Construction is Coming To Your Area

Conklin Place and Chenago Drive

Drinking Water Pipe Replacement Project

charlottewater.org

Drinking Water Improvement Project

Starting the week of August 17th, Charlotte Water (CLTWater) and contractor C and D Utility will start replacing existing 2-inch galvanized steel pipe (GSP) water main with new water mains under the Conklin Place and Chenago Drive.

During Construction

Construction will last an estimated four months. Construction can be loud, dirty and inconvenient. Crews will be using heavy equipment and storing materials on-site. Construction will take place beside the road in the road right-of-way.

Property Access (Driveway)

Construction activities will take place within the street right-of-way. However, driveway and sidewalk access may be limited at times. If you need assistance, please talk to contractor or call project inspector. Please alert us to invisible fence, irrigation systems, and other underground improvements to your home near the street.

Lane Closures and Street Parking

Street Parking may be restricted when construction is in the immediate area. Flaggers will help drivers navigate around any lane closures.

Water Outages

In the unexpected event of a water service interruption, the issue will be treated as an emergency and repairs will be made to restore service as quickly as possible.

Flowing Hydrants

Residents may see water flowing from hydrants as part of construction activities.

Project Contacts

Project Coordinator - Olivier Veille, 704-336-7461 or Olivier.Veille@charlottenc.gov.

Project Inspector - Weston Fulp, 980-259-1487 or Weston.Fulp@charlottenc.gov.
