 feet recommended by the NCDOT N.C.School Queue Calculator for a middle school of 1200 students, but without eliminating any existing parking spaces.

13. Perform traffic signal warrant studies at the intersection of Vance High School and University Pointe Boulevard at post- Project completion intervals of 30 days, 3 months, and 6 months. Should any study show that a traffic signal is warranted, the City will, at its own expense, install the traffic signal within 30 days after the study has been received by the City. The process of determining whether the traffic signal is warranted is more fully described in a letter dated July 20 from Danny Pleasant to Ann Clark, a copy of which is attached hereto as Exhibit D. Should CMBE determine that a crossing guard at this intersection is necessary, the City will pay 50% of the cost of a guard for 7 months after the roadway is open to traffic.

14. Make improvements to an existing storm water detention pond to make it a size sufficient to treat 4.07 acres of impervious area. The pond will be necessary to treat 2.75 acres of City property and should therefore have excess capacity to treat an additional 1.32 acres of additional impervious property in the future.

Notwithstanding the foregoing, the City's inability to commence the Project for any
reason shall not constitute a breach of this Agreement, nor result in any City liability to CMBE or third persons, whatsoever (but once the Project is commenced the City is required to comply with this Agreement and shall be liable for any breach.

CMBE will:

1. Convey to the City those rights-of-way, easements, and fee simple areas on the School Property which are necessary to construct the Project as shown on the Design Plans, and as provided herein.

2. Make the above-described conveyances within fifteen (15) days after the day by which: a) the City has provided CMBE staff with final deeds, easements and Plats, and b) the City and CMBE have approved this Interlocal Agreement.

3. Accept the return of rights of way, easements, and/or fee simple areas from the City in the event that the Project is not constructed as anticipated.

IN WITNESS WHEREOF, the parties hereto have caused this Interlocal Agreement to be executed as of the date first written above.
