

January 2019

Charlotte Water and Harper General Contractors are improving the Oxfordshire Wastewater Lift Station at 5514 Crown Hill Road that serves the neighborhood. The project will start within the next 10 days. The Improvements project will be under construction for approximately 30 to 45 days from construction start.

### **During Construction**

Construction can be inconvenient.

Crews will be

- Utilizing excavators to install concrete vaults, electronic meters and associated piping.
- Installing upgraded electrical, instrumentation and monitoring controls.
- Utilizing hoists, cranes, pumps and noise-reducing generators.
- Adding gravel to the driveway and seeding some areas.

Please be aware of your surroundings near the construction site and report any safety concerns to the project inspector or project manager as soon as possible.

### **Deliveries Temporarily Blocking a Lane**

Construction activities will take place on City of Charlotte property. However, expect to see construction traffic on your street. Occasionally large deliveries may block a lane. Flaggers will help drivers get around the delivery.

### **Contacts**

Project Inspector: Mike Reeves, 980-721-9170, [mreeves@charlottenc.gov](mailto:mreeves@charlottenc.gov)

Project Manager: Chuck Cowherd, PE, 704-578-3007, [ccowherd@charlottenc.gov](mailto:ccowherd@charlottenc.gov)

Thank you for your patience as we move forward with this important project. Charlotte Water is committed to providing excellent water services to our customers. To learn more, please visit [www.charlottewater.org](http://www.charlottewater.org).
