

## Wastewater Pipe Replacement & Temporary Bypass

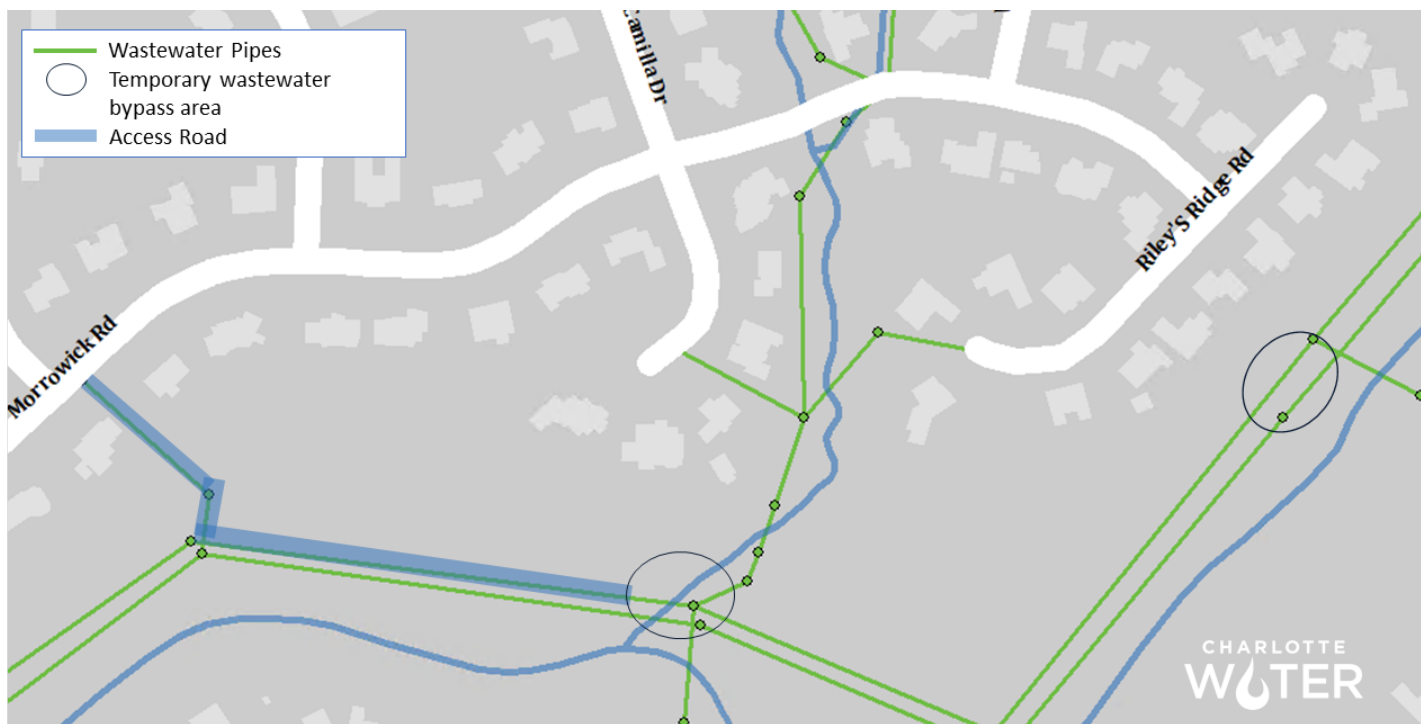

CLTWater will replace a wastewater pipe crossing McAlpine Creek from January 29<sup>th</sup> through March 30<sup>th</sup>. In order to complete this work, crews will:

- set up temporary pumps, generators and above ground pipes will be used to bypass existing sewage flows. The pumps and generators will be in use 24-hours a day for a minimum of 60 days.
- clear bushes and trees within Charlotte Water easements as need to facilitate construction.
