Briar Creek Sewer Improvement Project Construction Is Coming To Your Area Soon

WHAT:
Sanders Utility Construction Co., under Charlotte Water’s supervision, will begin pipe installation for Phase III of the Briar Creek Sewer Improvement Project.

WHEN:
Beginning in mid-May.

WHERE:
Construction easements along Briar Creek from Shannonhouse Drive to Ruth Drive (see map).

WHAT TO EXPECT:
- **Pipe delivery and storage** – Pipe is delivered and stored within the construction easements along the creek.
- **Establishing a safe work zone** – Fencing is already in place and pipe will be stabilized to prevent it from moving.
- **Trench digging**
- **Placing pipe and backfilling**
- **Underground rock blasting** (if required) to install the pipe. Residents may hear a warning horn just prior to the blast. The area will be monitored with seismographs to gauge earth vibration levels as required. Blasting is a standard construction procedure and all safety precautions will be taken.
- **Construction traffic** along the creek, within the easements.

NEXT STEPS:
Pipe installation is expected to take two months. Once pipe is installed near your property, you may continue to see construction traffic along the easements as pipe will be tested, manholes will be adjusted and temporary restoration will occur.

QUESTIONS:
Please visit the project website at www.charlottewater.org (click on “projects”) for updates on progress. If you have a question, please call Amanda DeWeese at 704-374-9300.
