Requirements For Bidders

The City awards rehabilitation bids to the lowest responsive and responsible bidder. A responsible bidder for the safe home program is one who:

1) Is a licensed general contractor in the State of North Carolina;

2) Has an Renovate, Repair & Paint Certification (http://www2.epa.gov/lead/renovation-repair-and-painting-program);

3) Is not listed on a local, state or federal debarment list;

4) Carries an appropriate amounts of insurance;

5) Can provide references verifying the contractor has completed work of a similar scope in a good workmanship like manner or successfully completed prior work for the Safe Home program. Referenced work must have been completed in one year or less from date of this invitation to bid.

A responsive bidder must:

1) Submit all requested documentation on time;

2) Meet the above requirements for responsibility at the time of bid submittal;

3) Have the capacity to meet the required schedule for the project.

4) Existing rehab projects contracted by the contractor must be on schedule.

The City reserves the right to waive any minor informalities or irregularities, which do not go to the heart of the bid submittal or prejudice other offers, or to reject, for good and compelling reasons, any or all bid submittals.

Rehabilitation Specialist
City of Charlotte
Neighborhood and Business Services
600 E. Trade St.
Charlotte, NC 28202
PH: (704) ________
Fax: (704) ________
Instructions to Bidders

Explanations to Bidders

Any explanation desired by a Contractor regarding the meaning or interpretation of the advertisement for bids, drawings, specifications, etc., must be requested in writing to the Rehabilitation Specialist with sufficient time allowed for a reply to each Contractor before the submission of their bids. Any interpretation made will be in the form of an addendum to the invitation for bids, drawings, specifications, etc., and will be furnished to all prospective Contractors. The Contractor must acknowledge any revision to the bid documents in the space provided on the bid form and it must be submitted with their bid package.

Preparation of Bids

Bids shall be submitted on the forms furnished, or copies thereof, and must be manually signed. If erasures or other changes appear on the forms, the person signing the bids must initial each erasure or change

- The Contractor’s Bid Proposal must be properly executed and submitted on the form provided. Bids by Contractors must be received by the Rehabilitation Specialist at the time and place specified on the “Invitation to Bid”
- No bid will be considered unless all individual work items on the Bid Form including any addendums are priced. The sum of all work items must equal to the Total Bid Amount.
- Unless called for, alternate bids will not be considered
- Modification of bids already submitted will be considered if received at the office designated in the invitation for bids by the time set for opening of bids

Submittal of Bids

- Sealed bids will be submitted to the Safe Home Program Office as directed in the invitation to bid prior to or at the appointed bid opening time
- Bid will be time stamped on the date of delivery
- Each bid must be submitted in a sealed envelope bearing on the outside the name of the Contractor, the name of the project for which the bid is submitted, and the date and time of the bid opening
- All bids submitted must be typed or written in ink and signed by the Contractor's designated representative

Work Specification - City of Charlotte Housing & Neighborhood Services 8/13/2020 2
Work Specification

Insulate Floor R-19
Install R-19 Kraft faced batt fiberglass insulation to floor where missing. Vapor barrier must face heated space. Use strong wire, "tiger teeth" or mesh to hold insulation in place.

Bid Cost: __________ X __________ = __________
Base Quantity Total Cost

Attic Insulation Increase to R-38
Increase attic insulation to R-38, contractor to attach verification to rafter at attic access, easily seen. Include ventilation baffles to code.

Bid Cost: __________ X __________ = __________
Base Quantity Total Cost

Vapor Barrier
Lay 6 mil poly vapor barrier on ground in crawl space and 6" up foundation walls. Overlap seams by 2' and secure with duct tape.

Bid Cost: __________ X __________ = __________
Base Quantity Total Cost

Vinyl Window
Dispose of window units and any security bars. Field measure, order and install new Energy Star rated vinyl, double glazed LOW-E windows including half screens. Insulate rough opening. Install new extension jambs, casing and sill as needed, prime and paint. Exterior trim to be wrapped in PVC coated aluminum coil as needed. Repair all areas disturbed by removal and installation. This installation is to include repairing any damaged header, framing (to include king studs, jack studs etc.) sub-floor, floor joists, band joists and sill. Any windows replaced in a bathroom must have tempered glass.

Bid Cost: __________ X __________ = __________
Base Quantity Total Cost

Prehung Metal Doors (3)
Front, Rear & Utility Doors
Remove existing door, frame and threshold. Install new Energy Star rated pre-hung exterior door. Insulate cavity. Install mortised dead bolt and lever handled door hardware keyed alike. Install wide peep sight. New casing and shoe molding will match existing. Apply primer and topcoat. This installation to include repairing any damaged header, door framing, to include wall framing, sub-floor, floor joists and sill.

Bid Cost: __________ X __________ = __________
Base Quantity Total Cost

Dryer Vent
Install 4" rigid aluminum vent tubing from the specified dryer location to a 4" wall mounted dryer vent hood with a back flow preventer and NO screening. Fasteners shall not protrude into the interior of the exhaust duct. Seal all seams in the system with duct mastic or aluminum foil tape, not duct tape. Secure duct and hood to framing.

Bid Cost: __________ X __________ = __________
Base Quantity Total Cost
Work Specification

Combination CO / Smoke Detector Hard Wired
Install a hard wired combination carbon monoxide and smoke detector with battery back up.

Bid Cost: __________ X __________ = __________
Base Quantity Total Cost

Smoke Detector Hard Wired
Install UL approved, interconnected, ceiling mounted smoke and heat detectors permanently wired into a receptacle boxes with battery backups in bedrooms and outside of sleeping areas.

Bid Cost: __________ X __________ = __________
Base Quantity Total Cost

LED Screw Base Bulb Installation
Replace all existing screw base (A-Type) lamps throughout the house with LED screw based omni directional (A-Type) lamps. Contractor to field verify quantity needed.

Bid Cost: __________ X __________ = __________
Base Quantity Total Cost

Electrical Scope - Outlets
Replace, to Code any loose wall outlets in dwelling

Bid Cost: __________ X __________ = __________
Base Quantity Total Cost

Double Bowl Sink Complete
Install a 18 gauge 33" x 22" x 8" double bowl, stainless steel, self rimming kitchen sink including a single handle metal body faucet, rated at 2.0 GPM or less, with a 15 year drip-free warranty, P-trap, supply lines, full port ball type shut-off valves & escutcheon plates on all supply & drain lines. No copper compression fittings.

Bid Cost: __________ X __________ = __________
Base Quantity Total Cost

Counter Tops Replace
Screw to base cabinet a square edged plastic laminate counter top. Provide end-caps and cutout for sink. Caulk counter top to adjoining walls with low VOC caulking to match wall color. Owner's choice of in-stock color and texture.

Bid Cost: __________ X __________ = __________
Base Quantity Total Cost
Work Specification

Cabinets Base
Replace base cabinets. Cabinets to be constructed of solid maple and plywood. No particle board allowed. See contractor's manual guidelines & specifications for full requirements.

Bid Cost: \( \frac{\text{Base}}{\text{Quantity}} \times \text{Quantity} = \text{Total Cost} \)

Cabinets Wall
Replace wall cabinets. Cabinets are to be constructed of solid maple and plywood. No particle board allowed. See contractor's manual guidelines & specifications for full requirements.
* Place two (2) cabinets (sized) center over stove
* Place two (2) cabinets (sized) over dryer

Bid Cost: \( \frac{\text{Base}}{\text{Quantity}} \times \text{Quantity} = \text{Total Cost} \)

Range Hood Exterior Vented
Install an exterior ducted enameled range hood with integral controls and light capable of 100 cfm at 70 sones. Attach hood to cabinet with screws. Include metal vent and roof or wall cap/damper assembly, using #14 copper Romex. Owner's choice of color.

Bid Cost: \( \frac{\text{Base}}{\text{Quantity}} \times \text{Quantity} = \text{Total Cost} \)

Prep & Paint Ceiling - Kitchen
Remove or cover hardware and accessories not to be painted. Scrape loose, peeling, cracked, and blistered areas. Clean oil, grease, fungus, dirt, and dust from surfaces. Fill holes and cracks. Prime all new materials and spot prime existing with acrylic latex. Top coat with Owner's choice of low VOC acrylic flat latex in all habitable rooms and low VOC acrylic semi-gloss latex in kitchen and baths. Replace or uncover hardware, fixtures and accessories. Any moving of furniture required shall be included.

Bid Cost: \( \frac{\text{Base}}{\text{Quantity}} \times \text{Quantity} = \text{Total Cost} \)

Ceiling Fan with Light - Kitchen
Install a 52" 3 speed flush mounted ceiling fan with a minimum two bulb UL approved, LED light fixture with shade and lamps. Include ceiling fan mounting box. New fan is to be Energy Star rated.

Bid Cost: \( \frac{\text{Base}}{\text{Quantity}} \times \text{Quantity} = \text{Total Cost} \)
Work Specification

Floor System Repair - Kitchen  Health Homes

Remove all fixtures not built in. Dispose of damaged/unsafe components of floor assembly. Work may include installation of 2"x 8" joists hung 16" on center, plywood or tongue and groove subfloor, wall studs & plates. Include replacing all deteriorated band joists and insulating floor to code.

Bid Cost: \( \frac{\text{Base}}{\text{Quantity}} = \text{Total Cost} \)

Resilient Flooring - Kitchen

Install 25 year warranted resilient floor covering per manufacturer’s specifications. Flooring material is to be vinyl interlocking planks and be waterproof. Include transitions and painted or stained wood quarter-round at all perimeters to complete installation.

Bid Cost: \( \frac{\text{Base}}{\text{Quantity}} = \text{Total Cost} \)

Laundry Washer Connection Box - Kitchen

Install PVC laundry connection box with hot and cold hose bibbs, and 20 amp outlet on a separate circuit to service a washing machine. Repair wall studs, plates and girder below if needed. Replace any wood paneling removed for piping. Seal all air gaps, include insulation. Existing Drain line is inoperable.

Bid Cost: \( \frac{\text{Base}}{\text{Quantity}} = \text{Total Cost} \)

Replumb Waste Lines & Vents

Remove all drain, waste and wet vent lines to code legal dump. Install schedule 40 PVC to service one 3-piece bath, kitchen and laundry area from the roof vent pipe/pipes thru the foundation wall to include a main clean out outside of house and any interior clean outs required, installed to code. Repair any wall or ceiling tear out required to install system. Replace to exterior of foundation wall to new clean-out. Snake line from new clean-out to City connection.

Bid Cost: \( \frac{\text{Base}}{\text{Quantity}} = \text{Total Cost} \)

Asbestos Abatement Scope

See attached scope. An allowance to complete the scope of work attached.

Bid Cost: \( \frac{\text{Base}}{\text{Quantity}} = \text{Total Cost} \)
Work Specification

 Prep & Paint Exterior Surfaces

Prep and paint all exterior painted surfaces. Properly dispose all loose materials. Secure or replace all loose, broken, rotted or deteriorated materials. Caulk and fill all cracks, voids, holes, etc. prior to applying 25-year or better Low VOC paint. Owners choice of color. All work to be done in a neat & professional manner. Use care to protect all surfaces not intended for paint coverage.

**Note:** Attach copy of analysis results from NLLAP laboratory
(Find NLLAP labs at: http://www2.epa.gov/lead/national-lead-laboratory-accreditation-program-list)
General Work Practices:

- Warning signs posted at entrance to work area
- Work area contained to prevent spread of dust and debris
- Work site properly cleaned after renovation
- Personal Protective Equipment (used as needed - disposable suits/boots, etc.)
- Washing station provided (face and hand washing)
- At the conclusion of each work day, waste contained on-site is stored to prevent access and release of dust or debris. Waste contained while being transported off-site.

Interior work:

- All objects in the work area removed or covered with plastic with edges/seams sealed
- Ducts (e.g., HVAC, etc.) in the work area closed, covered with plastic and sealed
- Windows in the work area closed
- Doors in the work area closed and sealed
- Doors used to enter the work area are covered to allow passage of workers, but prevent spread of dust
- Floors in the work area covered with taped-down plastic, minimum 6 feet from renovated surface
- Work area surfaces and objects cleaned using HEPA vacuum and/or wet cloths or mops

Exterior Work:

- Closed windows and doors in and within 20 feet of the work area
- Doors used to enter the work area are covered to allow passage of workers, but prevent spread of dust
- Ground covered by plastic sheeting extending 10 feet or more from work area – plastic sheeting anchored to building and edges weighed down
- Vertical containment erected if the renovation will affect surfaces within 10 feet of the property line or extra precautions were taken to prevent migration of dust and debris to adjacent property
- All chips and debris picked up, protective sheeting misted, folded dirty side inward, and taped for removal
Cleaning Verification (CV) Documentation - Refer to EPA CV Card for Steps
(Use supplemental sheets to record additional CV results if needed)

Exterior: Visual Inspection: Date Passed: ______ N/A:______ No exterior work conducted

**Note:** In order to pass an exterior visual inspection there can't be any visible debris, paint chips or residue on surfaces in or below the work area.

Interior: Visual Inspection: Date Passed: ______ N/A:______ No interior work conducted

**Note:** In order to pass an interior visual inspection there can't be any visible debris, paint chips or residue on any surfaces, including all objects and surfaces in the work area and within two feet of the work area. For interior work use the appropriate number of wet/dry wipe(s) for each window sill, uncarpeted floor and countertop surface inside the work area. List each of the areas or rooms (e.g., bedroom, living room, hallway, etc.) where cleaning verification was performed in the following table(s). If dust cleanup was performed in lieu of cleaning verification, attach a copy of the results.

</table>

Example: S1 represents 1st sill wiped, S2 represents 2nd sill wiped, F1 represents 1st surface wiped on floor and so on.

*Second wet wipe (if needed) conducted only after re-cleaning the failed work area(s). Dry wipe (if needed) used only after second wet wipe failure and after re-cleaning the failed work area. Allow surface to dry or wait 1 hour (whichever is longer) before performing dry wipe.

**For surface areas greater than 40 ft², divide the area roughly into equal sections (each area less than 40 ft²) and use a separate wipe for each area.

*** Other surfaces the renovator may choose to perform CV on, but are not required by regulatory work practice.

**Note:** The NC certified lead renovation firm is required to submit a copy of information, documenting compliance, to the building owner, or if different, the owner or occupant, upon delivery of final invoice or within 30 days after completing the renovation, whichever is earlier. Date when a copy of records were provided to owner or occupant:________. Owner signature/acknowledgement:________

I certify that the information provided on this checklist is true and complete:

Name and title NC Certified Renovator:________

Date:________

Disclaimer: The information reflected on this recordkeeping checklist is provided as a resource tool only and the checklist itself is not required to be used. It is subject to change without notice. The information contained in this or future versions are not intended to be all inclusive and should not be interpreted as such. All applicable renovation activities must comply with the North Carolina General Statutes §130A-453.22-453.31 and the rules adopted to implement the Lead-Based Paint Hazard Management Program for Renovation, Repair and Painting (LHMP-RRP) 10A NCAC 41C .0900. For questions regarding the LHMP-RRP, contact the Health Hazards Control Unit at (919) 707-6950 or visit our website at: http://epi.publichealth.nc.gov/lead/hmp.html.
