Where Are We Going, Where Have We Been?

We began our day with paired interviews using the “Where Are We Going, Where Have We Been?” activity. The activity was intended to help us reflect on:

- What we value
- What are the best things about our community and the people who live here
- What are our past successes
- Where are the potentials and possibilities

After interviewing our partners we shared our discussion with the group, finding commonalities in our conversations.

Where We Were: Reflecting on our past, what were some of the best/worst moments?	Where We Are: Why would or wouldn't a person/business want to move into our community?	Where We Want to Be: If you could make 3 wishes to make our community flourish, what would they be?

Our Vision

Our vision is the unifying statement for our community that will guide our decision making and reminds us of what we are trying to reach. It is based on our shared values and preferences for our community's future. It combines the best of what was, what is, and what could be.

OUR VISION:

Moore's Chapel Village seeks to foster friendships where engaged families and businesses can grow together while maintaining connections with surrounding communities

Strategic Priorities

After committing to a shared vision, the board began to brainstorm on strategic priorities. This is where we began to define what is most important to us in order to achieve our vision. Strategic priorities are initiatives that will help us move closer to our vision of our community. The idea is to focus on a few things and do them very well as opposed to many things and missing the mark.

We started out thinking big and then narrowed down our focus using the Affinity Mapping Process, detailed below:

- Grab some sticky notes from the table. Keeping the vision statement in mind, write down as many of the following as you can think of, one per sticky note:
 - Current action items getting you closer to our vision.
 - Possible priorities/actions items to get us closer to our vision.
- Place the sticky notes on the wall.
- Organize the ideas by natural categories, once everyone agrees on the groups, give each one a name.

This activity led us to the following categories and action items being identified as important within our community:

- Category 1 Engagement
 - Engage families through town hall meetings, emails or newsletters
 - Police involvement and relationships
 - Adopt a street
 - Hold family fun events
- Category 2 Amenities
 - Build a playground/playspace
 - Greenways
 - Engage with potential developers
 - Build a community center
- Category 3 Safety
 - Better lighting
 - Speed bumps/traffic calming

Each participant was provided three (3) stickers to be used for voting. Stickers could be placed all on one or two items or shared amongst all of the ideas identified. The three categories receiving the most votes are the strategic priorities that are most important for us to begin working on to achieve our vision. Within these three categories, there were three activities selected as most impactful toward achieving our strategic priorities.

The strategic priorities and activities are summarized on the following page.
