Is this location receiving a License from the State of North Carolina? YES NO License# _____

State Agency regulating this location? _____

State Agency Contact Person: _____ Phone # _____

City of Charlotte Zoning Ordinance requirements for Adult Care Home/Center and Group Homes:

Adult care center: A facility where an individual, agency or organization provides supervision or care for more than 6 adults in a place other than their usual place of abode.

Adult care home: A home where an individual provides supervision or care for no more than 6 adults in their home.

Group home: A group home as used throughout this ordinance, means a "family care home" as defined in Chapter 168, Article 3, of the General Statutes. A group home means a home with support and supervisory personnel that provides room and board, personal care and habilitation service in a family environment for not more than six resident handicapped persons. A handicapped person means a person with a temporary or permanent physical, emotional, or mental disability, including, but not limited to mental retardation, cerebral palsy, epilepsy, autism, hearing and sight impairments, emotional disturbances and orthopedic impairments but not including mentally ill persons who are dangerous to others as defined in G.S. § 122C-3(11)b. In addition, a group home shall also mean a residential use, even if it does not conform to the language above, that provides a residential environment for no more than six residents which may require various services, living assistance, or supervision but does not include any facility that provides medical services requiring or comparable to on-site, nursing, physician, or medical care for the occupants which is only permitted in a dependent living facility or health. All group homes must comply with all applicable Federal, State, local licensing requirements and health regulations. The limit of 6 residents applies to group homes located in single family districts. Group homes located in any other district may house up to 10 residents.

Section 12.502 Adult care homes, adult care centers, childcare centers, childcare centers in a residence, family childcare homes, and large childcare centers.

(5) Adult care centers and homes, registered with the North Carolina Department of Human Resources, may be established as a principal use or as an accessory use in the multi-family, institutional, office, business, UMUD, U-I and I-1 districts and as an accessory use in the I-2 district. An adult care home may be established as a permitted use in the single-family district. All facilities must meet the setback, yard and height requirements, which will be the minimum, required for the district in which it is located.

Section 12.517 Group Homes.

This ordinance provides for the location of group homes in a wide variety of residential and nonresidential districts. However, the public has an interest in assuring that a concentration of group homes within neighborhoods or along streets in residential districts be minimized. Accordingly the following standard will apply to the location of group homes in single family residential districts. **New group homes must be separated from existing group homes in a single family residential district by a distance of 800' measured from the closest point of each lot property line in a straight line.** This standard will not apply in circumstances when the sites are separated by a major thoroughfare, major topographical feature such as a major stream floodway, or by major non-residential or public uses such as a park school, church, or shopping or office area.

Applicant is eligible to receive zoning compliance for a *Adult Care Home/Center* or a *Group Home* located at the above physical address. A final zoning inspection will be scheduled after the applicant meets all requirements for zoning compliance under a Zoning Use Permit issued for this location.

I, the undersigned, have read the above requirements and understand that I must comply in order to be permitted for an Adult Care Center/Home or Group Home.
