**Requirements For Bidders**

The City awards rehabilitation bids to the lowest responsive and responsible bidder. A responsible bidder for the safe home program is one who:

1) Is a licensed general contractor in the State of North Carolina;

2) Has an Renovate, Repair & Paint Certification (http://www2.epa.gov/lead/renovation-repair-and-painting-program);

3) Is not listed on a local, state or federal debarment list;

4) Carries an appropriate amounts of insurance;

5) Can provide references verifying the contractor has completed work of a similar scope in a good workmanship like manner or successfully completed prior work for the Safe Home program. Referenced work must have been completed in one year or less from date of this invitation to bid.

A responsive bidder must:

1) Submit all requested documentation on time;

2) Meet the above requirements for responsibility at the time of bid submittal;

3) Have the capacity to meet the required schedule for the project.

4) Existing rehab projects contracted by the contractor must be on schedule.

The City reserves the right to waive any minor informalities or irregularities, which do not go to the heart of the bid submittal or prejudice other offers, or to reject, for good and compelling reasons, any or all bid submittals.

Instructions to Bidders

Explanations to Bidders

Any explanation desired by a Contractor regarding the meaning or interpretation of the advertisement for bids, drawings, specifications, etc., must be requested in writing to the Rehabilitation Specialist with sufficient time allowed for a reply to each Contractor before the submission of their bids. Any interpretation made will be in the form of an addendum to the invitation for bids, drawings, specifications, etc., and will be furnished to all prospective Contractors. The Contractor must acknowledge any revision to the bid documents in the space provided on the bid form and it must be submitted with their bid package.

Preparation of Bids

Bids shall be submitted on the forms furnished, or copies thereof, and must be manually signed. If erasures or other changes appear on the forms, the person signing the bids must initial each erasure or change.

- The Contractor’s Bid Proposal must be properly executed and submitted on the form provided. Bids by Contractors must be received by the Rehabilitation Specialist at the time and place specified on the “Invitation to Bid”
- No bid will be considered unless all individual work items on the Bid Form including any addendums are priced. The sum of all work items must equal to the Total Bid Amount.
- Unless called for, alternate bids will not be considered
- Modification of bids already submitted will be considered if received at the office designated in the invitation for bids by the time set for opening of bids

Submittal of Bids

- Sealed bids will be submitted to the Safe Home Program Office as directed in the invitation to bid prior to or at the appointed bid opening time
- Bid will be time stamped on the date of delivery
- Each bid must be submitted in a sealed envelope bearing on the outside the name of the Contractor, the name of the project for which the bid is submitted, and the date and time of the bid opening
- All bids submitted must be typed or written in ink and signed by the Contractor's designated representative
• Failure to include all forms may result in rejection of a bid
• Required Bid Package Forms:
  o Scope of Work
  o Addenda Acknowledgement
  o Itemized Work Sheet
  o Subcontractor Certifications (if applicable)

Work Specification

Removal of Asbestos Containing Material

General Requirements

The third layer of flooring on the kitchen floor is an asbestos containing material (ACM). Also there is a small amount of insulation on some water supply lines that is presumed to be ACM.

The contractor is responsible for the proper removal and disposal of all ACM disturbed in the course of working on this project.

If all disturbed ACM materials will fit into one asbestos waste or glove bag, contractor’s workers who are properly trained under OSHA Construction Standard Asbestos Regulations 29 CFR 1926.1101 may remove and dispose of the ACM using safe work practices.

If all disturbed ACM materials will not fit into one asbestos waste or glove bag, or if workers are not properly trained, the contractor shall hire a state certified asbestos abatement firm to remove and dispose of the disturbed ACM materials.

|-------------|-------------|-------------|
| Base        | Quantity    | Total Cost  |

Exterminate Termites

General Requirements

Exterminate for termites. Drill and patch foundation and pavement where necessary. Exterminator must be licensed and provide a 1 year guarantee with an optional yearly renewable warranty for the homeowner.

| Bid Cost: _____________ X _____________ = _____________ |
|-------------|-------------|-------------|
| Base        | Quantity    | Total Cost  |

Make Non-Original Windows Operable

General Requirements

Remove plastic sheeting from windows in the living room, dining room, and kitchen. Inspect windows and make minor repairs as necessary to make windows operate smoothly and lock securely.

| Bid Cost: _____________ X _____________ = _____________ |
|-------------|-------------|-------------|
| Base        | Quantity    | Total Cost  |

Install Storm Windows

General Requirements

Install storm windows on all windows except at original front and back porches.

Storm windows are subject to pre-approval by the State Historic Preservation Office and must meet the following conditions:

The visual impact of adding storm windows must be kept to a minimum. The division of the storm windows, if any, must align with the meeting rail of the historic window, the frames must not be excessively bulky, and the color of the storm windows must match that of the window sash or frame.

Submit specifications and examples of the storm window you intend to use with your bid.

Storm panels mounted on the interior of the windows may be an acceptable option.

Work Specification

Upgrade Electrical System

Upgrade the electrical system to comply with all requirements of the current NC Electrical Code. This includes but is not limited to:

* de-energize and remove all knob and tube wiring throughout the structure

* other existing wiring may be re-used provided it is in full compliance with the Electrical Code

* Replace electrical service with new 110/220 volt, 200 amp panel with main disconnect and 24 circuit panel board; meter socket; weather head; service cable; and ground rods and cable. Caulk exterior service penetrations. Label circuits legibly. Replacement of all sub-panels is included.

* Install GFCI breakers on all two wire receptacle circuits. Install GFCI/AFCI breakers on all two wire bedroom receptacle circuits. Label outlets per Code requirements.

* install new wiring, outlets, and devices as necessary to comply with the Electrical Code or to service existing equipment or to power items and equipment added to the structure by other items in this scope of work.

* scope includes installation of smoke and CO detectors as required by the Electrical Code

* scope includes GFCI devices at Code required locations.

* Replace receptacles, switches, and cover plates at all existing outlets that are incorporated into the upgraded electrical system. Remove devices from abandoned outlets and install blank cover plates.

* anything else required to produce a safe, fully functioning electrical system in full compliance with the current NC Electrical Code.

* scope includes repair of all ceiling, wall, and floor tear out.

---

### Light Fixture Replace
