

Clems Branch Wastewater System Improvement Project

July 29th, 2019 Neighborhood Update

Charlotte Water (CLTWater) and contractor RH Price Inc. are testing the existing pipe and installing new pipe. Crews completed installation in the intersection of Springwell Street and Prescott Hill Avenue.

NEXT STEPS (weather permitting)

- July 29th through August 24th, crews will:
 - Due to poor existing subgrade conditions, traffic will be detoured off Springwell, onto Sullivan's Ridge (right side of Springwell) and enter Lancaster Highway through Landing Place Lane.
 - A police officer is scheduled to be on site during peak hours Monday through Friday at intersection of Landing Place Lane to assist vehicles when turning on to Lancaster Highway.
 - The contractor is scheduled to remove the detour of Springwell Street before August 26th when school starts. If crews are unable to reopen in time, a police officer will continue to assist school buses at Landing Place Lane.

- Residents can report any construction related repairs, restoration needs, or safety concerns via a form on the project website or by going to this web address:
<https://charlottenc.seamlessdocs.com/f/clemsbranch>.
