| STAFF RECOMMENDATION | <p>Staff recommends approval of this petition upon resolution of outstanding issues related to transportation, site and building design, and requested technical revisions.</p> <p><u>Plan Consistency</u> The petition is inconsistent with the adopted <i>Belmont Area Revitalization Plan</i>, which recommends single family uses at a density of up to five units per acre.</p> <p><u>Rationale for Recommendation</u></p> <ul style="list-style-type: none"> • The <i>Belmont Area Revitalization Plan</i> reflected the community's desire to maintain and upgrade the convenience-type retail services located in the neighborhood and also create additional, accessible retail nodes. • Through the plan development process, one recurring issue noted was the need for new commercial development convenient to residents, as opposed to some existing businesses at the time that did not serve the needs of residents (i.e. liquor stores). • Therefore, the adopted plan recommended that several of the existing corner store sites, including the subject property, transition into single family residential or other more compatible uses with the established development pattern. • However, this site is developed with a commercial structure that is being considered for status as a Historic Landmark by the Historic Landmarks Commission. The rezoning proposes reuse of the existing structure known as the Red Front Department Store built in 1902. • As proposed, the rezoning will allow uses that will complement the established neighborhood, and the petition notes that food will be sold in any establishment where alcohol is sold on site. • In addition, this property is located adjacent to an existing non-residential building with current tenants and across the street to an industrial site along Belmont Avenue. |

PLANNING STAFF REVIEW

- **Proposed Request Details**
The site plan accompanying this petition contains the following provisions:
 - Retains the existing 6,048-square foot (3,024-square foot heated) building to allow eating/drinking/entertainment establishments (Type 2), a brewery, coffee shop, exercise gym, general office, retail and/or residential uses. Outdoor entertainment associated with any use will cease at 11 p.m., and food will be offered for sale if alcohol is sold on site.
 - No parking will be located between the principal building and the public streets.

- The existing building will be allowed as the principal building, and enclosed accessory buildings shall not exceed 600 square feet.
- Site access via two one-way driveways on Belmont Avenue.
- Building finishes will include brick, stone and/or other masonry products and cementitious siding or other durable siding materials. Plastic or metal material may be used for incidental architecture details including windows, doors and trim details. Vinyl will not be used as siding material.
- A 14-foot wide sidewalk will be provided between the existing principal building and the first driveway on Belmont Avenue.
- Optional Provisions:
 - Allow parking at a rate of one space per 400 square feet of the principal building, regardless of use.
 - Any buffering required between the site and abutting single family use or zoning may be satisfied by providing a six-foot high "living screen" along the rear property line abutting tax parcel 081-127-03. The "living screen" will be wire mesh that is six feet tall with evergreen climbing vegetation or pressure treated posts with a minimum of six strands of stainless steel wire space horizontally with evergreen climbing vegetation (additional details are provided in the site plan notes).
 - Historic Landmarks requirements for windows shall supersede zoning ordinance requirements that may conflict with maintaining the historic character of the building, such as when the zoning ordinance may not require new window openings in conflict with maintaining historic character of the building.
- **Existing Zoning and Land Use**
 - The subject property is currently developed with a grandfathered retail use.
 - Surrounding properties located on the west side of Belmont Avenue are zoned R-5 (single family residential) and I-1(CD) (light industrial, conditional) and are developed with single family detached, duplex and triplex dwelling units, and an industrial warehouse.
 - Properties on the east side of Belmont Avenue are zoned R-5 (single family residential) and developed with single family detached, duplex, and triplex dwelling units, and various retail uses.
 - See "Rezoning Map" for existing zoning in the area.
- **Rezoning History in Area**
 - There have been no rezonings in the immediate area in recent years.
- **Public Plans and Policies**
 - The *Belmont Area Revitalization Plan* (2003) recommends single family residential uses at a density of up to five units per acre.
- **TRANSPORTATION CONSIDERATIONS**
 - The site is at the unsignalized intersection of two streets classified as minor collector streets. CDOT continues to have concerns about the proposed driveway which creates multiple breaks in the pedestrian path along the relatively short site frontage.
 - See Outstanding Issues, Notes 1 and 2.
 - **Vehicle Trip Generation:**
 - Current Zoning:
 - Existing Use: 1,100 trips per day (based on 6,050 square feet of retail uses).
 - Entitlement: 1,100 trips per day (based on 6,050 square feet of retail uses).
 - Proposed Zoning: 1,100 trips per day (based on 6,050 square feet of retail uses).

DEPARTMENT COMMENTS (see full department reports online)

- **Charlotte Area Transit System:** No issues.
- **Charlotte Department of Neighborhood & Business Services:** No issues.
- **Charlotte Fire Department:** No parking on roads less than 26 feet clear width.
- **Charlotte-Mecklenburg Schools:** Non-residential petitions do not impact the number of students attending local schools.
- **Engineering and Property Management:**
 - **Arborist:** No trees can be removed from or planted in the right-of-way of Belmont Avenue or Pegram Street without permission of the City Arborist's office. Petitioner must submit a tree survey for all trees two inches or larger located in the right-of-way, and the survey shall include all trees eight inches or larger in the setback.
 - **Erosion Control:** No issues.

- **Land Development:** No issues.
- **Storm Water Services:** No issues.
- **Urban Forestry:** No issues.

- **Charlotte Water:** Charlotte Water has water system availability via an existing eight-inch water distribution mains located along Pegram Street and Belmont Avenue, and sewer system availability via existing eight-inch gravity sewer mains located along Pegram Street and Belmont Avenue.
- **Mecklenburg County Land Use and Environmental Services Agency:** No issues.
- **Mecklenburg County Parks and Recreation Department:** No issues.

OUTSTANDING ISSUES

Transportation

1. Revise the site plan to show one two-way driveway, in lieu of the two one-way driveways.
2. Revise the site plan to add a note specifying dedication and fee simple conveyance of all right-of-way to the city before the site's first building certificate of occupancy is issued. CDOT requests that right-of-way set at the back of sidewalk.

Site and Building Design

3. Add note that building facades will be articulated with store front windows, canopies, porches, cornices, roof lines, and window details to avoid blank facades and encourage active pedestrian use.
4. Provide the proposed "living screen" buffer alternative along the property boundary abutting tax parcel 081-127-06.
5. Amend Note 2(c) to specify the MUDD (mixed use development) district requirements for which options are requested.
6. Remove "coffee shops" from the list of permitted uses and replace with "neighborhood food and beverage" uses.

REQUESTED TECHNICAL REVISIONS

Site and Building Design

7. Specify the width of the existing sidewalk fronting the subject property on Pegram Street.
