Subject: **Eastway Drive (3600 & 3700 blocks)
Water Main Replacement and Abandonment**

Project Number: **7030700015-17-011**

Dear: **Customer**

Charlotte Water has contracted with: **Dallas 1 Construction, LLC,**
Office: **704-509-4547** Emergency: **704-309-9697**

to replace the water main along the west side of Eastway Drive between Goodwin Ave. and US74 beginning in **early December**. There is no cost or action required to maintain your existing service. Water service and access to property will be maintained unless advance notice is given. Planned Water Outages will be scheduled 72 hours in advance. However, unplanned water outages may occur and will be treated as emergencies. Please read the **Freeze Notice** on back to know what you can do to help maintain your service during freezing temperatures.

Construction will take place in the street right-of-way. Method of installation beneath the sidewalk will use trenchless technology. The curb lane will be closed. However, access to driveways will be open between traffic cones or drums. Please exercise caution when entering or leaving driveways. Don't hesitate to ask for assistance, especially if your views are obstructed.

Construction will conform to Charlotte Water standards and specifications. Excavations will occur between the hours of 9 AM and 4 PM on weekdays. Duration is expected to last 6 to 10 weeks.

Questions or comments may be directed to Project Inspector, Fiorenzo Martucci, 980-721-0225 or Richard Ingle at: ringle@charlottenc.gov.
(704) 336-4927,
(704) 578-3009 (mobile).

Sincerely,
CHARLOTTE WATER

Richard A. Ingle, EI
Project Coordinator
