Wastewater System Improvements
What Typical Construction and Restoration Looks Like

SURVEYING AND STAKING

The project area will have various markings along the pipe alignment. Trees may be labeled differently. Please talk to the project manager or inspector to confirm what markings may mean for the project.

MOBILIZATION AND SITE PREPARATION

Security and privacy fencing may be installed.

CONSTRUCTION ZONE

Construction zones will be large enough for excavators and dump trucks to move.

PIPE CONSTRUCTION

24-inch wastewater pipe project under a street.

DURING CONSTRUCTION/AFTER RESTORATION

Charlotte Country Club Golf Course during construction and immediately following restoration.

Manholes vary in size depending on the amount of wastewater a community creates.
